Valid Dumps CMMC-CCP Questions, CMMC-CCP Valid Test Materials

CMMC CCP Practice Exam Questions with correct answers

What is a CUI Asset? Correct Answer-Asset that stores, processes, or transmits CUI

Examples: Servers, Printers, Endpoints, Cloud Services, ERP Systems

Where do you document a CUI Asset? Correct Answer-Document in Asset Inventory

Document in SSP

Document in Network Diagram

What practices do you apply to a CUI Asset? Correct Answer-CMMC Level 2

What does CMMC stand for? Correct Answer-Cybersecurity Maturity Model Certification

How many controls are in CMMC L2? Correct Answer-110 controls

What impact level is required when storing CUI? Correct Answer-IL4

What contract clause is used for CMMC L1? Correct Answer-FAR 52.204-21 (17 practices in total)

If you want to be CMMC L2 compliant, do you need to also be CMMC L1 compliant? Correct Answer-Yes

Correct Answer-

2025 Latest Itcertmaster CMMC-CCP PDF Dumps and CMMC-CCP Exam Engine Free Share: https://drive.google.com/open?id=1c_c0KrTHFfcQLziuwUrcGbmBbU0AmGOM

As far as we are concerned, the key to quick upward mobility lies in adapting your excellent personality to the style of the organization you are working in. Our CMMC-CCP exam materials embrace much knowledge and provide relevant CMMC-CCP Exam bank available for your reference, which matches your learning habits and produces a rich harvest of the CMMC-CCP exam knowledge. As long as you buy our CMMC-CCP study guide, you will be benefited from it!

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	• CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.

Topic 2	• CMMC Governance and Source Documents: This section of the exam measures the capabilities of legal or compliance advisors, covering key regulatory frameworks that govern cybersecurity compliance. Topics include Federal Contract Information, Controlled Unclassified Information, the role of NIST SP 800-171, DFARS, FAR, and the structure and requirements of CMMC v2.0, including self-assessments and certification levels.
Topic 3	• CMMC Ecosystem: This section of the exam measures the skills of consultants and compliance professionals and focuses on the different roles and responsibilities across the CMMC ecosystem. Candidates must understand the functions of entities such as the Department of Defense, CMMC-AB, Organizations Seeking Certification, Registered Practitioners, and Certified CMMC Professionals, as well as how the ecosystem supports cybersecurity standards and certification.
Topic 4	• CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.
Topic 5	• CMMC Model Construct and Implementation Evaluation: This section of the exam measures the evaluative skills of cybersecurity assessors, focusing on the application and assessment of the CMMC model. It includes understanding its levels, domains, practices, and implementation criteria, and how to assess whether organizations meet the required cybersecurity practices using evidence-based evaluation.

Certified CMMC Professional (CCP) Exam study guide & CMMC-CCP reliable questions & Certified CMMC Professional (CCP) Exam pdf dumps

If you are worried about your exam, just choose us, we will help you pass the exam and strengthen your confidence. CMMC-CCP Soft test engine can stimulate the real exam environment, so that you can know the procedure of the exam, and your nerves will be decreased and your confidence will be increased. In addition, CMMC-CCP Training Materials are high quality, and they can help you pass the exam just one time. If you fail to pass the exam in your first attempt after using CMMC-CCP exam dumps of us, we will give you full refund.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q175-Q180):

NEW QUESTION # 175
Which words summarize categories of data disposal described in the NIST SP 800-88 Revision 1. Guidelines for Media Sanitation?

- A. Clear redact, destroy
- B. Clear, overwrite, destroy
- C. Clear, overwrite, purge
- D. Clear, purge, destroy

Answer: D

Explanation:
Understanding NIST SP 800-88 Rev. 1 and Media SanitizationThe NIST Special Publication (SP) 800-88 Revision 1, Guidelines for Media Sanitization, provides guidance on secure disposal of data from various types of storage media to prevent unauthorized access or recovery.
* Clear
* Uses logical techniques to remove data from media, making it difficult to recover using standard system functions.
* Example: Overwriting all data with binary zeros or ones on a hard drive.
* Applies to: Magnetic media, solid-state drives (SSD), and non-volatile memory when the media is reused within the same security environment.
* Purge
* Uses advanced techniques to make data recovery infeasible, even with forensic tools.

* Example:Degaussinga magnetic hard drive orcryptographic erasure(deleting encryption keys).
* Applies to:Media that is leaving organizational control or requires a higher level of assurance than "Clear".
* Destroy
* Physicallydamages the mediaso that data recovery isimpossible.
* Example:Shredding, incinerating, pulverizing, or disintegratingstorage devices.
* Applies to:Highly sensitive data that must be permanently eliminated.
* B. Clear, Redact, Destroy (Incorrect)- "Redact" is a term used for document sanitization,notdata disposal.
* C. Clear, Overwrite, Purge (Incorrect)- "Overwrite" is a method within "Clear," but it isnot a top-level categoryin NIST SP 800-88.
* D. Clear, Overwrite, Destroy (Incorrect)- "Overwrite" is a sub-method of "Clear," but "Purge" is missing, making this incorrect.
* The correct answer isA. Clear, Purge, Destroy, as these are thethree official categoriesof data disposal inNIST SP 800-88 Revision 1.
References:
NIST SP 800-88 Rev. 1 - Guidelines for Media Sanitization
CMMC 2.0 Security Practices Related to Media Disposal(Aligned with NIST guidance)

NEW QUESTION # 176

When planning an assessment, the Lead Assessor should work with the OSC to select personnel to be interviewed who could:

- A. provide clarity and understanding of their practice activities.
- B. have a security clearance.
- C. be a senior person in the company.
- D. demonstrate expertise on the CMMC requirements.

Answer: A

Explanation:
Interview Selection in CMMC AssessmentsDuring aCMMC assessment, theLead Assessormust work with theOrganization Seeking Certification (OSC)to select personnel for interviews. The goal is to:
#Verify that personnel understand andperform security-related practices.
#Ensure that individuals canexplain how they implement CMMC requirements.
#Gain insight intoactual cybersecurity operationsrather than just documented policies.
The best interviewees are those whodirectly engage with security practicesand canclearly explain how they perform their duties.
CMMC assessmentsrely on interviewsto validate that security practices areimplemented effectively.
Themost valuable intervieweesare those who canexplainhow security measures are appliedin day-to-day operations.
CMMC Assessment Process (CAP)emphasizes that assessors should speak tothose actively involved in security practicesrather than just senior management or policy owners.
Why "Providing Clarity and Understanding" Is KeyThus,option D is the correct choicebecause the Lead Assessor should prioritizeinterviewing personnel who can clearly explain how CMMC practices are implemented.
A). Have a security clearance.#Incorrect.Security clearance is not a requirementfor CMMC assessments. The focus is onpractical implementation of security controls, not classified work.
B). Be a senior person in the company.#Incorrect. Senior executives may not be involved in theactual implementation of security controls. The best interviewees are those whoperform the work, not just oversee it.
C). Demonstrate expertise on the CMMC requirements.#Incorrect. Whileunderstanding CMMC is important, expertise alonedoes not guarantee practical knowledgeof security controls. The key is thatinterviewees must provide clarity on how they perform security tasks.
Why the Other Answers Are Incorrect
CMMC Assessment Process (CAP) Document- Guides interview selection based on personnel who perform security functions.
NIST SP 800-171 & CMMC 2.0- Emphasize that cybersecurity controls must beactively implemented, not just documented.
CMMC Official ReferencesThus,option D (Provide clarity and understanding of their practice activities) is the correct answeras per official CMMC assessment guidelines.

NEW QUESTION # 177

Prior to conducting a CMMC Assessment, the contractor must specify the CMMC Assessment scope by categorizing all assets. Which two asset categories are always assessed against CMMC practices?

- A. Specialized Assets and Contractor Risk Managed Assets
- B. CUI Assets and Specialized Assets

- C. Security Protection Assets and Contractor Risk Managed Assets
- D. Security Protection Assets and CUI Assets

Answer: D

Explanation:
Understanding CMMC Asset Scoping RequirementsBefore conducting aCMMC Level 2 Assessment, anOrganization Seeking Certification (OSC)must define theassessment scopeby categorizing all assets. This ensures that only relevant systems are assessed againstCMMC practices, reducing unnecessary compliance burdens.
According to theCMMC Scoping Guide for Level 2, there are four asset categories:
* CUI Assets- Assets that process, store, or transmitControlled Unclassified Information (CUI).
* Security Protection Assets (SPA)- Assets that providesecurity functions(e.g., firewalls, intrusion detection systems, identity management systems).
* Contractor Risk Managed Assets (CRMA)- Assets thatdo not directly store/process CUIbut interact with CUI environments (e.g., BYOD devices, personal computers used for remote access).
* Specialized Assets- Unique systems such asOperational Technology (OT), IoT, and Government Furnished Equipment (GFE), which may requirelimitedCMMC assessment.
Which Asset Categories Are Always Assessed?#1. CUI Assets(ALWAYS ASSESSED)
* These are theprimary focusof CMMC Level 2 since they handleCUI.
* All110 NIST SP 800-171 controlsapply to these assets.
#2. Security Protection Assets (SPA)(ALWAYS ASSESSED)
* Security tools that protectCUI Assetsarealways includedin the assessment.
* Examples includefirewalls, antivirus, endpoint detection and response (EDR) tools, and identity management systems.
* (A) CUI Assets and Specialized Assets#
* CUI Assets are assessed, butSpecialized Assets are only assessed in a limited manner, depending on their role inCUI security.
* (C) Specialized Assets and Contractor Risk Managed Assets#
* Specialized Assets and CRMAsare typicallynot fully assessedagainst CMMC controls unless they directly impactCUI security.
* (D) Security Protection Assets and Contractor Risk Managed Assets#
* SPAs are always assessed, butCRMAs are not necessarily assessedunless they directly impact CUI.
* TheCMMC Scoping Guide (Level 2)clearly states thatCUI Assets and Security Protection Assetsarealways assessedagainst CMMC practices.
Why the Other Answer Choices Are Incorrect:Final Validation fromCMMC Documentation:Thus, the correct answer is:
B: Security Protection Assets and CUI Assets.

NEW QUESTION # 178
An OSC needs to be assessed on RA.L2-3.11.1: Periodically assess the risk to organizational operations (including mission, functions, image, or reputation), organizational assets, and individuals, resulting from the operation of organizational systems and the associated processing, storage, or transmission of CUI. What is in scope for a Level 2 assessment of RA.L2-3.11.1?

- A. Enterprise systems
- B. CUI Marking processes
- C. Processes, people, physical entities, and IT systems in which CUI processed, stored, or transmitted
- D. IT systems

Answer: C

Explanation:
Understanding RA.L2-3.11.1 Risk Assessment Scope in CMMC Level 2TheCMMC Level 2 controlRA.
L2-3.11.1aligns withNIST SP 800-171, Requirement 3.11.1, which mandates that organizationsperiodically assess risks to operations, assets, and individuals arising from the processing, storage, or transmission of CUI.
* What is Required for Compliance?
* The organization must performrisk assessments on all assets and entities involved in handling CUI.
* Risk assessments mustevaluate potential threats, vulnerabilities, and impacts on CUI security.
* The scopemust include people, processes, physical locations, and IT systemsto ensure comprehensive risk management.
* Why the Correct Answer is "Processes, people, physical entities, and IT systems in which CUI is processed, stored, or transmitted":
* CUIcan be exposed to risk in multiple ways-not just IT systems but also human error, physical security gaps, and process weaknesses.
* Risk assessmentsmust evaluate all areas that could impact CUI security, including:
* Personnel security risks(e.g., insider threats, phishing attacks).

* Process vulnerabilities(e.g., mishandling of CUI, policy weaknesses).
* Physical security risks(e.g., unauthorized access to servers, storage rooms).
* IT systems(e.g., networks, servers, cloud environments processing CUI).
* A. "IT systems"#Too narrow.Risk assessmentmust cover more than just IT systems, includingpeople, physical assets, and processesaffecting CUI.
* B. "Enterprise systems"#Too broad.While enterprise systems might be assessed, thefocus is specifically on areas handling CUI, not all enterprise operations.
* C. "CUI Marking processes"#Incorrect focus.While marking CUI correctly is important,RA.L2-3.11.1 pertains to risk assessments, not data classification.
References:NIST SP 800-171 Rev. 2 - Requirement 3.11.1(NIST Official Site) CMMC 2.0 Level 2 Assessment Guide - Risk Assessment Domain(Cyber AB)
#Final Answer: D. Processes, people, physical entities, and IT systems in which CUI is processed, stored, or transmitted.

NEW QUESTION # 179

A C3PAO Assessment Plan document captures the names of the interviewees, the facilities that will utilized, along with estimated costs and schedule of the assessment. What part of the assessment plan is this?

- A. Select and develop the evidence collection approach.
- B. Identify resources and schedule.
- C. Identify and manage assessment risks.
- D. Select Assessment Team members.

Answer: B

Explanation:
ACertified Third-Party Assessor Organization (C3PAO)is responsible for conductingCMMC Level 2 Assessments. Before the assessment begins, the C3PAO must develop anAssessment Plan, which includes several key elements.
The part of the plan that captures:
#Names of interviewees
#Facilities to be utilized
#Estimated costs
#Assessment schedule
falls under the"Identify Resources and Schedule"section of the plan.
Step-by-Step Breakdown:#1. Identify Resources and Schedule
* This section of theCMMC Assessment Planoutlines:
* Thepersonnelinvolved (e.g., interviewees, assessors).
* Thelocationswhere the assessment will take place.
* Thetimeline and scheduling details.
* Theestimated costsassociated with the assessment.
* This ensures that all necessaryresourcesare allocated and that the assessment proceeds as planned.
#2. Why the Other Answer Choices Are Incorrect:
* (B) Select Assessment Team Members#
* This section focuses onchoosing the assessorswho will conduct the evaluation, not listing interviewees and facilities.
* (C) Identify and Manage Assessment Risks#
* This part of the plandocuments risks(e.g., scheduling conflicts, data access issues), but it doesnot outline names, facilities, or costs.
* (D) Select and Develop the Evidence Collection Approach#
* This step defineshowevidence will be gathered (e.g., document reviews, interviews, system testing) but doesnot focus on logistics.
Final Validation fromCMMC Documentation:TheCMMC Assessment Process Guidestates thatresource identification and schedulingare essential for organizing the assessment. Since this sectioncaptures interviewees, facilities, costs, and the schedule, the correct answer is:
#A. Identify resources and schedule.

NEW QUESTION # 180

......

Cyber AB's CMMC-CCP exam certification is one of the most valuable contemporary of many exam certification. In recent decades, computer science education has been a concern of the vast majority of people around the world. It is a necessary part of the IT field of information technology. So IT professionals to enhance their knowledge through Cyber AB CMMC-CCP exam

certification. But pass this test will not be easy. So Itcertmaster Cyber AB CMMC-CCP Exam Certification issues is what they indispensable. Select the appropriate shortcut just to guarantee success. The Itcertmaster exists precisely to your success. Select Itcertmaster is equivalent to choose success. The questions and answers provided by Itcertmaster is obtained through the study and practice of Itcertmaster IT elite. The material has the experience of more than 10 years of IT certification.
