Then you will finish all your tasks excellently. You will become the lucky guys if there has a chance.

Dynatrace Associate Certification Exam Sample Questions (Q52-Q57):

NEW QUESTION # 52

How often are Classic Dashboard reports sent out? (Select all that apply)

- A. Weekly
- B. Daily
- C. Bi-weekly
- D. Monthly

Answer: A,D

Explanation:

Classic dashboard reports can be scheduled:

* Weekly

* Monthly

Daily and bi-weekly options are not supported in classic reporting.

Reference: Based on official Dynatrace University training materials on reporting.

NEW QUESTION # 53

I need fine-grained control of the Business Events data ingested. Adding which attribute allows me to achieve this?

- A. dt.traceid
- B. dt.entity.process_group_instance
- C. dt.spanid
- **D. dt.security.context**

Answer: D

Explanation:

The dt.security.context attribute enables fine-grained access control over ingested data, including Business Events.

It allows:

- * Segmentation of data
- * Restricting access to specific users or groups
- * Applying security boundaries to sensitive datasets

Other attributes are related to tracing:

- * dt.traceid and dt.spanid are for distributed tracing
- * dt.entity.process_group_instance links data to entities

Only dt.security.context provides control over data access and segmentation.

Reference: Based on official Dynatrace University training materials covering Grail and data security.

NEW QUESTION # 54

What kind of problems can appear in Dynatrace? (Select all that apply)

- A. Critical
- **B. Slowdown**
- **C. Availability**
- **D. Errors**
- **E. Resource**

Answer: B,C,D,E

Explanation:

Dynatrace categorizes problems based on the type of issue detected:

- * Availability - when a service or application becomes unavailable
 - * Errors - when there is an increase in failure rate
 - * Slowdown - when response times degrade
 - * Resource - when infrastructure resources (CPU, memory, disk) are saturated
- Critical is not a problem type; it is a severity level used to indicate importance, not classification.

Reference: Based on official Dynatrace University training materials covering problem detection categories.

NEW QUESTION # 55

Which of the following best describes the functionality of the Security Investigator app?

- A. Investigate user sessions for instances of malicious actors and different cyber-attack vectors
- **B. Run multiple DQL queries to connect multiple types of data for the primary purpose of investigating security issues**
- C. Conduct memory profiling tests to investigate the integrity of short-term data in the case of an attack
- D. Checks for secure passwords in the credential vault

Answer: B

Explanation:

The Security Investigator app in Dynatrace is designed for advanced security analysis and threat investigation using Dynatrace Query Language (DQL).

It enables users to:

Run and chain multiple queries across logs, metrics, traces, and events
Correlate different data types stored in Grail
Perform deep investigations into potential security incidents
This query-driven approach allows analysts to explore data relationships and uncover threats efficiently.

Other options describe capabilities not related to this app:

Credential vault checks are unrelated

Session investigation is part of RUM and Session Replay

Memory profiling is not a feature of Security Investigator

Reference: Based on official Dynatrace University training materials on Security Investigator and Grail.

NEW QUESTION # 56

Which Synthetic capability will allow my organization to monitor its internal-only websites?

- **A. Private Synthetics**
- B. Public Synthetics
- C. Synthetic On-demand execution
- D. Dynatrace Synthetic Recorder extension

Answer: A

Explanation:

Private Synthetics are used to monitor internal applications that are not publicly accessible.

They run from:

* Private locations within your network

* Behind firewalls

This allows monitoring of internal-only systems securely.

Reference: Based on official Dynatrace University training materials on Synthetic Monitoring.

NEW QUESTION # 57

.....
