Wenn Sie die Unterlagen von ZertPruefung kaufen, bekommen Sie einjährigen kostlosen Aktualisierungsservice. Wenn die Dumps aktualisiert sind, werden wir ZertPruefung Ihnen die neuesten Versionen per E-Mail senden. Sie können auch an uns E-Mails schreiben, die neuesten Prüfungsunterlagen zur CSI CSC2 Zertifizierung zu fordern. Und ZertPruefung kann Ihnen die Aktualisierungsservice innerhalb einem Jahr kostenlos bieten, obwohl Sie diese CSI CSC2 Prüfung erfolgsreich machen.

CSI CSC2 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• Portfolio Analysis: This section of the exam measures the skills of a Portfolio Manager and covers portfolio management approaches including risk and return measurement, portfolio optimization strategies, management styles, and the complete portfolio management process from objective setting to performance evaluation and rebalancing.

Thema 2	• The Economy: This section of the exam measures the skills of an Economic Analyst and covers fundamental economic concepts including microeconomics and macroeconomics, economic growth measurement, business cycles, labor markets, interest rates, inflation, international trade, and both fiscal and monetary policy with emphasis on the Bank of Canada's role and government policy challenges.
Thema 3	• The Corporation: This section of the exam measures the skills of a Corporate Finance Analyst and covers corporate structures, financial statements, disclosure requirements, investor rights, financing methods, capital raising processes, prospectus requirements, securities distribution, and exchange listing procedures for corporations.
Thema 4	• Analysis of Managed and Structured Products: This section of the exam measures the skills of an Investment Products Specialist and covers mutual funds, exchange-traded funds, alternative investments, structured products, and other managed products including their structures, regulations, features, risks, strategies, performance measurement, and tax implications within the Canadian investment landscape.
Thema 5	• The Canadian Investment Marketplace: This section of the exam measures the skills of a Securities Industry Professional and covers the structure and operation of Canada's investment marketplace. It includes the roles of investment dealers and financial intermediaries, capital market functions, financial instruments, and the complete Canadian regulatory environment with its regulatory bodies, principles of regulation, client remediation options, and ethical standards for financial services professionals.
Thema 6	• Investment Analysis: This section of the exam measures the skills of a Research Analyst and covers both fundamental and technical analysis methods, including macroeconomic, industry and company analysis techniques, financial statement interpretation, ratio analysis, and security valuation approaches.
Thema 7	• Investment Products: This section of the exam measures the skills of an Investment Products Analyst and covers fixed-income securities features, pricing, and trading; equity securities including common and preferred shares; derivatives including options, forwards, futures, rights and warrants; and the characteristics and uses of all these investment instruments in Canadian markets.

Die IT-Experten bieten Ihnen CSI CSC2 Prüfungsfragen und Antworten (Canadian Securities Course Exam2), mit deren Hilfe Sie die Prügung erfolgreich bestehen können. Die Genauigkeit von unseren Prüfungsfragen und Antworten beträgt 100%. Mit ZertPruefung Produkten können Sie ganz leicht die CSI CSC2 Zertifikate bekommen, was Ihnen eine große Beförderung in der IT-Branche ist.

CSI Canadian Securities Course Exam2 CSC2 Prüfungsfragen mit Lösungen (Q153-Q158):

153. Frage
How can an analyst use trend analysis to analyze a company's financial statements?

- A. Review the company's ratio over the past year, as they provide the best estimate of near-term performance and future trends.
- B. Identity trends by selecting the lowest ratio for the base year, even if a loss is experienced, as it represents a good starting point for analyzing the growth in the ratios.
- C. Computer the company's current ratios with its ratios from prior years to determine a trend.
- D. Analyze the ratios against companies in a wide a range of industries to see how the company is trending in the current economic cycle.

Antwort: C

Begründung:

Trend analysisinvolves comparing a company's financial ratios or metrics over several periods to identify patterns or changes that may indicate performance trends. This approach is essential for evaluating a company's financial health over time and detecting improvements or declines in critical financial metrics.
By analyzing thecurrent ratios-which measure liquidity and the company's ability to cover short-term obligations-with data from prior years, an analyst can determine trends such asincreasing efficiency, solvency, or potential financial stress. This method provides meaningful insights into a company's financial trajectory, supporting better decision-making.
Option B and C are incorrect because they either limit the analysis to a short timeframe or ignore the significance of using a stable and representative base year. Option D deviates from the principle of selecting relevant industry peers.

154. Frage
An investor wants to gain exposure to the Canadian stock market with minimal risk exposure. What is the test financial instrument for this investor?

- A. Index exchange-trace fund.
- B. Index-linked guaranteed investment certificate.
- C. Canadian bank preferred shares.
- D. Call option.

Antwort: B

Begründung:
The investor's goal is to gain exposure to the Canadian stock market while maintaining minimal risk exposure. Among the provided options, an index-linked guaranteed investment certificate (GIC) is the most suitable choice.
Key Characteristics of an Index-Linked GIC:
* Capital Protection:
* Index-linked GICs guarantee the principal investment amount, offering the security of a GIC while tying returns to the performance of a stock index (e.g., the S&P/TSX Composite Index).
* This ensures no loss of capital regardless of market performance.
* Market Exposure:
* The return on an index-linked GIC is linked to the performance of the underlying index, providing exposure to the stock market. However, this comes without the downside risk associated with direct stock or fund investments.
* Low Risk:
* The combination of principal protection and market exposure makes it ideal for risk-averse investors seeking growth potential.
Review of Other Options:
* A. Canadian Bank Preferred Shares:
* While preferred shares provide stable dividends and relatively low volatility compared to common shares, they still carry market risk and are not as secure as GICs.
* B. Index Exchange-Traded Fund (ETF):
* ETFs track stock indices and offer diversification, but they expose investors to the full market risk of the underlying index, making them unsuitable for those seeking minimal risk exposure.
* C. Call Option:
* Call options are speculative derivatives that provide leverage for market exposure but carry significant risk of loss, making them inappropriate for a low-risk investor.
Why D is Correct:
An index-linked GIC balances the investor's objective of gaining exposure to the Canadian stock market with the need for minimal risk by guaranteeing principal protection while offering potential returns tied to market performance.

155. Frage
A business trust would typically purchase the underlying company assets of which type of operation?

- A. Shopping centres
- B. Industrial rentals

- C. Senior housing
- D. Restaurants

Antwort: D

Begründung:
Abusiness trusttypically acquires the operating assets of businesses such asrestaurants, which generate predictable and steady cash flows. Business trusts focus on distributing income to unitholders, and restaurant operations align well with this goal due to their recurring revenue models.
* Explanation of Options:
* A. Senior Housing: More common for real estate investment trusts (REITs), not business trusts.
* B. Restaurants: Correct. Restaurants are suitable for business trusts because of their stable cash flow potential.
* C. Industrial Rentals: Typically under REITs, not business trusts.
* D. Shopping Centres: Also more commonly associated with REITs.

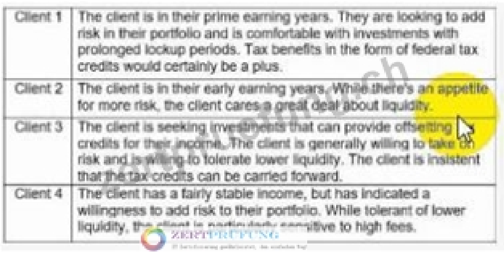
* CSC Volume 2, Chapter 22: Business trusts and the types of operations they typically invest in.

156. Frage
An advisor wants to explain the benefits of labour sponsored funds (LSVCC) to some of his clients. With which client should the advisor have this discussion?



Client 1	The client is in their prime earning years. They are looking to add risk in their portfolio and is comfortable with investments with prolonged lockup periods. Tax benefits in the form of federal tax credits would certainly be a plus.
Client 2	The client is in their early earning years. While there's an appetite for more risk, the client cares a great deal about liquidity.
Client 3	The client is seeking investments that can provide offsetting credits for their income. The client is generally willing to take on risk and is willing to tolerate lower liquidity. The client is insistent that the tax credits can be carried forward.
Client 4	The client has a fairly stable income, but has indicated a willingness to add risk to their portfolio. While tolerant of lower liquidity, the client is particularly sensitive to high fees.

- A. Client 3.
- B. Client 4.
- C. Client 2.
- D. Client 1.

Antwort: D

157. Frage
What is a key characteristic of an actively managed product that might interest an investor?

- A. Potential to outperform the market.
- B. Low fees.
- C. Assumes only systematic risk.
- D. Access to money at any time.

Antwort: A
