XK0-006 - High Hit-Rate CompTIA Linux+ Certification Exam Training Material

Our CompTIA XK0-006 PDF dumps format has actual XK0-006 questions which are printable and portable. Hence, you can go through these CompTIA XK0-006 questions via your smart devices like smartphones, laptops, and tablets. The CompTIA Linux+ Certification Exam (XK0-006) dumps PDF file can be used from any location and at any time. Furthermore, you can take print of CompTIA Questions PDF to do an off-screen study.

CompTIA Linux+ Certification Exam Sample Questions (Q90-Q95):

NEW QUESTION # 90

After system startup, the X Window System GUI login interface is not displaying. Which of the following commands ensures that the GUI is started during the system startup process?

- A. systemctl unmask xwindow.service
- B. systemctl enable xwindow.service
- C. systemctl isolate graphical.target
- D. systemctl set-default graphical.target

Answer: D

Explanation:

Setting the default target to graphical.target tells systemd to boot into the graphical interface on startup. The command systemctl set-default graphical.target makes the GUI login display automatically at boot.

NEW QUESTION # 91

While hardening a system, an administrator runs a port scan with Nmap, which returned the following output:

```
# nmap 104.21.75.76
Starting Nmap 7.80 ( https://nmap.org ) at 2024-07-09 18:09 UTC
Nmap scan report for 104.21.75.76
Host is up (0.00087s latency).
Not shown: 996 closed ports
PORT    STATE SERVICE
23/tcp  open  telnet
80/tcp  open  http
443/tcp open  https
8080/tcp open http-proxy

Nmap done: 1 IP address (1 host up) scanned in 4.93 seconds
```

Which of the following is the best way to address this security issue?

- A. Closing port 80 on the network switch to block traffic
- B. Disabling and removing the Telnet service on the server
- C. Configuring a firewall to block traffic on port 23 on the server
- D. Changing the systems administrator's password to prevent unauthorized access

Answer: B

Explanation:

Port 23/tcp indicates Telnet, which is insecure because it transmits data in plaintext. The best hardening approach is to disable and remove the Telnet service entirely, eliminating the vulnerability rather than just blocking it at the firewall. Secure alternatives like SSH should be used instead.

NEW QUESTION # 92

Which of the following best describes journald?

- A. A system service that collects and stores logging data
- B. A service responsible for writing audit records to a disk
- C. A feature that creates crash dumps in case of kernel failure
- D. A service responsible for keeping the filesystem journal

Answer: A

Explanation:

journald is part of systemd and is responsible for collecting, storing, and managing log data from various sources such as the kernel, services, and applications.

NEW QUESTION # 93

SIMULATION 2

A junior system administrator removed an LVM volume by mistake.

INSTRUCTIONS

Part 1

Review the output and select the appropriate command to begin the recovery process.

Part2

Review the output and select the appropriate command to continue the recovery process.

Part 3

Review the output and select the appropriate command to complete the recovery process and access the underlying data.

If at any time you would like to bring back the initial state of the simulation, please click the Reset All button.

Part 1 ●   **Part 2** ●   **Part 3** ✓

Commands

```
[root@comptiasim ~]# blkid
[root@comptiasim ~]# cat /etc/fstab
[root@comptiasim ~]# ls -l /dev/mapper/
[root@comptiasim ~]# ls -l /
[root@comptiasim ~]# lsblk
[root@comptiasim ~]# lvdisplay
[root@comptiasim ~]# lvscan
[root@comptiasim ~]# tail -f /var/log/messages
[root@comptiasim ~]# xfs_repair -n /dev/vg01/lv01
```

```
[root@comptiasim ~]# lsblk
NAME        MAJ:MIN RM SIZE RO TYPE MOUNTPOINT
xvda        202:0    0  8G  0 disk
└─xvda1     202:1    0  8G  0 part /
xvdf        202:80   0 10G  0 disk
└─vg01-lv01 253:0    0  9G  0 lvm
```

Select the appropriate command to complete the recovery process and access the underlying data.

`[root@comptiasim ~]#`

```
Select command
mount /important_data /dev/vg01/lv01
xfs_repair /dev/vg01/lv01
mount -a
xfs_mdrestore /dev/vg01 /important_data
lvscan -a
```

Answer:

Explanation:

Part 1 ✓   **Part 2** ●   **Part 3** ●

Commands

```
[root@comptiasim ~]# df -h
[root@comptiasim ~]# ls -l /dev | grep -v tty
[root@comptiasim ~]# ls -l /etc/lvm/archive
[root@comptiasim ~]# pvdisplay
[root@comptiasim ~]# pvs
[root@comptiasim ~]# vgcfgrestore --list vg01
[root@comptiasim ~]# vgdisplay
[root@comptiasim ~]# vgs
```

```
[root@comptiasim ~]# vgs
VG   #PV #LV #SN Attr   VSize   VFree
vg01   1   0   0 wz--n- <10.00g <10.00g
```

Select the appropriate command to begin the recovery process.

`[root@comptiasim ~]#`

```
Select command
lvchange -a n /dev/vg01/lv01
lvchange -a y /dev/vg01/lv01
vgcfgrestore vg01 -f /etc/lvm/archive/vg01_00002-966141411.vg
pvscan
lvconvert --type mirror lv01
vgcfgrestore vg01 -f /etc/lvm/backup/vg01
vgcfgrestore vg01 -t -M /etc/lvm/archive/vg01_00001-810050352.vg
```

Restoring the Volume Group (VG) configuration from the LVM archive begins the recovery process after the VG metadata was lost.

After restoring the VG metadata, the logical volume must be reactivated (-ay) so it becomes accessible to the system.

Once the LV is active, mounting it to the /important_data directory makes the filesystem accessible, completing the recovery process.

NEW QUESTION # 94

A Linux systems administrator is running an important maintenance task that consumes a large amount of CPU, causing other applications to slow. Which of the following actions should the administrator take to help alleviate the issue?

- A. Execute the other applications with the bgutility.
- B. Run the maintenance task with nohup.
- C. Increase the available CPU time with pidstat.
- D. Lower the priority of the maintenance task with renice.

Answer: D

Explanation:
The renice command adjusts the priority of a running process. By lowering the maintenance task's priority, the scheduler allocates more CPU time to other applications, reducing their slowdown.

NEW QUESTION # 95

......

You can download a free demo of CompTIA - XK0-006 exam study material at ITPassLeader The free demo of XK0-006 exam product will eliminate doubts about our CompTIA Linux+ Certification Exam PDF and practice exams. You should avail this opportunity of XK0-006 exam dumps free demo. It will help you pay money without any doubt in mind. We ensure that our CompTIA Linux+ Certification Exam exam questions will meet your CompTIA Linux+ Certification Exam test preparation needs. If you remain unsuccessful in the XK0-006 test after using our XK0-006 product, you can ask for a full refund. ITPassLeader will refund you as per the terms and conditions.

XK0-006 Latest Dumps Free: https://www.itpassleader.com/CompTIA/XK0-006-dumps-pass-exam.html

Now, XK0-006 updated study material can help you to solve this problem, CompTIA XK0-006 Test Training in APP is unique in all respects in catering your exam needs and making ITPassLeader easy for you to obtain high percentage in Linux+ XK0-006 APP Exam, CompTIA XK0-006 Training Material Some details about your purchase process, CompTIA XK0-006 Training Material Then considering the expensive test fees, you feel sad and depressed.

He is well versed in Dreamweaver, Fireworks, Flash, Freehand, Photoshop, GoLive, and ImageReady, Introduction to Stream Control Transmission Protocol, Now, XK0-006 updated study material can help you to solve this problem.

Get Valid CompTIA XK0-006 Exam Questions and Answer

CompTIA XK0-006 Test Training in APP is unique in all respects in catering your exam needs and making ITPassLeader easy for you to obtain high percentage in Linux+ XK0-006 APP Exam.

Some details about your purchase process, XK0-006 Then considering the expensive test fees, you feel sad and depressed, For some relating medium- and high-level managerial positions XK0-006 certification will be stepping stone to better development.
