

# JN0-460 Free Study Material & JN0-460 Exam Quizzes

## Juniper JNCIS Mist AI Wired JN0-460 Certification Study Guide

Juniper JN0-460 Exam Details, Syllabus and Questions

www.NWExam.com  
Get complete detail on JN0-460 exam guide to crack Juniper Mist AI Wired, Specialist. You can collect all information on JN0-460 tutorial, practice test, books, study material, exam questions, and syllabus. Firm your knowledge on Juniper Mist AI Wired, Specialist and get ready to crack JN0-460 certification. Explore all information on JN0-460 exam with number of questions, passing percentage and time duration to complete test.

P.S. Free & New JN0-460 dumps are available on Google Drive shared by Easy4Engine: <https://drive.google.com/open?id=1RgIjQ8C1k0mR-sST-AU0NXlv6JA66t-p>

The policy of "small profits" adopted by our company has enabled us to win the trust of all of our JN0-460 customers, because we aim to achieve win-win situation between all of our customers and our company. And that is why even though our company has become the industry leader in this field for so many years and our JN0-460 Exam Materials have enjoyed such a quick sale all around the world we still keep an affordable price for all of our customers and never want to take advantage of our famous brand.

## Juniper JN0-460 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• <b>Campus EVPN-VXLAN:</b> This section of the exam measures the skills of Data Center Network Engineers and explores the key principles of VXLAN and EVPN technologies. Candidates learn about Layer 2 tunneling, data and control plane operations, and the functions of VTEPs and VXLAN gateways. Additionally, it covers advanced EVPN concepts such as multipath routing, route types, and identifiers. The section concludes with a focus on MAC learning and policy applications to ensure efficient, scalable, and resilient network fabrics.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• <b>Campus Fabric Architecture:</b> This section of the exam measures the skills of Network Design Engineers and focuses on understanding and deploying Campus Fabric Architectures. It introduces essential design concepts such as EVPN multihoming, IP Clos architecture, and micro-segmentation. The section also compares CRB and ERB models, explains scaling requirements, and highlights how the Campus Fabric Core-Distribution design supports high-performance, scalable, and secure enterprise networks.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>Wired Assurance Provisioning or Deployment: This section of the exam measures the skills of Network Deployment Specialists and focuses on the provisioning and deployment processes of Wired Assurance. It includes the essential steps and options involved in setting up networks, from configuration templates to deployment methodologies. Candidates learn about provisioning procedures, supported architectures, and the use of site variables to streamline automation and consistency across wired infrastructures.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Wired Assurance Management or Operations: This section of the exam measures the skills of Network Operations Engineers and focuses on the management and operational aspects of Wired Assurance. It covers switch management, port profiles, and dynamic port configuration to ensure optimal network performance. The section also explores service-level expectations, client insights, and the use of APIs for improved monitoring and automation. Candidates gain an understanding of how MistAI enables proactive management and predictive troubleshooting to maintain service quality.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Wired Assurance Fundamentals: This section of the exam measures the skills of Network Support Engineers and covers the foundational elements of Wired Assurance within the MistAI ecosystem. It introduces candidates to key concepts such as supported devices, solution architecture, and the main features and components that define Wired Assurance functionality. Additionally, it highlights how MistAI accounts, analytics, and subscriptions integrate to deliver intelligent insights for network performance and operations.</li> </ul>

## JNCIS-MistAI-Wired JN0-460 pass4sure braindumps & JN0-460 practice pdf test

Genius is 99% of sweat plus 1% of inspiration. You really don't need to think that you can succeed for nothing. If you still have a trace of enterprise, you really want to start working hard! Our JN0-460 exam questions are the most effective helpers on your path. As the high pass rate of our JN0-460 study braindumps is as 98% to 100%, you can pass the exam without any doubt. And with the JN0-460 certification, you will lead a better life!

## Juniper Mist AI Wired, Specialist (JNCIS-MistAI-Wired) Sample Questions (Q13-Q18):

### NEW QUESTION # 13

What information does Mist use to determine if the port is classified as an uplink? (Choose two.)

- A. if the port is an STP root port
- B. if the port has an MTU greater than 1500 configured
- C. if the port has a description configured
- D. if TX and RX are higher than the rest of the ports

**Answer: A,D**

Explanation:

Juniper Mist automatically classifies ports to simplify visibility and automation within Wired Assurance. The Mist cloud analyzes port telemetry and link behavior to determine port roles, including uplinks.

"Mist uses machine learning and switch telemetry to automatically detect uplinks by analyzing traffic behavior and topology information. Uplink ports typically exhibit higher TX/RX utilization and are identified as spanning-tree root or forwarding ports connecting upstream devices." Option A: Correct - Mist examines traffic statistics. Ports with significantly higher TX/RX utilization relative to others are likely uplinks.

Option B: Incorrect - MTU size is not a classification criterion.

Option C: Correct - Mist uses STP information (root or designated port status) to identify uplinks.

Option D: Incorrect - port description fields are for administrative purposes only and are not used by Mist analytics.

**NEW QUESTION # 14**

What do Port Profiles allow network administrators to do?

- A. Monitor real-time traffic on television channels
- B. Configure ports on a switch individually without templates
- C. Assign specific roles to network users
- **D. Apply predefined settings to ports across the network**

**Answer: D**

**NEW QUESTION # 15**

What is the main purpose of policies in EVPN?

- A. To standardize network configurations across all devices
- **B. To define the behavior of route distribution and acceptance**
- C. To restrict the types of devices that can connect to the network
- D. To physically separate different network segments

**Answer: B**

**NEW QUESTION # 16**

You are using the Wired Visibility option as your Wired Assurance solution. In this scenario, which two statements are correct? (Choose two.)

- A. You must enable SNMP on all switches.
- **B. You must connect a Mist Managed AP to each switch.**
- **C. Third party switches are supported.**
- D. All devices are configurable using Mist AI.

**Answer: B,C**

**NEW QUESTION # 17**

You want to create a copy of a running configuration on a switch, what's the recommended way to accomplish this using Mist's built-in switch utilities?

- A. Download Junos Config
- B. Apply Default Templates
- C. Create a template
- **D. Snapshot Device**

**Answer: D**

**NEW QUESTION # 18**

.....

Unlike other kinds of JN0-460 exam files which take several days to wait for delivery from the date of making a purchase, our JN0-460 study guide can offer you immediate delivery after you have paid for them. The moment your money has been transferred to our account, and our system will send our training materials to your mail boxes so that you can download JN0-460 exam materials directly. With so many experiences of JN0-460 tests, you must be aware of the significance of time related to tests. Time is actually an essential part if you want to pass the exam successfully as both the preparation of JN0-460 test torrent and taking part in the exam need enough time so that you can accomplish the course perfectly well.
