

# New 300-425 Dumps Pdf | 300-425 Exam Lab Questions

The screenshot shows the 591Lab website header with contact information for Wen Chai and Henry Wu. The main content area features a large image of a man holding a book, with the text 'Huawei Datacom How to Pass H12-892 on Your First Try'. Below this is a detailed 'Table Of Contents' for the article, listing topics such as 'Motivation and Background for Preparation', 'Exam Experience and Insights', and 'How 591Lab Can Help You Pass the Huawei Datacom Lab H12-892 Exam!'. To the right, there is a 'Most Popular Post' section with links to other articles like 'NMAP vs Wireshark' and 'CCNP Certification'.

Cisco study dumps training Q&As Are Based On The Real Exam. Best 300-425 study material make you pass exam easily. Designing Cisco Enterprise Wireless Networks dump PDF Questions collection for Practice..latest 300-425 Test Engine are available. Hot Designing Cisco Enterprise Wireless Networks questions to pass the exam in First Attempt Easily. High quality 300-425 relevant exam dumps. Best practice for you.

Cisco 300-425 Exam is a part of the Cisco Certified Network Professional (CCNP) Enterprise certification. It covers a wide range of topics that include advanced wireless design principles, site surveys, deployment models, high-density deployment, and network infrastructure. 300-425 exam also tests the candidates' understanding of various wireless technologies such as 802.11ac, 802.11ax, and 802.11n. Passing 300-425 exam requires a deep understanding of wireless networking concepts, excellent problem-solving skills, and the ability to design and implement complex wireless networks.

## WLAN High Availability

The questions from this section cover 20% of the entire content and are dedicated to evaluating the following abilities of the candidates:

- Design high availability for various controllers, including network availability through LAG, stateful switchover, as well as anchor controller priority & redundancy;
- Design high availability for APs, including fail-back (primary, secondary, and assigning tertiary) and AP prioritization.

## Best Cisco New 300-425 Dumps Pdf Help You Pass Your Cisco Designing Cisco Enterprise Wireless Networks Exam From The First Try

With ActualCollection's Cisco 300-425 exam training materials, you can get the latest Cisco 300-425 exam questions and answers. It can make you pass the Cisco 300-425 exam. Cisco 300-425 exam certification can help you to develop your career. ActualCollection's Cisco 300-425 Exam Training materials is ensure that you fully understand the questions and issues behind the concept. t can help you pass the exam easily.

To pass the Cisco 300-425 Exam, candidates must have a deep understanding of wireless networking concepts and technologies, including 802.11 standards, RF fundamentals, and wireless design models. They must also have knowledge of various Cisco wireless solutions and products, such as Cisco Aironet access points, Cisco Wireless LAN Controllers, and Cisco Identity Services Engine (ISE).

### Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q77-Q82):

#### NEW QUESTION # 77

What is the attenuation value of a human body on a wireless signal?

- A. 6 dB
- **B. 4 dB**
- C. 12 dB
- D. 3 dB

**Answer: B**

Explanation:

<https://www.cisco.com/en/US/docs/solutions/Enterprise/Mobility/emob30dg/Voice.html>

#### NEW QUESTION # 78

An engineer designed a new wireless network for an enterprise customer. The customer is concerned that some wireless features may not be available because the bill of materials has only Base and no WPlus licenses for the Cisco WLC version 8. What is the reason for the engineer to take this approach regarding the licenses?

- **A. All WLC features are available because WPLUS license is now included in the Base license.**
- B. OfficeExtend AP needs a WPlus license.
- C. CAPWAP Data Encryption licenses are required for this feature.
- D. To have all the features, Plus licenses must be installed on the WLC.

**Answer: A**

Explanation:

In Cisco WLC version 8, the need for separate WPlus licenses has been eliminated as all features that were previously part of the WPlus license are now included in the Base license. This consolidation simplifies licensing management and ensures that customers have access to all necessary features without requiring additional licenses.

#### NEW QUESTION # 79

A wireless network consists of:

- \* two IOS XE controllers installed in a data center
- \* 9100 series APs
- \* corporate and a guest WLAN

The customer must high availability pair two Cisco WLCs for the client SSO. Which two design approaches must the engineer take to meet the requirement? (Choose two.)

- A. Each WLC must have a unique redundancy management IP address.
- B. Both WLCs must have the same service port IP address.
- C. Both WLCs must have the same redundancy management IP address.
- **D. The controllers must have the same number of licenses.**

- E. The controllers must run the same operating system version.

**Answer: D,E**

Explanation:

For high availability pairing of two Cisco WLCs for client SSO, it is essential that both controllers have the same number of licenses to ensure feature parity and seamless failover. Additionally, they must run the same operating system version to avoid compatibility issues during SSO operations.

#### NEW QUESTION # 80

A customer called with a requirement that internal clients must be on different subnets depending on the building they are in All access points are operating in local mode and will not be modified, and this is a single controller solution Which design approach creates the desired result?

- A. Create mobility anchors for the SSID. and on the controller under the internal SSID. create a foreign map to the desired VLAN based on location
- B. Create an SSID. place it to the desired VLAN under WLANs. and configure 802.1x in ISE to assign the correct VLAN based on the SSID from which the client is authenticating.
- C. Create AP groups for each desired location, map the correct VLANs to the internal SSID and add the access points for that location
- D. Create FlexConnect groups, place the access points in. and set the correct VLAN to SSID mapping based on location.

**Answer: C**

#### NEW QUESTION # 81

Campus users report a poor wireless experience An engineer investigating the issue notices that in high-density areas the wireless clients fail to switch the AP to which are automatically connected This sticky client behavior is causing roaming issues Which feature must the engineer configure?

- A. Layer 2 roaming
- B. Layer 3 roaming
- C. optimized roaming
- D. load balancing and band select

**Answer: C**

#### NEW QUESTION # 82
