## New HPE0-V25 Real Exam & HPE0-V25 Valid Exam Labs

Your dream is very high, so you have to find a lot of material to help you prepare for the exam. ITCertMagic HP HPE0-V25 Exam Materials can help you to achieve your ideal. ITCertMagic HP HPE0-V25 exam materials is a collection of experience and innovation from highly certified IT professionals in the field. Our products will let you try all the problems that may arise in a really examinations. We can give you a guarantee, to ensure that candidates get a 100% correct answer.

## HPE Hybrid Cloud Solutions Sample Questions (Q113-Q118):

### NEW QUESTION # 113

When designing new server environments, you need to determine the maximum equipment wattage and thermal requirements at the unit (chassis) and rack level.

Which HPE tool should be used?

- A. HPE Power Advisor
- B. HPE Smart Storage Administrator
- C. HPE Infosight
- D. HPEOneView

**Answer: A**

Explanation:

Explanation

This is a tool that helps you estimate power consumption and thermal output for HPE servers, storage, and networking products. You can use it to design new server environments or validate existing ones by selecting the products and configurations you want and generating a detailed report that shows the power and cooling requirements at the unit and rack level.

#### NEW QUESTION # 114

Your customer has multiple, remote sales offices with one HPE ProLiant server deployed per Site to run local IT services. They want to centralize the monitoring and lifecycle management of these servers using a cloud-based offering.

Which tool would demonstrate this functionality?

- A. HPE CloudPhysics
- B. HPE InSight
- **C. HPE GreenLake Compute Ops Management**
- D. HPE GreenLake Data Services Cloud Console

**Answer: C**

Explanation:

HPE GreenLake Compute Ops Management is a cloud-based tool that can centralize the monitoring and lifecycle management of HPE ProLiant servers deployed in multiple, remote sites. It provides a cloud-native management console that securely automates the process to access, monitor, and manage servers, no matter where the compute environment lives<sup>1</sup>. It also simplifies and streamlines server operations, saves time and money with agile server lifecycle management, and takes a zero-trust approach to secure compute operations<sup>2</sup>. HPE GreenLake Compute Ops Management is included with HPE ProLiant Gen11 servers, which are designed to deliver the compute era with a cloud operating experience<sup>2</sup>. References: 2: HPE GreenLake Compute Ops Management | HPE - Hewlett Packard Enterprise

#### NEW QUESTION # 115

You are explaining hardware health monitoring features of an HPE ProLiant DL380 Gen10 Plus server. You need to know how historical events can be viewed, including fan and power supply failures.

Where can this information be found?

- A. HPE Data Ops Manager
- **B. Integrated Management Log**
- C. iLO Event
- D. Data Services Cloud Console

**Answer: B**

Explanation:

Integrated Management Log (IML) is a feature that records hardware events such as fan and power supply failures on HPE ProLiant servers. The IML can be viewed through various methods, such as the iLO web interface, the iLO RESTful API, or the Smart Storage Administrator (SSA).

The IML provides historical information about the server's hardware health and helps with troubleshooting and analysis.

#### NEW QUESTION # 116

What benefit does an as-a-service deployment model provide? (Select two.) Higher throughput between hosts and storage

- **A. Cost-savings related to over-provisioning**
- B. Faster performing disk storage
- **C. Larger memory capacities**
- D. Reduce the risk of under-provisioning

**Answer: A,C**

Explanation:

Reduce the risk of under-provisioning:

As-a-service models allow for scalable resource allocation, meaning you can adjust your resources as demand changes. This

flexibility helps ensure that you have sufficient resources to meet your needs without the risk of under-provisioning.

Cost-savings related to over-provisioning:

With an as-a-service model, you only pay for the resources you actually use. This reduces the need to over-provision and pay for unused capacity, leading to significant cost savings and better financial efficiency.

Benefits of As-a-Service Models

### NEW QUESTION # 117

You need to describe the benefits of HPE GreenLake to your customer.

What details should you provide?

- A. HPE GreenLake enables the customer to be managed by HPE, HPE Partners, and other 3rd party vendors through its open management policy.
- B. **HPE GreenLake can increase financial flexibility, free up capital, and provide better cost control through its Pay-per-Use policy.**
- C. HPE GreenLake allows customers to manage their accounts point-and-click automated provisioning from a mobile application.
- D. HPE GreenLake provides infinite scale to the customer at no additional cost with its scale up policy.

**Answer: B**

Explanation:

Pay-per-Use policy: HPE GreenLake offers a consumption-based IT model that provides significant financial benefits. It increases financial flexibility by aligning costs with actual usage, frees up capital that can be invested elsewhere, and offers better cost control by reducing upfront expenses and providing predictable monthly payments based on consumption.
