## Key Features of FreeCram Salesforce Sales-Admn-202 Practice Material for Exam Preparation

FreeCram provides you with Salesforce Sales-Admn-202 exam questions in 3 different formats to open up your study options and suit your preparation tempo. The Salesforce Sales-Admn-202 PDF is the most convenient format to go through all exam questions easily. It is a compilation of actual Salesforce Sales-Admn-202 exam questions and answers.

### Salesforce Certified CPQ Administrator Sample Questions (Q55-Q60):

#### NEW QUESTION # 55

Universal Containers requires a subset of products to be viewed based on a button on the Quote Line Editor. Which Salesforce CPQ functionality will satisfy this requirement?

- A. Custom page security plug-In script
- B. Price Rules
- C. Product Rules of filter type
- **D. Custom Action with Search Filter**

**Answer: D**

Explanation:

Requirement:

\* To allow sales reps to view a subset of products via a button in the Quote Line Editor.

Solution:

\* A Custom Action with a Search Filter is configured to dynamically limit the displayed products.

Mechanism:

\* The Custom Action triggers the Product Selection process, with the Search Filter applying criteria to display only the desired subset of products.

Salesforce CPQ Reference:

\* Custom Actions and Search Filters are documented as the preferred method to customize product visibility in the Product Selection process .

#### NEW QUESTION # 56

Universal Containers wants to allow customers to return and receive credit for asset Products.

How should the admin meet the requirement?

- **A. Set Asset Amendment Behavior to Allow Refund for the Product and reduce the Quantity on the Amendment Quote.**
- B. Set Asset Amendment Behavior to Allow Refund for the Product and set a negative Quantity on the Amendment Quote.

- C. Edit the Effective Quantity field on the Asset record to reflect the updated Quantity.
- D. Edit the Quantity field on the Asset record to reflect the updated Quantity.

**Answer: A**

Explanation:

Requirement:

\* Allow customers to return asset Products and receive credit.

Solution:

\* Setting the Asset Amendment Behavior to Allow Refund enables the product to be reduced in quantity on an Amendment Quote.

\* Reducing the Quantity on the Amendment Quote triggers a refund process in CPQ.

Why Other Options Are Incorrect:

\* A: Negative quantities are not a supported standard in Amendment Quotes.

\* C & D: Asset records should not be manually edited as changes must flow through Quotes and Orders.

Salesforce CPQ Reference:

\* Refund handling and Asset Amendment Behavior are described in Amendment and Renewal Processes .

### NEW QUESTION # 57

At Universal Containers, the Fulfillment team requires that Order Item dates reflect when orders are created, rather than Quote Line start dates, because there can be gaps between anticipated versus actual start dates. At the same time, the Account Management team wants to ensure that all items from one order appear on one contract. What are two ways the CPQ specialist can meet these requirements? (Choose 2 answers)

- A. Set Quote Contracting Method to By Subscription End Date.
- B. Set package Default Order Start Date to Today.
- C. Set Order Product Date to Today when the record is created using Process Builder.
- D. Set Contracting Method on the Order to Single Contract.

**Answer: C,D**

Explanation:

For the Fulfillment team's requirement, Order Item dates need to reflect the order creation date rather than Quote Line start dates.

Option C achieves this by using Process Builder to set the Order Product Date to

"Today" upon record creation, overriding any inherited Quote Line dates. For the Account Management team's requirement, all items from one order must appear on a single contract. Option A accomplishes this by setting the Contracting Method on the Order to "Single Contract," ensuring all order products are grouped under one contract regardless of subscription terms. Option B (Default Order Start Date) is a package-level setting that doesn't directly apply to individual order items. Option D (Quote Contracting Method) affects quote-to-contract mapping but doesn't ensure order-based consolidation. Salesforce CPQ documentation supports these configurations for date and contract control.

References: Salesforce CPQ Documentation - "Order Management" and "Contracting Methods".

### NEW QUESTION # 58

Northern Trail Outfitters has two different user profiles that need to see different Quote Line fields in the Quote Line Editor.

How should the admin configure CPQ so users automatically see the desired fields in the Quote Line Editor?

- A. Create two field sets on the Quote Line object representing each profile, and create a text formula field sets with the API named EditLinesFieldSetName on the Quote object that returns the appropriate field set name based on the user's profile.
- B. Create two field sets on the Quote object representing each profile, and create a text formula field name EditLinesFieldSetName on the Quote object that returns the appropriate field set the user's profile.
- C. Create two field sets on the Quote object representing each profile, and create a text formula field with the API name HeaderFieldSetName on the Quote object that returns the appropriate field set name based on the user's profile.
- D. Create two field sets on the Quote Line object representing each profile, and create a text formula field sets with the API named EditLinesFieldSetName on the Quote object that returns the appropriate field set name based on the user's profile.

**Answer: A**

Explanation:

Requirement:

\* Different profiles need to see distinct sets of fields in the Quote Line Editor.

Solution:

- \* Create two field sets on the Quote Line object, one for each profile.
  - \* Use a text formula field named EditLinesFieldSetName on the Quote object to dynamically return the appropriate field set name based on the user's profile.
- Why Other Options Are Incorrect:
- \* A & B: Field sets must be created on the Quote Line object, not the Quote object.
  - \* D: This duplicates C but introduces a typo or incorrect description in the explanation.
- Salesforce CPQ Reference:
- \* Field set configurations for the Quote Line Editor are detailed in CPQ Field Configuration Documentation .

### NEW QUESTION # 59

When selecting Product Option A inside a bundle, Universal Containers has a requirement that Product Option B's Quantity should be updated in real time. Which settings should be used on the Price Rule and product option to meet these requirements?

- A. Evaluation Scope = Calculator, Calculator Evaluation Event = Edit, Product Option B is set to Apply Immediately
- B. Evaluation Scope = Configurator, Configurator Evaluation Event = Edit, Product Option A is set to Apply Immediately
- **C. Evaluation Scope = Configurator, Configurator Evaluation Event = Edit, Product Option B is set to Apply Immediately**
- D. Evaluation Scope = Calculator, Calculator Evaluation Event = Edit, Product Option A is set to Apply Immediately

**Answer: C**

Explanation:

To update Product Option B's quantity in real time when Product Option A is selected, a Price Rule must trigger dynamically in the configurator. Option A sets the Evaluation Scope to "Configurator" (for real-time updates during configuration), the Configurator Evaluation Event to "Edit" (triggering when edits occur), and

"Apply Immediately" on Product Option B (ensuring its quantity updates instantly). Option B (Calculator scope) applies during price calculation, not real-time configuration. Option C targets Product Option A's immediacy, but the rule must affect B's quantity. Option D combines Calculator scope with A's immediacy, missing the real-time configurator need. Salesforce CPQ documentation supports Configurator scope for real-time updates.

References: Salesforce CPQ Documentation - "Price Rules" and "Configurator Events".

### NEW QUESTION # 60

.....

Our Sales-Admn-202 learning questions engage our working staff in understanding customers' diverse and evolving expectations and incorporate that understanding into our strategies, thus you can 100% trust our Sales-Admn-202 exam engine.
