Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> • CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.
Topic 2	<ul style="list-style-type: none"> • Scoping: This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments
Topic 3	<ul style="list-style-type: none"> • CMMC Model Construct and Implementation Evaluation: This section of the exam measures the evaluative skills of cybersecurity assessors, focusing on the application and assessment of the CMMC model. It includes understanding its levels, domains, practices, and implementation criteria, and how to assess whether organizations meet the required cybersecurity practices using evidence-based evaluation.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q105-Q110):

NEW QUESTION # 105

What are CUI protection responsibilities?

- A. Safeguarding
- B. Shielding
- C. Correcting
- D. Governing

Answer: A

NEW QUESTION # 106

A CCP is providing consulting services to a company who is an OSC. The CCP is preparing the OSC for a CMMC Level 2 assessment. The company has asked the CCP who is responsible for determining the CMMC Assessment Scope and who validates its CMMC Assessment Scope. How should the CCP respond?

- A. "The OSC determines the CMMC Assessment Scope, and the C3PAO validates the CMMC Assessment Scope."
- B. "The OSC determines the CMMC Assessment Scope, and the CCP validates the CMMC Assessment Scope."
- C. "The CMMC Lead Assessor determines the CMMC Assessment Scope, and the OSC validates the CMMC Assessment Scope."
- D. "The CMMC C3PAO determines the CMMC Assessment Scope, and the Lead Assessor validates the CMMC Assessment Scope."

Answer: A

NEW QUESTION # 107

The IT manager is scoping the company's CMMC Level 1 Self-Assessment. The manager considers which servers, laptops, databases, and applications are used to store, process, or transmit FCI. Which asset type is being considered by the IT manager?

- A. Facilities
- B. Technology
- C. ESP
- D. People

Answer: B

NEW QUESTION # 108

At which CMMC Level do the Security Assessment (CA) practices begin?

- A. Level 4
- **B. Level 2**
- C. Level 3
- D. Level 1

Answer: B

NEW QUESTION # 109

The results package for a Level 2 Assessment is being submitted. What MUST a Final Report. CMMC Assessment Results include?

- A. Suggested improvements for each failed practice
- B. Affirmation for each practice or control
- C. Gaps or deltas due to any reciprocity model are recorded as met
- **D. Documented rationale for each failed practice**

Answer: D

Explanation:

Understanding the CMMC Level 2 Final Report Requirements For a CMMC Level 2 Assessment, the Final CMMC Assessment Results Report must include:

Assessment findings for each practice

Final ratings (MET or NOT MET) for each practice

A detailed rationale for each practice rated as NOT MET

The CMMC Assessment Process (CAP) Guide states that if a practice is marked NOT MET, the assessors must provide a rationale explaining why it failed.

This rationale helps the OSC understand what needs remediation and, if applicable, whether the deficiency can be addressed via a Plan of Action & Milestones (POA&M).

The Final Report serves as an official record and must be submitted as part of the results package.

A). Affirmation for each practice or control (Incorrect)

While the report includes a MET/NOT MET rating for each practice, affirmation is not a required component.

C). Suggested improvements for each failed practice (Incorrect)

Assessors do not provide recommendations for improvement—they only document findings and rationale.

Providing suggestions would create a conflict of interest per CMMC-AB Code of Professional Conduct.

D). Gaps or deltas due to any reciprocity model are recorded as met (Incorrect) If an organization is leveraging reciprocity (e.g., FedRAMP, Joint Surveillance Voluntary Assessments), gaps must still be documented—not automatically marked as "MET." The correct answer is B. Documented rationale for each failed practice, as this is a mandatory requirement in the Final CMMC

Assessment Results Report.
