Pass Guaranteed 2025 CCE Global - CPCE Exam Dumps.zip

We have the CPCE bootcamp , it aims at helping you increase the pass rate , the pass rate of our company is 98%, we can ensure that you can pass the exam by using the CPCE bootcamp. We have knowledge point as well as the answers to help you finish the traing materials, if you like, it also has the offline version, so that you can continue the study at anytime

CCE Global Counselor Preparation Comprehensive Examination (CPCE) Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which theory of group counseling would most closely align with a group leader's use of role reversal and future projection techniques?

- A. psychoanalytic
- B. psychodrama
- C. psychodynamic

Answer: B

Explanation:

Psychodrama is a group counseling theory developed by J. L. Moreno that employs techniques such as role reversal and future projection. These techniques involve clients enacting scenarios, assuming roles, and exploring future possibilities within a dramatic framework to gain insight and resolve conflicts. "Role reversal and future projection are hallmark interventions in psychodrama groups, providing opportunities for experiential learning and catharsis." Reference: Helwig, A. A. (2020). CPCE Study Guide and Review; Corey, G. (2016). Theory and Practice of Group Counseling (9th Edition).

NEW QUESTION # 12

The ultimate responsibility for the ethical conduct of research lies with

- A. each research participant.
- **B. the principal researcher.**
- C. the statistical analyst.

Answer: B

Explanation:

The principal researcher (also known as the principal investigator) holds the ultimate responsibility for ensuring the ethical conduct of research. This includes obtaining informed consent, protecting participants, ensuring confidentiality, and following ethical and legal guidelines. While others may play supporting roles, it is the principal researcher who is accountable for all aspects of research ethics. Reference: Helwig, A. A. (2020). CPCE Study Guide and Review; American Counseling Association (ACA) Code of Ethics.

NEW QUESTION # 13

What career guidance theory has been in use for the longest period of time?

- A. sociocultural
- B. psychoanalytic
- **C. trait and factor**

Answer: C

Explanation:

The trait and factor theory is the oldest and most established career guidance theory, developed in the early 20th century by Frank Parsons. This approach is based on the idea that individuals have unique traits and that occupations require specific factors. Effective career guidance matches personal traits to job factors, making it the foundation for many subsequent career theories.

Reference: Helwig, A. A. (2020). CPCE Study Guide and Review; Zunker, V. G. (2016). Career Counseling: A Holistic Approach.

NEW QUESTION # 14

The defense mechanism in which unacceptable impulses are moved from awareness back into the unconscious is known as

- A. regression.
- B. transference.
- **C. repression.**

Answer: C

Explanation:

Repression is a defense mechanism described by Freud in which unacceptable impulses, thoughts, or memories are unconsciously pushed out of conscious awareness into the unconscious mind. Unlike suppression, which is a conscious process, repression happens automatically. "Repression is the primary defense mechanism; unacceptable desires or impulses are banished to the unconscious so they are not consciously experienced." Reference: Helwig, A. A. (2020). CPCE Study Guide and Review; Gladding, S. T. (2018). Counseling: A Comprehensive Profession (8th Edition).

NEW QUESTION # 15

A mental health counselor solicited both male and female volunteers for participation in either individual or group counseling for stress reduction. To determine if the proportions of female and male participants in each counseling category were as would be expected, the counselor computed

- A. an analysis of covariance.
- B. a f-test.
- C. a chi-square.

Answer: C

Explanation:

The chi-square test is used to determine if there is a significant association between categorical variables—in this case, gender (male/female) and type of counseling (individual/group). It assesses whether the observed distribution of participants differs from what would be expected by chance.

Reference: Helwig, A. A. (2020). CPCE Study Guide and Review; Royse, D., Thyer, B. A., & Padgett, D. K. (2016). Program Evaluation: An Introduction.

NEW QUESTION # 16

.....

CPCE study engine is very attentive to provide a demo for all customers who concerned about our products, whose purpose is to allow customers to understand our product content before purchase.
