VCE Huawei H19-308_V4.0 Dumps & Valid H19-308_V4.0 Exam Duration

TestPassed H19-308_V4.0 products are honored by thousands, considerably recognized across the industry. Successful candidates preferably suggest our products as they provide the best possible returns for your invested money. Our professionals have devoted themselves to deliver the required level of efficiency for our customers. Our well-repute in industry highlights our tremendous success record and makes us incomparable choice for H19-308_V4.0 Exams preparation. 100% guaranteed success for all H19-308_V4.0 exams is offered at TestPassed, marks key difference with competing brands. Your investment with TestPassed never takes any down turn as we owe the whole responsibility for any kind of loss that occurs through your failure.

Huawei HCSA-Presales-Storage V4.0 Sample Questions (Q144-Q149):

NEW QUESTION # 144

Which of the following can be used as backup media? (Select all that apply)

- A. Disk
- B. Disc
- C. Tape library
- D. Cloud

Answer: A,B,C,D

Explanation:

Huawei's data protection solutions, particularly the OceanProtect and BCManager suites, support a wide range of backup targets to accommodate various Recovery Time Objectives (RTO) and Recovery Point Objectives (RPO).

Disk (Option C): This is the most common modern backup media (Disk-to-Disk or D2D), offering fast backup and recovery speeds. Huawei's OceanProtect is a dedicated high-speed disk-based backup storage.

Tape Library (Option D): Traditionally used for long-term archiving (D2D2T), tape remains a cost-effective and reliable "offline" storage medium for compliance and disaster recovery.

Disc (Option A): Optical discs (like Blu-ray) are used in specific archival scenarios where "Write Once" (WORM) physical media is required for regulatory purposes.

Cloud (Option B): Modern Huawei solutions support Backup to Cloud, where data is deduplicated, compressed, and sent to an off-site object storage provider (like Huawei Cloud OBS) for cost-effective disaster recovery without the need for a physical secondary site.

NEW QUESTION # 145

Which features are available for OceanStor 9000? (Multiple Choice)

- A. Video Repairing Technology
- B. HyperClone
- C. Remote Replication
- D. File Aggregation

Answer: A,C,D

NEW QUESTION # 146

Which type of backup copies the minimum amount of data?

- A. Incremental backup
- B. Differential backup
- C. Full backup

Answer: A

NEW QUESTION # 147

Which statements are correct about snapshot and clone technologies? (Choose all that apply.)

- A. Snapshots and clones are mainly used in data protection scenarios.
- B. Compared with snapshots, clones are complete copies of source data, therefore, reading and writing clones do not affect the original data.
- C. Snapshots can be used for incremental backup.
- D. Secure snapshots (unmodifiable snapshots) can be used to prevent ransomware.

Answer: A,B,C,D

Explanation:

Clones are indeed full copies of source data, so any operations on the clone do not impact the original data.

Secure or immutable snapshots are effective against ransomware, as they cannot be modified once created.

Both snapshots and clones are commonly used in data protection, providing point-in-time copies and redundancy.

Snapshots can be used for incremental backups by capturing only changes since the last snapshot, thus optimizing storage usage.

NEW QUESTION # 148

What are the phases of a data center lifecycle?

- A. Construction
- B. Operation
- C. Relocation
- D. Design

Answer: A,B,D

NEW QUESTION # 149

.....

At present, artificial intelligence is developing so fast. So machines inevitably grow smarter and more agile. In the result, many simple jobs are substituted by machines. In order to keep your job, choose our H19-308_V4.0 exam questions and let yourself become an irreplaceable figure. In fact, our H19-308_V4.0 Study Materials can give you professional guidance no matter on your daily job or on your career. And with the H19-308_V4.0 certification, you will find you can be better with our help.
