

C_ADBTP Valid Exam Pattern, Study C_ADBTP Test

Moreover, you do not need an active internet connection to utilize PrepAwayETE SAP C_ADBTP practice exam software. It works without the internet after software installation on Windows computers. The PrepAwayETE web-based SAP C_ADBTP Practice Test requires an active internet and it is compatible with all operating systems. You can conveniently test your performance by checking your score each time you use our SAP C_ADBTP practice exam software.

As long as you buy our C_ADBTP practice materials and take it seriously to your consideration, we can promise that you will pass your C_ADBTP exam and get your certification in a short time. We can claim that if you study with our C_ADBTP learning guide for 20 to 30 hours as preparation, then you can be confident to pass the exam. So choose our products to help you review, you will benefit a lot from our C_ADBTP study guide.

>> C_ADBTP Valid Exam Pattern <<

Top Features of PrepAwayETE SAP C_ADBTP Practice Questions File

With the help of our C_ADBTP study guide, you can adjust yourself to the exam speed and stay alert according to the time-keeper that we set on our C_ADBTP training materials. Therefore, you can trust on our C_ADBTP exam materials for this effective simulation function will eventually improve your efficiency and assist you to succeed in the C_ADBTP Exam. And we believe you will pass the C_ADBTP exam just like the other people!

SAP Administrating SAP Business Technology Platform(C_ADBTP_2601) Sample Questions (Q10-Q15):

NEW QUESTION # 10

SIMULATION

Enable a Cloud Foundry Environment

Add a service plan for Cloud Foundry environment and enable it in a subaccount.

Task 1: Add a Service Plan for Cloud Foundry Environment

In your SAP BTP cockpit, in your EU HCM Dev subaccount, entitle one MEMORY service plan for the Cloud Foundry Runtime.

Answer:

Explanation:

See the Explanation below for complete solution.

Explanation:

Before you start

Log in to SAP BTP Cockpit.

Open your correct Global Account.

Go to the Human Resources directory.

Open the EU HCM Dev subaccount.

This matters because the runtime memory quota must be assigned to the EU HCM Dev subaccount specifically. SAP documents that the MEMORY plan is the quota-bearing plan for Cloud Foundry Runtime.

Step 1 - Open the EU HCM Dev subaccount

In the cockpit, choose Directories.

Open Human Resources.

Select EU HCM Dev.

You should now be on the EU HCM Dev subaccount page.

Step 2 - Open Entitlements

In EU HCM Dev, choose Entitlements.

SAP Help confirms that service plans and quota assignments for a subaccount are configured in the Entitlements area.

Step 3 - Configure entitlements

Click Configure Entitlements or Add Service Plans.

Search for:

Cloud Foundry Runtime

In SAP Help, this appears as Cloud Foundry Runtime (APPLICATION_RUNTIME), and the relevant plan for assigning runtime memory is MEMORY.

Step 4 - Select the MEMORY plan

Under Cloud Foundry Runtime, select:

MEMORY

Set the quantity to 1 if the cockpit shows an amount/quota field.

Add the plan to the subaccount.

Save the entitlement changes.

The screenshot displays the SAP Cockpit interface for configuring service plans. The main title is "Subaccount EU HCM Dev: Add Service Plans".

Services

Solutions: All [cloud] [x] [Q]

Services available to this subaccount

- Cloud Foundry Environment
- Cloud Foundry Runtime** (Selected)
- Cloud Identity Services
- Cloud Integration Automation
- Cloud Management Service
- SAP Task Center

1 selected plan
Services: Cloud Foundry Runtime (1 plan)

Service Details: Cloud Foundry Runtime

name: APPLICATION_RUNTIME ⓘ

Available Plans

- MEMORY

Provision application runtime memory (GB) for your Cloud Foundry org to start developing polyglot cloud-native applications. NOTE: This plan does not apply to Cloud Foundry orgs that are created with the Free plan.

> Entitlement Sources

Buttons: Add 1 Service Plan, Cancel

SAP documents that the MEMORY plan is specifically used to assign runtime memory quota to the subaccount, and that 1 unit corresponds to 1 GB of runtime memory when quota is adjusted or assigned.

Step 5 - Verify the result

After saving, check the Entitlements page of EU HCM Dev.

You should see:

Cloud Foundry Runtime

plan: MEMORY

quantity: 1 if shown

Final expected result

Inside EU HCM Dev:

Cloud Foundry Runtime is entitled

the service plan is MEMORY

the assigned amount is 1 if the cockpit displays quantity/quota units

Common mistakes to avoid

Doing this in the wrong subaccount; it must be EU HCM Dev

Choosing the wrong Cloud Foundry plan; the task asks for MEMORY

Forgetting to save the entitlement change after adding the plan

Confusing the runtime memory entitlement with the later step of actually enabling the Cloud Foundry environment; SAP distinguishes the MEMORY runtime quota from enabling the Cloud Foundry org itself.

NEW QUESTION # 11

SIMULATION

Establish Shared Services

Task 1: Create a Shared Services Directory and Subaccounts

In your SAP BTP cockpit, create the directory Shared Services (Description: Shared Accounts) with your global account as the parent.

In the Shared Services directory, create the subaccount SH Dev (Description: Shared Services Development) with subdomain bt pops#####-sh-dev in the region Amazon Web Services (AWS) → Europe (Frankfurt) cf-eu10.

In the Shared Services directory, create the subaccount SH Ops (Description: Shared Services Operations) with subdomain bt pops#####-sh-ops in the region Amazon Web Services (AWS) → Europe (Frankfurt) cf-eu10.

Answer:

Explanation:

See the Explanation below for complete solution.

Explanation:

Before You Start

Log in to the SAP BTP Cockpit.

Open the correct Global Account.

Make sure you are working in the correct global account before creating anything.

Why this matters:

The new directory and both subaccounts must be created inside the correct global account hierarchy.

Part A - Create the Shared Services Directory

Step 1 - Open Directories

What to do

In the SAP BTP Cockpit, open your Global Account.

In the left navigation menu, click Directories.

Explanation:

This is where you create and manage directory structures under the global account.

What to verify

You should now see the list of existing directories.

Step 2 - Create the Directory Shared Services

What to do

Click Create or Create Directory.

Enter the following values:

Name: Shared Services

Description: Shared Accounts

Parent: your Global Account

Click Create.

Create Directory

Display Name *

Shared Services

Description

Shared Account

Parent *

BTP Admin Certification

> Advanced

Cockpit supports multi-level directories in your account structure.

You can add your new directory directly to the root global account or to an existing directory by choosing the location under **Parent**.

Create

Cancel

Explanation:

This creates a new top-level directory directly under the global account. It will be used to hold the shared-services subaccounts.

What to verify

You should now see:

Shared Services

under the global account.

Part B - Create the SH Dev Subaccount

Step 3 - Open the Shared Services Directory

What to do

In the directory list, select Shared Services.

Explanation:

Both required subaccounts must be created inside this directory.

What to verify

You should now be inside the Shared Services directory.

Step 4 - Open Subaccounts

What to do

Inside Shared Services, open Subaccounts.

Click Create → Subaccount.

Explanation:

This opens the subaccount creation screen.

Step 5 - Create SH Dev

What to do

Enter the following:

Display Name / Name: SH Dev

Description: Shared Services Development

Subdomain: btpops#####-sh-dev

Set the region as:

Cloud Provider: Amazon Web Services (AWS)

Region: Europe (Frankfurt)

Technical Region / Environment: cf-eu10

Then click Create.

Explanation:

This creates the shared services development subaccount in the required AWS Frankfurt region.

What to verify

After creation, you should see:

SH Dev

inside the Shared Services directory.

Create Subaccount

Display Name*

Description

Region*

Sub-domain*

Parent*

> **Advanced**

Cockpit supports multi-level directories in your account structure.
You can add your new subaccount directly to the root global account or to an existing directory by choosing the location under **Parent**.

Create **Cancel**

Part C - Create the SH Ops Subaccount

Step 6 - Start a New Subaccount

What to do

Still inside Shared Services, click Create → Subaccount again.

Explanation:

This opens the form for the second required subaccount.

Step 7 - Create SH Ops

What to do

Enter the following:

Display Name / Name: SH Ops

Description: Shared Services Operations

Subdomain: btpops#####-sh-ops

Set the region as:

Cloud Provider: Amazon Web Services (AWS)

Region: Europe (Frankfurt)

Technical Region / Environment: cf-eu10

Then click Create.

Create Subaccount

Display Name *
SH Ops

Description
Shared Services Operations

Region *
Europe (Frankfurt) - AWS

Subdomain *
bt pops xxxxsh-ops

Parent *
Shared Services

> **Advanced**

Cockpit supports multi-level directories in your account structure. You can add your new subaccount directly to the root global account or to an existing directory by choosing the location under **Parent**.

Create **Cancel**

Explanation:

This creates the shared services operations subaccount in the same required region.

What to verify

After creation, you should see:

SH Ops

inside the Shared Services directory.

Final Expected Result for Task 1

You should now have:

Directory

Shared Services

Description: Shared Accounts

Parent: Global Account

Subaccounts inside Shared Services

SH Dev

Description: Shared Services Development

Subdomain: bt pops#####-sh-dev

Region: AWS → Europe (Frankfurt) cf-eu10

SH Ops

Description: Shared Services Operations

Subdomain: bt pops#####-sh-ops

Region: AWS → Europe (Frankfurt) cf-eu10

Name	Type	Environment	Provider	Labels	Changed On
BT Admin Certification	Global Account				March 25, 2020, 5:11:20
Amecia	Directory				March 26, 2020, 3:27:51
Partner	Directory (Managed)			1 label	March 26, 2020, 3:50:11
SH Dev Test	Subaccount	Multi-Environment	Microsoft Azure		March 26, 2020, 3:39:31
SH Ops Prod	Subaccount	Multi-Environment	Microsoft Azure		March 26, 2020, 3:39:31
SH Ops	Directory				March 26, 2020, 3:39:31
Human Resources	Directory			1 label	March 26, 2020, 3:43:01
EU HCM Dev	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2020, 3:43:01
EU HCM Prod	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2020, 3:46:31
EU HCM Test	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2020, 3:46:31
Shared Services	Directory				March 26, 2020, 3:46:31
SH Dev	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2020, 4:15:51
SH Ops	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2020, 4:17:01

Common Mistakes to Avoid

1. Creating the directory in the wrong place

Shared Services must be created with:

parent = Global Account

2. Creating the subaccounts outside the directory

Both subaccounts must be created inside:

Shared Services

3. Wrong subdomain values

Use exactly:

btpops#####-sh-dev

btpops#####-sh-ops

Only replace ##### with your global account number.

4. Wrong region

Both subaccounts must use:

Amazon Web Services (AWS)

Europe (Frankfurt)

cf-eu10

5. Mixing up SH Dev and SH Ops

Be careful:

SH Dev = Shared Services Development

SH Ops = Shared Services Operations

NEW QUESTION # 12

SIMULATION

Create Directories and Subaccounts

In a global account for SAP Business Technology Platform (BTP), create a hierarchy of subaccounts using directories.

Task 1: Create Directories

In your SAP BTP cockpit, create the directory Americas (Description: Americas Accounts) with your global account as the parent.

Create the directory Eurasia (Description: Eurasia Accounts) with your global account as the parent.

Create the directory Partner (Description: Partner Accounts) with the Americas directory as the parent. Add the label access with value external.

Create the directory Human Resources (Description: Human Resources Accounts) with the Eurasia directory as the parent. Add the label access with value internal.

Answer:

Explanation:

See the Explanation below for complete solution

Explanation:

Task 1: Create Directories

You need to create these directories:

Americas

Eurasia

Partner under Americas with label access=external

Human Resources under Eurasia with label access=internal

Before You Start

Log in to the SAP BTP Cockpit.

Make sure you are inside the correct Global Account.

Open the left-side navigation menu.

Why this is important:

All directories in this task must be created inside the correct global account hierarchy. If you create them in the wrong location, the simulation result will be incorrect.

Step 1 - Create Directory Americas

What to do

In the SAP BTP Cockpit, select your Global Account.

In the left navigation menu, click Directories.

Click Create or Create Directory.

Fill the fields as follows:

Name: Americas

Description: Americas Accounts

Parent: your Global Account

Click Create.

Create Directory

Display Name* Americas

Description Americas Accounts

Parent* BTP Admin Certification xxxx

> Advanced

Cockpit supports multi-level directories in your account structure. You can add your new directory directly to the root global account or to an existing directory by choosing the location under **Parent**.

SAP

Create Cancel

Explanation:

This creates a top-level directory directly under the global account.

It will later be used as the parent for the Partner directory.

What to verify

After creation, you should see:

Americas

listed under the directories of the global account.

Step 2 - Create Directory Eurasia

What to do

Stay in Directories.

Click Create Directory again.

Fill the fields:

Name: Eurasia

Description: Eurasia Accounts

Parent: your Global Account

Click Create.

Create Directory

Display Name* Eurasia

Description Eurasia Accounts

Parent* BTP Admin Certification xxxx

> Advanced

Cockpit supports multi-level directories in your account structure. You can add your new directory directly to the root global account or to an existing directory by choosing the location under **Parent**.

SAP

Create Cancel

Explanation:

This creates another top-level directory, parallel to Americas.

What to verify

You should now see both:

Americas

Eurasia

under the global account.

Step 3 - Create Directory Partner under Americas

What to do

In the Directories area, select Americas.

Click Create Directory.

Enter:

Name: Partner
Description: Partner Accounts
Parent: Americas
Locate the Labels section.
Add a new label:
Key: access
Value: external
Click Create.

Name	Type	Environment	Provider	Changed On
BTP Admin Certification XXXXX	Global Account			March 25, 2026, 9:11:2...
Americas	Directory			March 26, 2026, 3:27:5...
Eurasia	Directory			March 26, 2026, 9:26...

Context menu options:
Edit
Go to Overview
More Info
Create Directory
Create Subaccount
Delete

Select Parent

Search

Show only directories I can create in Expand All Collapse All

▼ **BTP Admin Certification** **XXXXX**

- Americas
- Eurasia

Select **Cancel**

Create Directory

Display Name* Partner

Description Partner Accounts

Parent* Americas

Advanced

Enable entitlement management Enable user management

Add labels to this directory.

Name: access Values: external

Explanation:

This creates Partner as a child directory under Americas.

The label is required and must be entered exactly:

access = external

This label helps classify the directory.

What to verify

Under Americas, you should now see:

Partner

and the directory should contain the label:

access=external

Step 4 - Create Directory Human Resources under Eurasia

What to do

Go back to the Directories list.

Select Eurasia.

Click Create Directory.

Enter:

Name: Human Resources

Description: Human Resources Accounts

Parent: Eurasia

In the Labels section, add:

Key: access

Value: internal

Click Create.

Create Directory

Display Name*

Parent*

Description

Enable enrollment management Enable user management

Add labels to this directory.

Name: Values:

Explanation:

This creates Human Resources as a child directory under Eurasia.

The required label is:

access = internal

What to verify

Under Eurasia, you should now see:

Human Resources

and the label should be:

access=internal

Final Expected Directory Structure

After completing Task 1, your structure must be exactly like this:

Global Account

Americas

Partner

Label: access=external

Eurasia

Human Resources

Label: access=internal

Name	Type	Enrollment	Provider	Region	Labels	Changed On
STP Admin Certification: XXXXX	Global Account					March 20, 2020, 6:56:2...
Americas	Directory					March 22, 2020, 4:25:1...
Partner	Directory				1 label	March 22, 2020, 4:29:2...
Eurasia	Directory					March 22, 2020, 4:26:0...
Human Resources	Directory				1 label	March 22, 2020, 4:33:0...

Important Checks Before Moving On

Verify all of the following:

Americas exists

Eurasia exists

Partner is under Americas

Human Resources is under Eurasia

Partner has label access=external

Human Resources has label access=internal

All names and descriptions are entered exactly as required

Common Mistakes to Avoid

1. Wrong parent

Partner must be created under Americas

Human Resources must be created under Eurasia

2. Wrong label key or value

Use exactly:

access → external

access → internal

3. Spelling errors

Be careful with:

Americas

Eurasia

Partner

Human Resources

4. Creating all directories directly under the global account

Only Americas and Eurasia are direct children of the global account.

Partner and Human Resources must be child directories.

NEW QUESTION # 13

SIMULATION

Task 3: Create Subaccounts with Default Provider and Region

In the Human Resources directory, create the subaccount EU HCM Dev (Description: Human Resources Development) with subdomain btpops#####-eu-hcm-dev in the region Amazon Web Services (AWS) → Europe (Frankfurt) cf-eu10.2.

In the Human Resources directory, create the subaccount EU HCM Test (Description: Human Resources Testing) with subdomain btpops#####-eu-hcm-test using EU HCM Dev as source subaccount.3.

In the Human Resources directory, create the subaccount EU HCM Prod (Description: Human Resources Production) with subdomain btpops#####-eu-hcm-prod using EU HCM Dev as source subaccount. Set the subaccount as used in production.

Answer:

Explanation:

See the Explanation below for complete solution.

Explanation:

You must create these 3 subaccounts inside the Human Resources directory:

EU HCM Dev

EU HCM Test

EU HCM Prod

Important:

Replace ##### with your global account number

Enter names, descriptions, and subdomains exactly

EU HCM Prod must be marked as used in production

Task 3 - Create Subaccounts with Default Provider and Region

Before You Start

Log in to the SAP BTP Cockpit.

Open the correct Global Account.

Go to Directories.

Open the Human Resources directory.

Why this matters:

All 3 subaccounts in this task must be created inside Human Resources. If you create them anywhere else, the result will be incorrect.

Step 1 - Open the Human Resources Directory

What to do

In the left menu, choose Directories.

In the list, select Human Resources.

Explanation:

This is the parent directory where the required HR subaccounts must be created.

What to verify

You should now be inside the Human Resources directory.

Step 2 - Start Creating EU HCM Dev

What to do

Inside Human Resources, open Subaccounts.

Click Create → Subaccount.

Explanation:

This opens the form to create the first HR subaccount.

Step 3 - Enter Values for EU HCM Dev

What to do

Enter the following:

Display Name / Name: EU HCM Dev

Description: Human Resources Development

Subdomain: btpops####-eu-hcm-dev

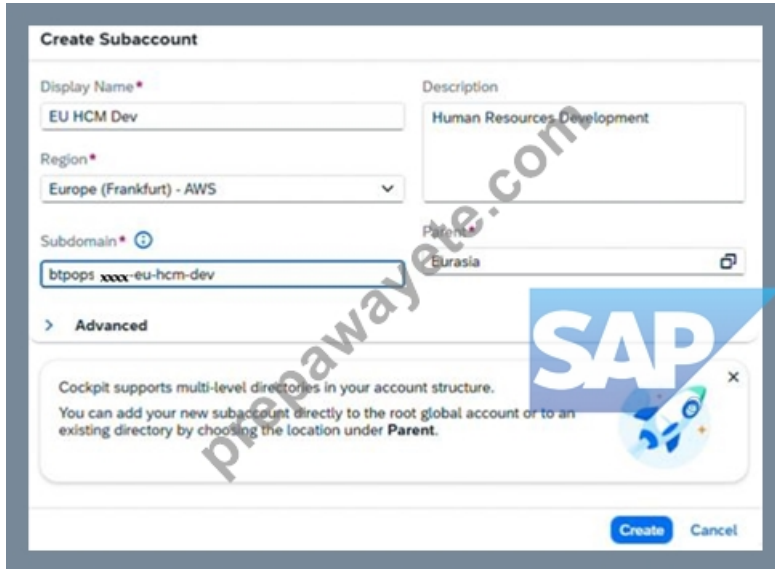

Set the region as:

Cloud Provider: Amazon Web Services (AWS)

Region: Europe (Frankfurt)

Technical Region / Environment: cf-eu10

Then click Create.

Explanation:

This creates the development subaccount for HR and defines the required provider and region.

This first subaccount is important because it will be used as the source subaccount for the next two subaccounts.

What to verify

After creation, you should see:

EU HCM Dev

under the Human Resources directory.

Step 4 - Confirm EU HCM Dev Exists

What to do

Check the subaccounts list in Human Resources.

Explanation:

You must make sure EU HCM Dev is available before you create the next subaccounts, because both EU HCM Test and EU HCM Prod must use it as the source subaccount.

What to verify

You should see:

EU HCM Dev

If it is missing, create it correctly before moving on.

Step 5 - Start Creating EU HCM Test

What to do

Still in the Human Resources directory, click Create → Subaccount again.

Explanation:

This opens the form for the test subaccount.

Step 6 - Enter Values for EU HCM Test

What to do

Enter:

Display Name / Name: EU HCM Test

Description: Human Resources Testing

Subdomain: btpops####-eu-hcm-test

Then select:

Source Subaccount: EU HCM Dev

Then click Create.

Explanation:

This creates the testing subaccount by using EU HCM Dev as the source subaccount.

This helps keep the configuration aligned with the development subaccount.

What to verify

After creation, you should see:

EU HCM Test

under Human Resources.

Name	Type	Environment	Region	Changed On	
STP Admin Certification	Global Account			March 25, 2026, 5:11:2...	
Americas	Directory			March 26, 2026, 3:27:5...

AM PA Prod	Subaccount	Multi-Environment	Microsoft Azure	US West (OR)	March 26, 2026, 3:39:3...
Eurasia	Directory			March 26, 2026, 3:28:2...	
Human Resources	Directory			March 26, 2026, 3:43:0...	
EU HCM Dev	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2026, 3:43:4...
EU HCM Test	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2026, 3:46:5...

Step 7 - Start Creating EU HCM Prod

What to do

In Human Resources, click Create → Subaccount once more.

Explanation:

This opens the form for the production subaccount.

Step 8 - Enter Values for EU HCM Prod

What to do

Enter:

Display Name / Name: EU HCM Prod

Description: Human Resources Production

Subdomain: btpops#####-eu-hcm-prod

Then select:

Source Subaccount: EU HCM Dev

Enable:

Used in Production: Yes

Then click Create.

Explanation:

This creates the production HR subaccount based on EU HCM Dev and marks it as a production system. The production setting is mandatory here.

What to verify

After creation, you should see:

EU HCM Prod

under Human Resources, and it should be marked as used in production.

Create Subaccount

Display Name*
EU HCM Prod

Description
Human Resources Production

Final Expected Result for Task 3

Inside the Human Resources directory, you must have these 3 subaccounts:

1. EU HCM Dev

Description: Human Resources Development

Subdomain: btpops#####-eu-hcm-dev

Region: Amazon Web Services (AWS) → Europe (Frankfurt) cf-eu10

2. EU HCM Test

Description: Human Resources Testing

Subdomain: btpops#####-eu-hcm-test

Source Subaccount: EU HCM Dev

3. EU HCM Prod

Description: Human Resources Production

Subdomain: btpops#####-eu-hcm-prod

Source Subaccount: EU HCM Dev

Used in Production: Yes

Name	Type	Environment	Provider	Changed On
BTP Admin Certification XXXXX	Global Account			March 25, 2026, 5:11:2...
Americas	Directory			March 26, 2026, 3:27:5...
Partner	Directory			March 26, 2026, 3:30:3...
AM PA Dev Test	Subaccount	Multi-Environment	Microsoft Azure	March 26, 2026, 3:35:3...
AM PA Prod	Subaccount	Multi-Environment	Microsoft Azure	March 26, 2026, 3:39:3...
Eurasia	Directory			March 26, 2026, 3:29:2...
Human Resources	Directory			March 26, 2026, 3:43:0...
EU HCM Dev	Subaccount	Multi-Environment	Amazon Web Services (AWS)	March 26, 2026, 3:43:4...
EU HCM Prod	Subaccount	Multi-Environment	Amazon Web Services (AWS)	March 26, 2026, 3:48:3...
EU HCM Test	Subaccount	Multi-Environment	Amazon Web Services (AWS)	March 26, 2026, 3:46:5...

Common Mistakes to Avoid

1. Creating the subaccounts in the wrong directory

All 3 must be created inside:

Human Resources

Not under:

Global Account

Americas

Eurasia

Partner

2. Wrong subdomain values

Use exactly:

bt pops#####- eu-hcm-dev

bt pops#####- eu-hcm-test

bt pops#####- eu-hcm-prod

Only replace ##### with your global account number.

3. Wrong region for EU HCM Dev

It must be:

Amazon Web Services (AWS)

Europe (Frankfurt)

cf-eu10

4. Wrong source subaccount

For both:

EU HCM Test

EU HCM Prod

you must select:

EU HCM Dev

5. Forgetting the production flag

For EU HCM Prod, make sure:

Used in Production is enabled
