

CWDP-305 Test Centres, CWDP-305 Valid Test Tutorial

2025 Latest LatestCram CWDP-305 PDF Dumps and CWDP-305 Exam Engine Free Share: <https://drive.google.com/open?id=1AenbM9Kd327cLphSj-Kfn9q2BG-dGFXV>

Allowing for there is a steady and growing demand for our CWDP-305 real exam with high quality at moderate prices, we never stop the pace of doing better. All newly supplementary updates of our CWDP-305 exam questions will be sent to your mailbox one year long. And we shall appreciate it if you choose any version of our CWDP-305 practice materials for exam and related tests in the future.

CWNP CWDP-305 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Deploy the WLAN: This section of the exam measures the skills of a WLAN Implementation Specialist and involves overseeing the deployment phase of wireless networks. It focuses on understanding deployment procedures for various WLAN architectures, configuring supporting infrastructure, and verifying proper installation. The section also addresses physical installation checks, documentation handover, and quality assurance practices during ongoing installations.
Topic 2	<ul style="list-style-type: none">• Design the WLAN: This section of the exam measures the skills of a WLAN Design Engineer and covers the process of selecting configurations, architecture types, and wireless components to meet business and technical requirements. It includes using design software, selecting access points and antennas, and applying methodologies such as predictive or measured design. Candidates must demonstrate the ability to produce effective documentation and configure features like QoS, roaming security, and network services for different types of client devices and applications.
Topic 3	<ul style="list-style-type: none">• Define Specifications for the WLAN: This section of the exam measures the skills of a Wireless Network Planner and focuses on gathering business and technical requirements needed for designing wireless LANs. It includes understanding user needs, regulatory and safety constraints, and environmental factors. Candidates are expected to identify critical elements such as coverage, capacity, security, and device compatibility, and to analyse existing infrastructure and documentation to ensure a successful design strategy.
Topic 4	<ul style="list-style-type: none">• Validate and Optimize the WLAN: This section of the exam measures the skills of a WLAN Optimization Specialist and assesses the ability to test, validate, and fine-tune wireless networks post-deployment. Key tasks include RF validation surveys, performance testing, troubleshooting connectivity and security issues, and applying appropriate physical or RF adjustments. It also involves client testing and final project handover, including documentation, knowledge transfer, and meetings to ensure long-term WLAN success.

CWNP CWDP-305 Valid Test Tutorial | CWDP-305 Exam Objectives Pdf

Only high-quality and high-precision CWDP-305 qualification question can enable learners to be confident to take the qualification examination, and our CWDP-305 learning materials are such high-quality learning materials, it can meet the user to learn the most popular test site knowledge. Because our experts have extracted the frequent annual test centers are summarized to provide users. Only excellent learning materials such as our CWDP-305 Study Tool can meet the needs of the majority of candidates, and now you should make the most decision is to choose our CWDP-305 exam questions.

CWNP Certified Wireless Design Professional Sample Questions (Q228-Q233):

NEW QUESTION # 228

Given: As the wireless network administrator for XYZ Company, you are planning to upgrade your aging wireless network infrastructure, as well as some clients, to support 802.11ac. In your research, you have discovered that your new wireless client devices and infrastructure are 802.11ac, WMM, and WMM-PS certified by the Wi-Fi Alliance. Some of your existing client devices are 802.11a/b/g devices that do not support WMM.

Given this information, what scenario is possible when your company's employees begin using both types of client devices on the new WLAN?

- A. Performance and battery life will be inconsistent between WMM-PS and non-WMM-PS client devices when used with applications that support WMM-PS.
- B. WMM-PS enabled APs will allow both WMM-PS and non-WMM-PS stations to use the trigger-and- delivery mechanism, but WMM-PS stations will
- C. The WLAN infrastructure will set the dozing times of the WMM-PS certified client devices based upon their WMM access category, while the non-WMM-PS client devices will continue to use PS-Poll frames.
- D. All WMM-PS certified client devices will be prevented from utilizing WMM-PS features until all stations in use on the wireless medium are WMM-PS certified.

Answer: A

NEW QUESTION # 229

What is a valid 40 MHz channel configuration in the 2.4 GHz ISM band where channels 1-11 are permitted?

- A. 8 (primary), +1 (secondary)
- B. 4 (primary), +1 (secondary)
- C. 1 (primary), 6 (secondary)
- D. 2 (primary), -1 (secondary)

Answer: B

NEW QUESTION # 230

When performing a frame capture over the air during a voice call, you notice that frames in the downlink direction (from the AP to the client) are not being transmitted with the correct UP (User Priority) value for voice frames, but in the uplink direction (from the client to the AP), they are transmitted correctly. What is the likely cause of this issue?

- A. Faulty antenna on the AP
- B. Somewhere on the wired network QoS markings aren't being trusted
- C. Bad client driver
- D. AP is not receiving enough PoE, thus not using QoS features

Answer: B

Explanation:

If QoS markings are correct from the client to the AP but incorrect from the AP to the client, it's likely that the QoS markings are being stripped or not trusted somewhere on the wired network between the controller and the AP. This misconfiguration can result in

the AP transmitting frames without the appropriate QoS markings, affecting voice quality.

NEW QUESTION # 231

What document is typically created to launch a project?

Response:

- A. Work Breakdown Structure
- **B. Project Charter**
- C. Bill of Materials
- D. Budget

Answer: B

NEW QUESTION # 232

What is the meaning of a Real Time FFT graph?

- A. Real Time FFT means Real Time Fast Frequency Tuning and shows the RF pulses measured by the Layer 1 sweep tool.
- B. Real Time FFT means Real Time Fast Fourier Transform and shows the max value of the signal detected on each frequency in real time.
- C. Real Time FFT means Real Time Frequency Fundamental Texture and shows the value of the noise background generated by the card used to perform the
- D. Real Time FFT means Real Time First Fundamental Trace and shows the value of the first signal detected on each frequency at each sweep interval.
- **E. Real Time FFT means Real Time Fast Fourier Transform and shows the max value of the signal detected on each frequency in real time.**

Answer: E

NEW QUESTION # 233

.....

There have many shortcomings of the traditional learning methods. If you choose our CWDP-305 test training, the intelligent system will automatically monitor your study all the time. Once you study our CWDP-305 certification materials, the system begins to record your exercises. Also, we have invited for many volunteers to try our study materials. The results show our products are suitable for them. In addition, the system of our CWDP-305 test training is powerful. You will never come across system crashes. The system we design has strong compatibility. High speed running completely has no problem at all.
