## What is the duration of the CMQ-OE Exam

- Number of Questions: 165
- Length of Examination: 4 hour 30 minutes
- Format: Multiple choices, multiple answers

## CMQ/OE Exam Structure

The ASQ CMQ/OE test includes different multiple-choice questions that will assess their knowledge of the topics from the exam syllabus. The number of items, though, differs based on the way the exam is delivered. Therefore, if the candidates take a computer-delivered test, they will have to solve 180 questions. This type of exam is delivered in the English language only. Plus, out of the total number of questions, only 165 are scored. The remaining ones are unscored queries and they are used for statistical purposes. The total time allotted for the candidates will be 4 hours and 18 minutes. If the examinees want to take this test with paper and pencil, then they will have to solve 165 inquiries only. Still, the type of questions remains multiple-choice. As for the allotted time, the candidates will have only four hours to answer as many questions as possible. Notably, this type of validation is delivered in both English and Mandarin. Another important aspect to mention is that all exams are open books. This means that the examinees can bring and use any type of materials they want.

## Candidates for CMQ/OE

The candidates who are interested in the CMQ/OE certification exam target a position that will help them lead different initiatives that improve various processes. Thanks to this test and its associated designation, the individuals will be able to monitor and establish effective relationships with customers or suppliers. Also, it helps them understand how they can develop systems for measurement or improve the organizational processes. The individuals interested in taking this CMQ/OE certification exam must demonstrate that they have at least 10 years of experience in a full-time position in one of the areas tested for the designation. Plus, half of their professional experience must be in a decision-making role. The test-takers can waive several years of the required professional experience if they have a solid education. Therefore, they can waive one year if they have a diploma from a trade or technical school. Besides, two years can be surrogated if candidates hold an associate degree. The applicants can decrease the necessary experience by four years if they hold a bachelor's degree. Finally, half of the required working experience can be waived if the candidate has a master's or doctorate diploma.

Based on the data presented in the charts, it is evident that defect type E is prominent in Customer X's QA results but not in ABC's Quality Assurance or Customer Y's QA results. To address this issue, ABC should take a collaborative approach. The most appropriate response is to share the ABC defect data with Customer X and offer to work together to identify and address the root cause of the defect. By doing so, ABC can demonstrate its commitment to quality improvement and actively engage with the customer to find a solution. This approach fosters transparency and collaboration, which are essential for resolving quality-related issues<sup>1</sup>.
