TDA-C01 Upgrade Dumps | TDA-C01 Test Question

The objective of TDA-C01 is to assist candidates in preparing for the Tableau Certified Data Analyst (TDA-C01) certification test by equipping them with the actual Tableau TDA-C01 questions PDF and TDA-C01 practice exams to attempt the prepare for your TDA-C01 Exam successfully. The Tableau Certified Data Analyst (TDA-C01) practice material comes in three formats, desktop TDA-C01 practice test software, web-based TDA-C01 practice exam, and TDA-C01 Dumps PDF that cover all exam topics.

Tableau Certified Data Analyst Sample Questions (Q114-Q119):

NEW QUESTION # 114

A Data Analyst has a workbook that uses an extracted data source.

The analyst publishes the workbook to Tableau Server.

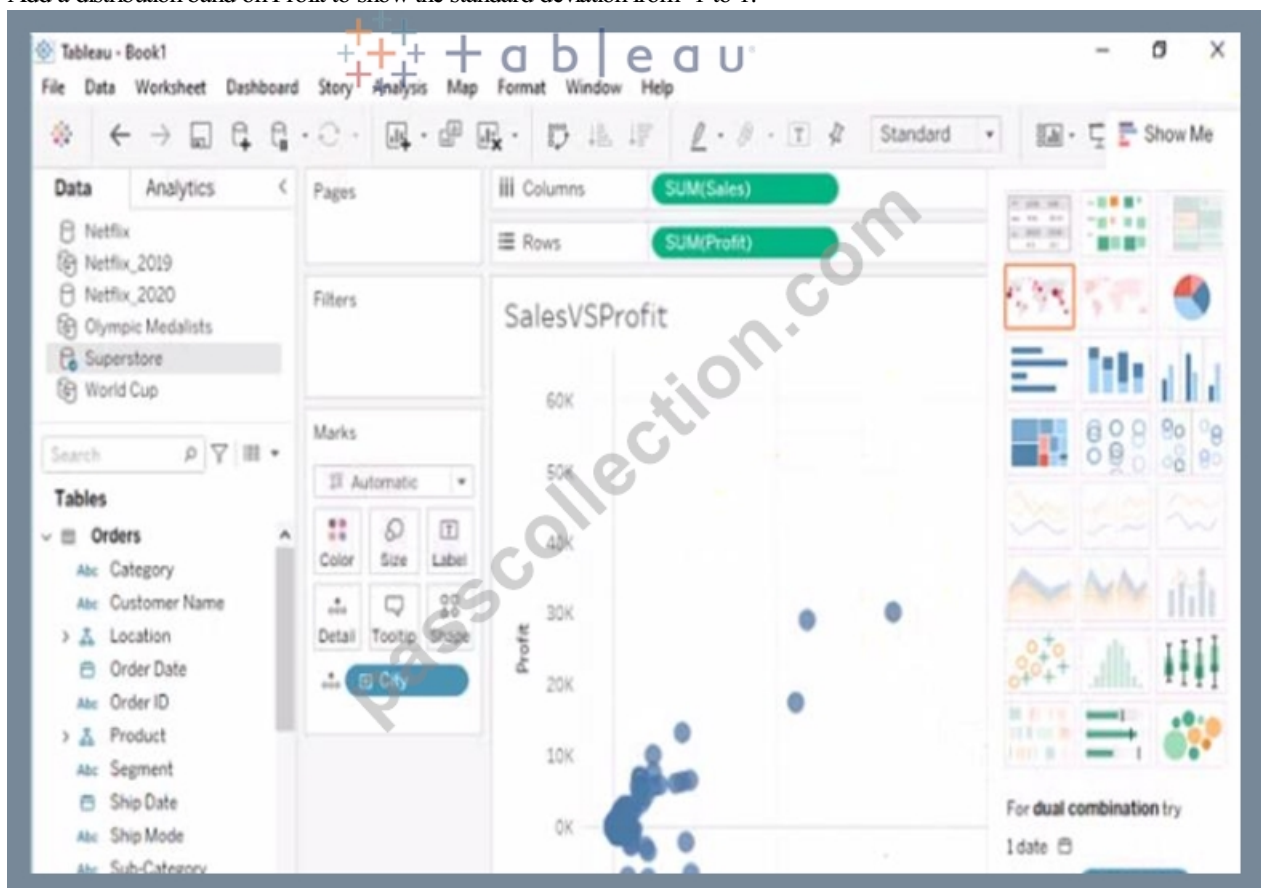

Which three actions can the analyst perform from the Extract Refresh page in Tableau Server? (Choose three.)

- A. Change the refresh from full to incremental
- B. Modify the frequency of the refresh
- C. Run a refresh
- D. Delete the refresh
- E. Change the priority of the refresh

Answer: B,C,E

NEW QUESTION # 115

Open the link to Book1 found on the desktop. Open SalesVSProfit worksheet. Add a distribution band on Profit to show the standard deviation from -1 to 1.

- A. check the steps below in explanation

Answer: A

Explanation:

To add a distribution band on Profit to show the standard deviation from -1 to 1, you need to do the following steps:

Open the link to Book1 found on the desktop. This will open the Tableau workbook that contains the SalesVSProfit worksheet. Click on the SalesVSProfit tab at the bottom of the workbook to open the worksheet. You will see a scatter plot that shows the relationship between Sales and Profit for each Sub-Category.

Click on the Analytics tab on the left side of the workbook to open the Analytics pane. You will see a list of analytical objects that you can drag and drop onto your worksheet.

Drag Distribution Band from the Analytics pane to Profit on the Rows shelf. This will add a distribution band on Profit that shows the average and confidence interval for each Sub-Category.

Click on the Edit button on the distribution band to open the Edit Distribution Band dialog box. You will see options to customize your distribution band.

Change the Band From value to -1 and the Band To value to 1. This will change the distribution band to show the standard deviation from -1 to 1, which means one standard deviation below and above the average.

Click OK to apply the changes. You will see that the distribution band now shows a narrower range of values for Profit.

NEW QUESTION # 116

You have the following dataset.

Which grouping option should you use in Tableau Prep to group all five names automatically?

- A. Common Characters
- B. Manual Selection
- C. Spelling
- D. Pronunciation

Answer: C

Explanation:

Tableau Prep's Grouping feature includes various methods to group similar data. The Spelling option is used when the data has small variations in spelling, such as capitalization differences or common typos. Given that the names in the dataset vary in capitalization and punctuation but are spelled correctly, the Spelling grouping option would be the most appropriate choice to automatically group all five names.

NEW QUESTION # 117

You have the following dataset.

Name	Region	Tableau_User_Name	Sales
Kelvin Hendricks	North	kh@email.com	\$455.89
Simone Westin	South	sw@email.com	\$899.99
Valerie Martin	West	vm@email.com	\$12900.20
Phyliss Chan	East	pc@email.com	\$123.00

You plan to create a dashboard that will be filtered to show only data that is relevant to a specific Tableau user based on the Tableau_User_Name field. You need to create a boolean calculated field to place on the data source filter. Which formula should you use for the filter?

- A. NAME(Tableau-USER-NAME)
- B. NAMEUSERNAME()
- C. ISFULLNAME(Tableau_USER_NAME)=USERNAME()
- D. USERNAME()=(Tableau_USER_NAME)

Answer: D

Explanation:

To create a boolean calculated field to place on the data source filter, you should use the formula `USERNAME() = [Tableau_user]`. This formula will return TRUE if the current Tableau user name matches the value in the Tableau_user field, and FALSE otherwise. You can use this formula as a data source filter by dragging it to the Filters shelf and selecting TRUE from the menu. This will filter the data to show only the rows that are relevant to the specific Tableau user.

The other options are not correct for this scenario. `NAME([Tableau_user])` is not a valid function in Tableau.

`ISFULLNAME([Tableau_user]) = USERNAME()` is not a valid expression in Tableau. `'S' + STR([Sales]/1000)` is not a boolean expression, but a string expression that converts sales to thousands with a prefix of "S". Reference:

NEW QUESTION # 118

You have the following dataset.

You need to create the following worksheet.

The table must show either profit or sales based on the selection from the Parameter 1 menu.

Which three actions should you perform in order:

(Place the three correct options in order. Use the arrows to move options to Answer Area. Use Answer Area arrows to reorder the options)

Answer:

Explanation:

A screenshot of a computer Description automatically generated

Answer Area

Create a parameter that has list string values of profit and sales. Select Show Parameter.

Create a calculated field that uses the following formula:

```
IF [Parameter 1]='sales'
```

```
THEN [Sales]
```

```
ELSEIF [Parameter 1]='profit'
```

```
THEN [Profit]
```

```
END
```

Drag the calculated field to Text on the Marks card and add Region to the Rows shelf

NEW QUESTION # 119

.....

When preparing to take the Tableau Certified Data Analyst (TDA-C01) exam dumps, knowing where to start can be a little frustrating, but with PassCollection Tableau TDA-C01 practice questions, you will feel fully prepared. Using our Tableau TDA-C01 practice test software, you can prepare for the increased difficulty on Tableau TDA-C01 Exam day. Plus, we have various question types and difficulty levels so that you can tailor your Tableau Certified Data Analyst (TDA-C01) exam dumps preparation to your requirements.
