- A. Examination of the artifacts for sufficiency
- **B. Overview of the assessment process**
- C. Gathering evidence
- D. Review of the OSC's SSP

**Answer: B**

**NEW QUESTION # 128**

Validation of findings is an iterative process usually performed during the Daily Checkpoints throughout the entire assessment process. As a validation activity, why are the preliminary findings important?

- A. It determines whether the OSC will be rated MET or NOT MET on their assessment.
- B. It corroborates the Assessment Team's understanding of the CMMC practices and controls.
- C. It confirms that the Assessment Team's findings are right and cannot be changed.
- **D. It allows the OSC to comment and provide additional evidence.**

**Answer: D**

Explanation:

1. Understanding the Validation of Findings in CMMC Assessments Validation of findings is an essential part of the CMMC assessment process, ensuring that observations and preliminary conclusions drawn by the assessment team are accurate, fair, and based on complete evidence. This process occurs iteratively during the Daily Checkpoints and is fundamental in determining the overall compliance status of the Organization Seeking Certification (OSC).

2. The Role of Preliminary Findings in the Assessment Process Preliminary findings are not final but rather a mechanism for ensuring transparency, accuracy, and fairness. These findings serve several key purposes:

Allows for OSC Input & Clarification: The OSC has an opportunity to review and provide additional evidence that may address deficiencies identified by the assessment team.

Prevents Misinterpretations: By allowing the OSC to comment, the assessment team can refine or correct their understanding of the OSC's implementation of CMMC practices.

Supports Fair and Informed Ratings: Before finalizing MET or NOT MET determinations, the assessment team ensures they have considered all relevant evidence.

Encourages a Collaborative Assessment Process: This validation activity fosters open communication between assessors and the OSC, reducing disputes and misunderstandings.

The primary purpose of preliminary findings is to allow the OSC to comment and provide additional evidence before final determinations are made.

This aligns with CMMC Assessment Process guidance, which emphasizes iterative validation of findings through Daily Checkpoints and Final Outbrief discussions.

The validation of findings ensures that OSC responses and supplementary evidence are considered, making the assessment process more accurate and fair.

3. Why Answer Choice "A" is Correct 4. Why Other Answer Choices Are Incorrect Option Reason for Elimination B). It determines whether the OSC will be rated MET or NOT MET on their assessment.

Incorrect: Preliminary findings do not directly determine the final rating. The assessment team reviews all collected evidence before

making a final decision.

C). It confirms that the Assessment Team's findings are right and cannot be changed.

Incorrect: Findings are not final at the preliminary stage. The OSC has the opportunity to challenge findings by providing new or clarifying evidence.

D). It corroborates the Assessment Team's understanding of the CMMC practices and controls.

Partially Correct but Not the Best Answer While validation helps refine understanding, its primary function is to allow OSC input, making option A the most accurate choice.

CMMC Assessment Process (CAP) Document:

Section 5.3 - Validation of Findings: "The OSC is given the opportunity to provide additional evidence and comments to clarify or supplement preliminary assessment results." Section 5.4 - Daily Checkpoints: "The assessment team discusses preliminary findings with the OSC, allowing the organization to address concerns in real time." CMMC 2.0 Level 2 Scoping & Assessment Guide:

Confirms that the assessment process includes continuous dialogue with the OSC before final determinations are made.

5. Official CMMC References Supporting This Answer  
6. Conclusion Preliminary findings are a crucial validation step in CMMC assessments, ensuring that organizations have the opportunity to provide additional evidence and clarify potential misunderstandings. This iterative process improves accuracy and fairness in determining compliance with CMMC requirements. Therefore, the correct answer is:

A). It allows the OSC to comment and provide additional evidence.
