### NEW QUESTION # 71

The storefront contains Products that are in multiple categories. How can the admin choose which Category displays in the breadcrumb?

- A. Set the Category as priority 1
- **B. Set the Category as the Primary Category**
- C. Set the Category as priority 0
- D. Set the Category to "Show in Menu"

**Answer: B**

Explanation:

If a product is in multiple categories, the admin can choose which category displays in the breadcrumb by setting it as the primary category. The primary category is the category that has priority 0 in the product category assignment object. The breadcrumb is a navigation element that shows the path from the home page to the current page on the storefront. Reference: Set the Category as the Primary Category

### NEW QUESTION # 72

What profile or permission set is needed for Buyers that need Account switching on the Storefront?

- A. CommerceUser
- B. B2B commerce User
- **C. Account Switcher User**
- D. B2B Commerce Super User

**Answer: C**

Explanation:

According to the Account Switcher page, account switcher is a feature that allows buyers to switch between different accounts that they have access to on your B2B Commerce site. Account switcher can be used to support buyers who work for multiple companies or organizations that buy from you. The profile or permission set that is needed for buyers that need account switching on the storefront is Account Switcher User. Account Switcher User is a permission set that grants users the ability to switch between accounts on your site. To enable account switching for buyers, you need to assign them the Account Switcher User permission set and add them as contacts to the accounts that they can switch to. Therefore, option A is correct. Options B, C, and D are false because they are not profiles or permission sets that are needed for buyers that need account switching on the storefront. B2B Commerce Super User is a profile that grants users full access to all B2B Commerce features and functionality. B2B Commerce User is a profile that grants users basic access to B2B Commerce features and functionality. Commerce User is a user license type that allows users to access B2B Commerce sites as buyers or administrators. Reference: Account Switcher, Account Switcher Overview

#### NEW QUESTION # 74

An Administrator is building a storefront to sell office furniture to other businesses. How should the Administrator segment the different types of furniture to enable better navigation within the store?

- A. Create Product Keywords.
- B. Create Product Filters.
- C. Create Product Tags.
- **D. Create Product Categories.**

**Answer: D**

Explanation:

For better navigation within a storefront selling office furniture, the Administrator should Create Product Categories (D). Product Categories allow for the logical grouping of products, such as desks, chairs, and filing cabinets, facilitating easier browsing and discovery for customers. Categories offer a hierarchical structure that can be used to segment products by type, function, or any other relevant classification, enhancing the user experience. Tags (A), Keywords (B), and Filters (C) can also aid in navigation, but Categories provide a fundamental organizational framework that is essential for store structure and navigation.
