NEW QUESTION # 35

universal containers wants to unify channels and manage agent workload with omni-channel routing what required step should a consultant address before configuring omni channel ? what required step should a consultant address before configuring omni channel ?

- **A. customize service channel settings to define how the org receives work from various sources**
- B. Create SF cases to have omni channel enabled
- C. create the necessary objects in SF
- D. From setup select omnichannel and select enable omni channel

Answer: A

Explanation:

Customizing service channel settings to define how the org receives work from various sources is a required step that the consultant should address before configuring Omni-channel. Service channels are settings that allow administrators to specify how different types of work items, such as cases, chats, or leads, are routed and handled by Omni-channel. Service channels need to be defined and enabled before setting up routing configurations and rules for Omni-channel. Verified References: :
