

# CMMC-CCA Test Questions - Trustworthy CMMC-CCA Exam Content

DOWNLOAD the newest PDFBraindumps CMMC-CCA PDF dumps from Cloud Storage for free:  
<https://drive.google.com/open?id=1PYGKmBEv9cPygFIQPvnWz0ldsaceqFF0>

You will be able to assess your shortcomings and improve gradually without having anything to lose in the actual Certified CMMC Assessor (CCA) Exam exam. You will sit through mock exams and solve actual Cyber AB CMMC-CCA dumps. In the end, you will get results that'll improve each time you progress and grasp the concepts of your syllabus. The desktop-based Cyber AB CMMC-CCA Practice Exam software is only compatible with Windows.

## Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>• CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.</li> </ul>

## Trustworthy CMMC-CCA Exam Content & CMMC-CCA Flexible Learning Mode

If you choose our CMMC-CCA study materials and use our products well, we can promise that you can pass the CMMC-CCA exam and get the CMMC-CCA certification. Then you will find you have so many chances to advance in stages to a great level of social influence and success. Our CMMC-CCA Guide Torrent can also provide all candidates with our free demo, in order to exclude your concerns that you can check our CMMC-CCA exam questions. We believe that you will be fond of our CMMC-CCA learning guide.

## Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q35-Q40):

### NEW QUESTION # 35

You are the Lead Assessor of a C3PAO assessment team conducting a CMMC assessment for an OSC. The CMMC Assessment Guide - Level 2 lists assessment methods and objects that you are expected to use to validate the OSC's implementation. Which of the following is FALSE about the use of assessment methods and objects?

- A. The Assessment Team has the discretion to use the assessment methods or objects that best fit a CMMC practice during an assessment
- **B. A CCA must use all the specified assessment methods and objects while conducting the CMMC assessment**
- C. The assessment methods define the nature and extent of the assessor's actions
- D. Assessment methods are used to make specific determinations called for in the determination statements

**Answer: B**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CMMC Assessment Guide Level 2 and NIST SP 800-171A allow assessors discretion in selecting methods (examine, interview, test) and objects based on efficiency and context, contradicting Option C's mandate to use all specified items. Option A (specific determinations) and Option B (defining actions) align with NIST definitions. Option D (discretion) reflects the flexibility granted, making Option C false and the correct answer.

Reference Extract:

\* CMMC AG Level 2, Section 4.1: "Assessors may select methods and objects best suited to validate practices."

\* NIST SP 800-171A, Introduction: "Assessors are not required to use all methods and objects; discretion is allowed." Resources: [https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG\\_Level2\\_MasterV2.0\\_FINAL\\_202112016\\_508.pdf](https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf); <https://csrc.nist.gov/pubs/sp/800/171/a/final>

#### NEW QUESTION # 36

A C3PAO has hired a full-time CCA and included them in an Assessment Team sent to conduct a CMMC assessment. However, as part of their agreement with Cyber AB, the CCA and, by extension, the C3PAO are expected to uphold a set of values during the assessment. What document sets the expectations for accredited and credentialed entities authorized to deliver CMMC services under Cyber AB licensing?

- **A. CMMC Code of Professional Conduct**
- B. Code of Ethical Conduct
- C. CMMC Code of Ethical Conduct
- D. Code of Professional Control

**Answer: A**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CMMC Code of Professional Conduct (CoPC) is the official document setting expectations for CMMC entities, making Option B correct. Other options are fictitious or incorrect.

Extract from Official Document (CoPC):

\* Paragraph 1.1 - Purpose (pg. 3): "The CMMC Code of Professional Conduct sets expectations for credentialed individuals and accredited entities authorized to deliver CMMC services." References: CMMC Code of Professional Conduct, Paragraph 1.1.

#### NEW QUESTION # 37

A company employs an encrypted VPN to enhance confidentiality over remote connections. The CCA reads a document describing the VPN. It states the VPN allows automated monitoring and control of remote access sessions, helps detect cyberattacks, and supports auditing of remote access to ensure compliance with CMMC requirements. What document is the CCA MOST LIKELY reviewing to see how these VPNs are controlled and monitored?

- **A. Access Control Policy**
- B. Audit and Accountability Policy
- C. Configuration Management Policy
- D. Media Protection Policy

**Answer: A**

Explanation:

The Access Control (AC) domain governs remote access, privileged access, and VPN controls. Documents describing how VPNs are controlled, monitored, and restricted fall under the Access Control Policy.

Extract:

"Access Control practices include the management of remote connections, monitoring of sessions, and enforcement of VPN controls." Thus, the correct document is the Access Control Policy.

Reference: CMMC Assessment Guide - Level 2, AC.L2-3.1.x.

#### NEW QUESTION # 38

An assessor is assigned by the Lead Assessor to the pre-assessment template regarding evidence. There are several entries that include how the Assessment Team will identify, obtain, and inventory evidence. What else is required to determine readiness to conduct the assessment?

- **A. Identify the scope of the OSC.**
- B. Delineate observations by the Assessment Team.
- C. Identify additional people to interview to gather more evidence.
- D. Delineate what is required to verify the evidence.

**Answer: A**

Explanation:

\* Applicable Requirement (CAP - Pre-Assessment Activities): Before the assessment, the team must confirm the assessment scope (systems, assets, CUI boundaries, and relevant environments). Without scoping, evidence identification and collection cannot be validated.

\* Why A is Correct: Identifying scope is the foundational requirement in the pre-assessment stage, as defined in the CMMC Assessment Process. Scope determines what systems, people, and assets are included in evidence collection.

Why Other Options Are Insufficient:

\* B: Verification of evidence occurs during assessment, not pre-assessment readiness.

\* C: Observations are recorded during on-site assessment, not beforehand.

\* D: Interview selection happens during evidence collection, after scope confirmation.

References (CCA Official Sources):

\* CMMC Assessment Process (CAP) v1.0 - Pre-Assessment Phase

\* CMMC Assessment Guide - Level 2, Pre-Assessment Readiness Activities

### NEW QUESTION # 39

During a CMMC assessment of an OSC, you discover that they rely heavily on a reputable CSP for their email services. As you delve deeper into the assessment, you suspect the OSC is incorrectly assuming that the CSP's security measures are sufficient to meet all the CMMC requirements related to email security. Given the critical nature of email communications and the potential exposure of sensitive information, you recognize the importance of clearly understanding the division of responsibilities between the OSC and the CSP for email security controls. To effectively assess how email security responsibilities are divided between the OSC and the CSP, which document should you prioritize reviewing?

- A. The Service Level Agreement (SLA) between the OSC and the CSP
- B. The CSP's publicly available security documentation
- C. The OSC's overall security policy
- **D. The Shared Responsibility Matrix (SRM) between the OSC and the CSP**

**Answer: D**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The Shared Responsibility Matrix (SRM), per CMMC and FedRAMP guidance, delineates security control responsibilities between the OSC and CSP, critical for assessing email security (e.g., AC.L2-3.1.13). Option A (security policy) lacks CSP-specific detail. Option C (public documentation) is generic, not contractual.

Option D (SLA) focuses on service levels, not control specifics. Option B is the correct answer, providing the clearest division per CAP.

Reference Extract:

\* CMMC Assessment Process (CAP) v1.0, Section 4.3: "The SRM clarifies CSP and OSC responsibilities for cloud services." Resources: <https://cyberab.org/Portals/0/Documents/Process-Documents/CMMC-Assessment-Process-CAP-v1.0.pdf>

### NEW QUESTION # 40

.....

Our company provides three different versions to choice for our customers. The software version of our CMMC-CCA exam question has a special function that this version can simulate test-taking conditions for customers. If you feel very nervous about exam, we think it is very necessary for you to use the software version of our CMMC-CCA Guide Torrent. By simulating actual test-taking conditions, we believe that you will relieve your nervousness before examination. So hurry to buy our CMMC-CCA test questions, it will be very helpful for you to pass your CMMC-CCA exam and get your certification.
