CCDAK Reliable Torrent, CCDAK Test Preparation

If you are ready for the CCDAK exam for a long time, but lack of a set of suitable CCDAK learning materials, I will tell you that you are so lucky to enter this page. We are such CCDAK exam questions that you can use our products to prepare the exam and obtain your dreamed CCDAK certificates. We all know that if you desire a better job post, you have to be equipped with appropriate professional quality and an attitude of keeping forging ahead. And we can give what you need!

Confluent Certified Developer for Apache Kafka Certification Examination Sample Questions (Q234-Q239):

NEW QUESTION # 234

A producer application was sending messages to a partition with a replication factor of 2 by connecting to Broker 1 that was hosting partition leader. If the Broker 1 goes down, what will happen?

- A. The producer will stop working
- **B. The producer will automatically produce to the broker that has been elected leader**
- C. The topic will be unavailable

Answer: B

Explanation:

Once the client connects to any broker, it is connected to the entire cluster and in case of leadership changes, the clients automatically do a Metadata Request to an available broker to find out who is the new leader for the topic. Hence the producer will automatically keep on producing to the correct Kafka Broker

NEW QUESTION # 235

Suppose you have 6 brokers and you decide to create a topic with 10 partitions and a replication factor of 3. The brokers 0 and 1 are on rack A, the brokers 2 and 3 are on rack B, and the brokers 4 and 5 are on rack C.

If the leader for partition 0 is on broker 4, and the first replica is on broker 2, which broker can host the last replica? (select two)

- A. 0
- B. 1
- C. 2
- D. 3
- E. 4
- F. 5

Answer: C,E

Explanation:

When you create a new topic, partitions replicas are spread across racks to maintain availability. Hence, the Rack A, which currently does not hold the topic partition, will be selected for the last replica

NEW QUESTION # 236

An ecommerce website sells some custom made goods. What's the natural way of modeling this data in Kafka streams?

- A. Purchase as table, Product as table, Customer as table
- B. Purchase as stream, Product as stream, Customer as stream
- C. Purchase as stream, Product as table, Customer as table
- D. Purchase as stream, Product as table, Customer as stream

Answer: C

Explanation:

Mostly-static data is modeled as a table whereas business transactions should be modeled as a stream.

NEW QUESTION # 237

You need to correctly join data from two Kafka topics.

What will allow for the co-partitioning? (Choose 2.)

- A. Both topics have the same value schema.
- B. Both topics have the same number of partitions.
- C. Both topics have the same key and partitioning strategy.
- D. Both topics have the same retention time.

Answer: B,C

NEW QUESTION # 238

Which configuration determines how many bytes of data are collected before sending messages to the Kafka broker?

- A. batch.size
- B. buffer.memory
- C. send.buffer.bytes
- D. max.block.size

Answer: A

Explanation:

The batch.size config sets the maximum number of bytes to batch per partition before sending. This allows Kafka producers to amortize I/O and improve throughput.

From Kafka Producer Configuration Docs:

"batch.size is the maximum amount of data per partition the producer will batch before sending."

* buffer.memory sets total memory for the producer, not per-batch.

* send.buffer.bytes is a TCP socket buffer, not a Kafka config.

* max.block.ms controls blocking time, not size.

Reference: Kafka Producer Configs > batch.size

NEW QUESTION # 239

.....

There are a lot of experts and professors in our company. All CCDAK study torrent of our company are designed by these excellent experts and professors in different area. We can make sure that our CCDAK test torrent has a higher quality than other study materials. The aim of our design is to improve your learning and helping you gain your certification in the shortest time. If you long to gain the certification, our Confluent Certified Developer for Apache Kafka Certification Examination guide torrent will be your best choice. Many experts and professors consist of our design team, you do not need to be worried about the high quality of our CCDAK Test Torrent. If you decide to buy our study materials, you will have the opportunity to enjoy the best service.

CCDAK Reliable Torrent: <https://www.dumpstorrent.com/CCDAK-exam-dumps-torrent.html>

If you want to pass the exam smoothly buying our CCDAK useful test guide is your ideal choice, Our valid Confluent CCDAK training torrent can be instantly downloaded and easy to understand with our 100% correct exam answers, No one is concerned about how to pass exam and if CCDAK real test are difficult, Are you preparing for the CCDAK learning materials recently?

As a developer, he hopes to provide users with meaningful experiences of data, Hand-coloring in Color mode, If you want to pass the exam smoothly buying our CCDAK useful test guide is your ideal choice.

Providing You Fantastic Original CCDAK Questions with 100% Passing Guarantee

Our valid Confluent CCDAK training torrent can be instantly downloaded and easy to understand with our 100% correct exam answers, No one is concerned about how to pass exam and if CCDAK real test are difficult.

Are you preparing for the CCDAK learning materials recently, With the dumps, you can quickly review the topics and revise them before taking the actual exam
