CMMC-CCA Valid Test Labs & Reliable CMMC-CCA Test Braindumps

By gathering, analyzing, filing essential contents into our CMMC-CCA training quiz, our professional experts have helped more than 98 percent of exam candidates pass the exam effortlessly and efficiently. You can find all messages you want to learn related with the exam in our CMMC-CCA practice engine. Any changes taking place in the environment and forecasting in the next CMMC-CCA Exam will be compiled earlier by them. About necessary or difficult questions, they left relevant information for you. You can just have a try on our CMMC-CCA free demo to check the quality.

Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details
Topic 1	• Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.
Topic 2	• CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.
Topic 3	• Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.
Topic 4	• CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.

Free PDF Quiz 2025 CMMC-CCA: Trustable Certified CMMC Assessor (CCA) Exam Valid Test Labs

There may be customers who are concerned about the installation or use of our CMMC-CCA training questions. You don't have to worry about this. In addition to high quality and high efficiency, considerate service is also a big advantage of our company. We will provide 24 - hour online after-sales service to every customer. If you have any questions about installing or using our CMMC-CCA Real Exam, our professional after-sales service staff will provide you with warm remote service. As long as it is about our CMMC-CCA learning materials, we will be able to solve. Whether you're emailing or contacting us online, we'll help you solve the problem as quickly as possible. You don't need any worries at all.

Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q138-Q143):

NEW QUESTION # 138
An OSC seeking Level 2 certification is working with an ESP. The organization is trying to determine if the ESP is considered within the assessment and is reviewing the Service Level Agreement (SLA) between the organization and the ESP. Which SLA component should be taken into consideration to determine if the ESP is within the assessment scope?

- A. Measurements
- B. Services
- C. Penalties
- D. Intervals

Answer: B

Explanation:
The determining factor for whether an ESP is in scope is the services provided. If the ESP provides services that process, store, or transmit CUI or provide security protection functions, then the ESP is within scope.
Other SLA components (intervals, penalties, measurements) are irrelevant to scope determination.
Exact Extracts:
* CMMC Scoping Guide: "External Service Providers that provide services involving the storage, processing, or transmission of CUI or provide Security Protection Assets are considered in scope."
* "The OSC must identify in the SSP which services are provided by ESPs and how compliance is achieved." Why other options are not correct:
* B (Intervals): Refers to timing of services, not scope relevance.
* C (Penalties): Contract penalties are unrelated to CMMC scope.
* D (Measurements): SLAs metrics do not determine scope.
References:
CMMC Scoping Guide - Level 2, Version 2.13: ESPs and scope determination (pp. 10-13).
CMMC Assessment Guide - Level 2: Use of SLA to validate ESP involvement.

NEW QUESTION # 139
During the assessment process, a CCA encounters a situation in which the evidence provided by the OSC raises concerns about its adequacy and alignment with the CMMC practice being assessed. What priority factors must the CCA have considered to arrive at these concerns?

- A. The level of detail and granularity provided in the evidence
- B. The format and presentation of the evidence
- C. The completeness of the evidence across all systems and processes
- D. Whether the evidence is the right evidence and meets the intent of the CMMC practice

Answer: D

Explanation:
Comprehensive and Detailed in Depth Explanation:
The CMMC Assessment Process (CAP) emphasizes that evidence sufficiency hinges on whether it aligns with the intent of the CMMC practice and is the "right" evidence to demonstrate compliance (e.g., meeting assessment objectives). The CCA's primary concern is not the format (Option A), completeness across all systems (Option B), or detail level (Option C), but whether the evidence directly addresses the practice's requirements. For example, if assessing AC.L2-3.1.1, the evidence must show authorized

access control, not just exist in a polished form. Option D is the priority factor per CAP, making it the correct answer.
Reference Extract:
* CMMC Assessment Process (CAP) v1.0, Section 4.2:"The CCA must determine if evidence is the right evidence and meets the intent of the practice being assessed."Resources:https://cyberab.org/Portals/0 /Documents/Process-Documents/CMMC-Assessment-Process-CAP-v1.0.pdf

NEW QUESTION # 140

To showcase progress on the performance of their contract, a contractor provides semi-annual demonstrations to their federal client at the client's conference room. The conference room is inside the client's facility, meaning the contractor does not have control over security. All prototypes and documents subject to the contract are guarded by the contractor's staff whenever they are in transit and at the conference room. How should you, the CCA, handle the conference room when validating the OSC's assessment scope?

- A. More information is needed.
- B. List it as a Contractor Risk Managed Asset (CRMA).
- C. List it as in scope.
- D. List it as out of scope.

Answer: D

Explanation:
Comprehensive and Detailed Explanation:
The CMMC Assessment Scope - Level 2 specifies that the scope includes assets under the OSC's control that process, store, or transmit CUI, or provide security protections for such assets. Theconference room, located in the federal client's facility, is not under the OSC's control, and the temporary presence of prototypes and documents does not change this. The OSC mitigates risk by guarding these items, but the room itself is managed by the government's security measures, placing it outside the OSC's assessment boundary. Per the scoping guide, facilities not owned or controlled by the OSC are typically out of scope unless they are integral to CUI handling, which is not the case here due to the temporary nature of use.
Option A is incorrect as the room is not OSC-controlled. Option B misapplies CRMA, which pertains to OSC- managed assets. Option C is unnecessary given the clear lack of OSC control. D is correct per the guidance.
Reference:
CMMC Assessment Scope - Level 2, Section 2.3.5 (Out-of-Scope Assets), p. 7: "Assets not under the OSC's control, such as government facilities, are out of scope."

NEW QUESTION # 141

During a CMMC Level 2 assessment, the OSC's Assessment Official asks the Lead Assessor if they can provide a list of recommended vendors to improve their security practices after the assessment. What should the Lead Assessor do?

- A. Offer to provide general guidance on vendor selection without specific recommendations.
- B. Agree to provide the list but only after approval from the Cyber AB.
- C. Provide the list after the assessment is complete to assist the OSC.
- D. Politely refuse, explaining that the C3PAO cannot offer consulting or vendor recommendations per the CoPC.

Answer: D

Explanation:
Comprehensive and Detailed in Depth Explanation:
The CoPC prohibits consulting, including vendor recommendations (Option B). Options A, C, and D risk violating this principle.
Extract from Official Document (CoPC):
* Paragraph 3.1 - Professionalism (pg. 6):"C3PAOs shall not offer consulting services or vendor recommendations." References:
CMMC Code of Professional Conduct, Paragraph 3.1.

NEW QUESTION # 142

You are part of the team conducting a CMMC assessment for an OSC. Because of the sensitive nature of the OSC's technologies, your team signed an NDA. However, you observe one of the Assessment Team members copying something from the OSC's computer systems. You know they don't have permission because the NDA states that the OSC PoC will provide any required material. What should you do in this case?

- A. Report the team member to the Cyber AB.
- B. Inform the OSC of the incident.
- C. Allow them to copy the files.
- D. Approach the team member and remind them of their confidentiality obligations under the CoPC.

Answer: D

Explanation:
Comprehensive and Detailed in Depth Explanation:
The CoPC requires internal correction of confidentiality breaches first (Option C). Options A and D skip this, and Option B violates the NDA.
Extract from Official Document (CoPC):
* Paragraph 3.2(3) - Confidentiality (pg. 6):"Do not copy materials from external entities without explicit permission." References: CMMC Code of Professional Conduct, Paragraph 3.2(3).

NEW QUESTION # 143

......

Our CMMC-CCA valid practice questions are designed by many experts in the field of qualification examination, from the user's point of view, combined with the actual situation of users, designed the most practical CMMC-CCA learning materials. We believe that no one will spend all their time preparing for CMMC-CCA Exam, whether you are studying professional knowledge, or all of which have to occupy your time to review the exam. Using the CMMC-CCA test prep, you will find that you can grasp the knowledge what you need in the exam in a short time.
