Tableau Desktop Specialist Sample Questions (Q208-Q213):

NEW QUESTION # 208

Which of the following points are True about Viz Animations?

- A. It is possible to turn them on for the entire workbook at once
- B. Sequential animations take more time but make complex changes clearer by presenting them step-by-step
- C. Animations work well with maps, polygons, and density marks in web browsers
- D. They can be turned on for certain worksheets only

Answer: A,B,D

Explanation:

All of the given options are true except - Animations work well with maps, polygons, and density marks in web browsers.

From the official documentation:

Unsupported browsers and features

Animations are supported by all web browsers except Internet Explorer.

The following Tableau features don't animate:

- Maps, polygons, and density marks in web browsers
- Pie and text marks
- Axes and headers
- Forecasts, trends, and reference lines
- Page history trails (If a viz includes these, turn off animations to avoid unexpected behavior.)

Animations

Workbook Default

On Off

Duration

0.30 seconds (Fast)

Style

Simultaneous

Selected Sheet

Sheet 2

Animation

Off (Default)

Duration

0.3 seconds (Defa...)

Style

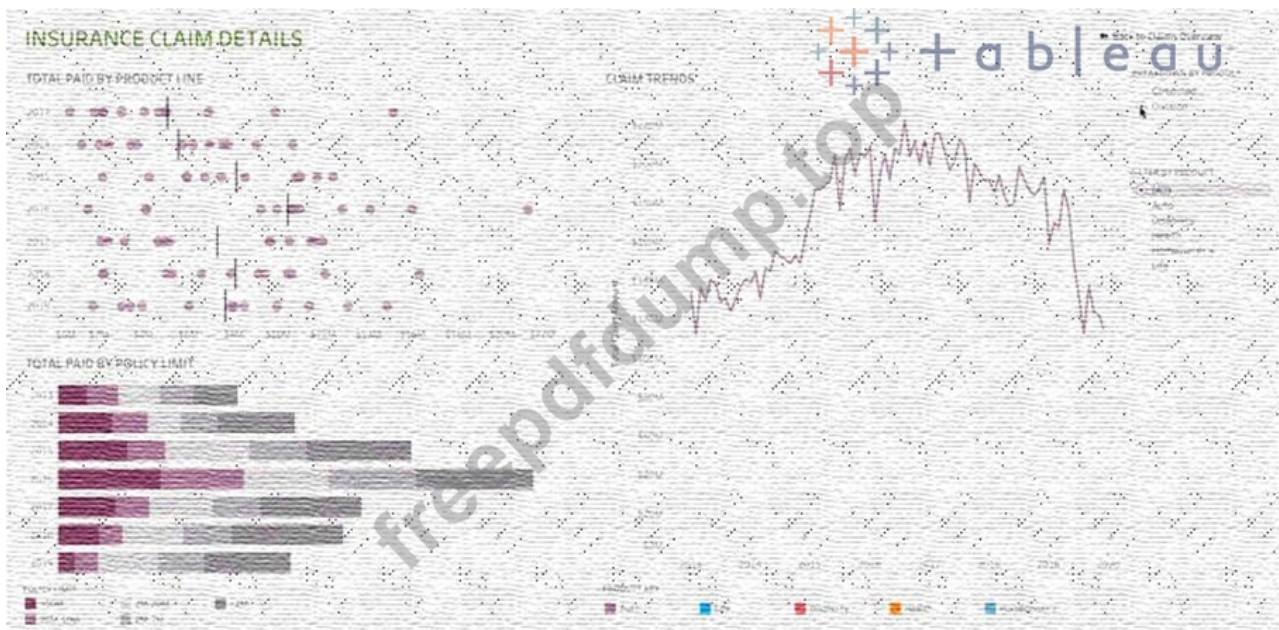

Simultaneous (Def...)

Reset All

As seen above, we can either turn the animations for the entire workbook (upper red box), or only for the current sheet (lower red box)

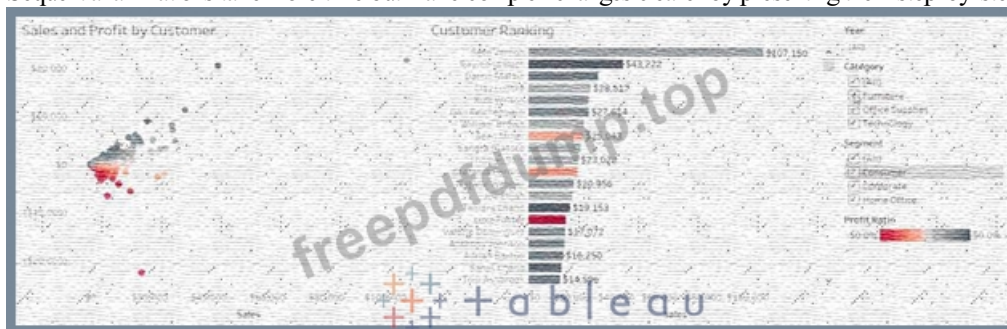

1) Simultaneous animations

The default simultaneous animations are faster and work well when showing value changes in simpler charts and dashboards.

2) Sequential animations

Sequential animations take more time but make complex changes clearer by presenting them step-by-step.

NEW QUESTION # 209

The option to create bins is available for which type of field?

- A. Boolean
- B. String
- C. Date
- D. Numeric

Answer: D

Explanation:

The option to create bins in Tableau is available for numeric fields. Bins allow you to group a series of numeric values into larger segments, which can simplify analysis and help in creating histograms or other visualizations that show the distribution of data. For example, you can create bins to group ages into categories like 0-10, 11-20, etc.

NEW QUESTION # 210

Which of the following are valid ways to add Totals to a view?

- A. Using the Analytics Pane
- B. From the Analysis Tab in the Menu bar on top
- C. Using the Data Pane
- D. Using the Marks shelf

Answer: A,B

Explanation:

Explanation

To add totals to a view using the Analytics pane:

The screenshot shows the Tableau Desktop interface. On the left, the 'Data' pane is visible with dimensions: Customer (Customer Name, Segment), Order (Order Date, Order ID, Ship Date, Ship Mode), Location (Country, State, City, Postal Code), and Product (Category, Sub-Category, Manufacturer, Product Name). Measures include Profit (bin), Region, and Measure Names. The 'Marks' shelf has 'SUM(Sales)' selected. The 'Columns' shelf has 'Region' and the 'Rows' shelf has 'Category' and 'Sub-Category'. The main view, 'Sheet 1', displays a pivot table of sales data by region and category.

Category	Sub-Category	Region			
		Central	East	South	West
Furniture	Bookcases	\$24,157	\$43,819	\$10,899	\$36,004
	Chairs	\$85,231	\$96,261	\$45,176	\$101,781
	Furnishings	\$15,254	\$29,071	\$17,307	\$30,078
	Tables	\$39,155	\$39,140	\$43,916	\$84,755
Office Supplies	Appliances	\$23,582	\$34,188	\$19,525	\$30,236
	Art	\$5,765	\$7,486	\$4,656	\$9,212
	Binders	\$56,923	\$53,498	\$37,030	\$55,961
	Envelopes	\$4,637	\$4,376	\$3,346	\$4,118
	Fasteners	\$778	\$820	\$503	\$923
	Labels	\$2,451	\$2,603	\$2,353	\$5,079
	Paper	\$17,492	\$20,173	\$14,151	\$26,664
	Storage	\$45,930	\$71,613	\$35,768	\$70,533
	Supplies	\$9,467	\$10,760	\$8,319	\$18,127
Technology	Accessories	\$33,956	\$45,033	\$27,277	\$61,114
	Copiers	\$37,260	\$53,219	\$9,300	\$49,749
	Machines	\$26,797	\$66,106	\$53,891	\$42,444
	Phones	\$72,403	\$100,615	\$58,304	\$98,684

Also, you can add totals from the Analytics tab in the Menu above:

The screenshot shows the 'Analysis' menu in Tableau. The 'Totals' option is highlighted, which opens a sub-menu with the following options:

- Show Row Grand Totals
- Show Column Grand Totals
- Row Totals to Left
- Column Totals to Top
- Add All Subtotals
- Remove All Subtotals
- Total All Using

NEW QUESTION # 211

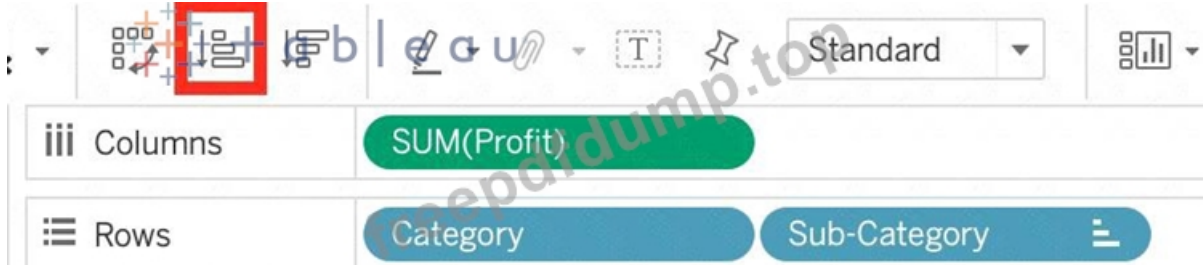

Which Sub-Category had the least Profit in the Office Supplies category?

- A. Labels
- **B. Fasteners**
- C. Binders
- D. Envelopes

Answer: B

Explanation:

To reach the correct answer, follow the steps below:

- 1) Drag Category, and sub-category to the row shelf. Drag Profit to the Column shelf
- 2) Click the Sort-ascending icon as shown above, to sort the profits from least to greatest as shown:
Click the 'Show mark labels icon'

Sheet 2

As we can see, Fasteners has the least Profit in the Office Supplies Category, and hence is our correct answer!

NEW QUESTION # 212

Which of the following is not a Trend Line Model?

- **A. binomial Trend Line**
- B. Logarithmic Trend Line
- C. Exponential Trend Line
- D. Linear Trend Line

Answer: A

Explanation:

According to the official Tableau documentation, there are 5 types of trend lines which we can work with in Tableau :

- 1) Linear Trend Line
- 2) Logarithmic Trend Line
- 3) Exponential Trend Line
- 4) Polynomial Trend Line
- 5) Power Model

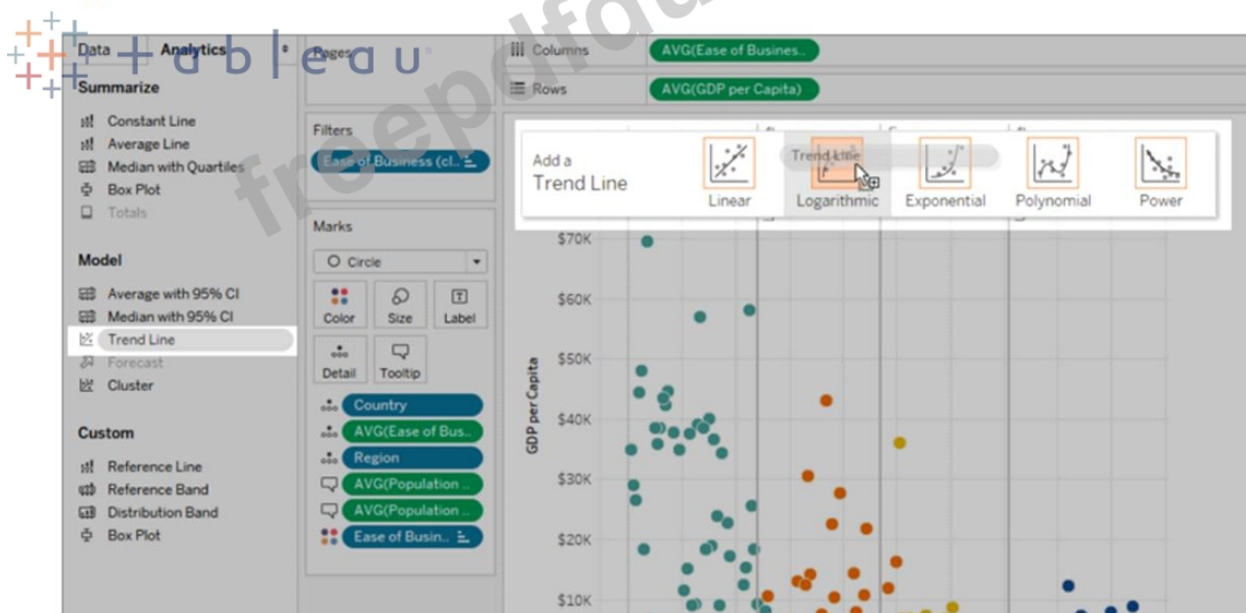

Hence, the correct answer is BINOMIAL trend line which is not present in Tableau.
See the following image:

Add trend lines to a view

To add a trend line to a visualization:

1. Select the Analytics pane.
2. From the Analytics pane, drag **Trend Line** into the view, and then drop it on the Linear, Logarithmic, Exponential, Polynomial, or Power model types.

For more information on each of these model types, see **Trend Line Model Types**.

For more information, refer to: https://help.tableau.com/current/pro/desktop/en-us/trendlines_add.htm
