## **ACFE Certified Fraud Examiner - Investigation Exam Sample Questions (Q14-Q19):**

### **NEW QUESTION # 14**

Naveed, a fraud suspect, has decided to confess to Omar, a Certified Fraud Examiner (CFE). In obtaining a verbal confession from Naveed, Omar should obtain all of the following items of information EXCEPT:

- **A. A statement from Naveed that his conduct was an accident**
- B. A general estimate of the amount of money involved
- C. The approximate number of instances
- D. The location of any residual assets

**Answer: A**

### **NEW QUESTION # 15**

Which of the following sets of numbers could a fraud examiner MOST LIKELY benefit from running a Benford's Law analysis on?

- A. Employee identification numbers
- B. Bank account numbers
- **C. Vendor invoice amounts**
- D. Telephone numbers

**Answer: C**

Explanation:

Benford's Law applies to naturally occurring sets of numbers such as invoice amounts, expense reports, and transaction data. The Fraud Examiners Manual shows Benford's Law tests applied to vendor payments to detect anomalies like duplicate or inflated invoices. Telephone numbers, employee IDs, and bank account numbers are assigned numbers and do not follow Benford's distribution, so they are unsuitable for this test.

### **NEW QUESTION # 16**

Charles, a fraud examiner, accuses George of fraud during an admission-seeking interview. George immediately denies the charge. How should Charles respond to George's denial?

- **A. Use a delaying tactic to interrupt the denial**
- B. Allow George to continue denying the charge.
- C. Remind George he has to tell the truth or face perjury.
- D. Counter the denial by arguing with George until further denials are futile

**Answer: A**

Explanation:

\* "Once a denial is uttered, it becomes extremely difficult for the accused to change his response, because doing so would be an admission that he lied. Therefore, the interviewer must prevent an outright denial, thereby making it easier for the subject to confess".

\* "One of the most effective techniques to stop or interrupt a denial is through a delaying tactic... the interviewer should attempt to delay the outright denial; he should not argue with the accused".

Thus, Charles should interrupt with a delaying tactic.
