PECB Certified ISO 45001 Lead Auditor Exam Sample Questions (Q28-Q33):

NEW QUESTION # 28
ISO 45001 requires the organisation to maintain and retain documented OH&SMS information.
Check each statement and determine which two are true:

- A. A documented plan for achieving occupational health and safety objectives should be maintained.
- B. Industry-specific standards provided by the client should be maintained.

- C. The results of emergency drills should be kept.
- D. Documented information to be retained includes material safety data sheets.
- E. The occupational health and safety policy is an example of a document to be kept.
- F. The terms "maintain" and "retain" can be used interchangeably."

Answer: A,E

NEW QUESTION # 29

An audit team leader arrives at a fabrication organisation that manufactures stairways to ..certification audit. At a meeting with the OHSMS Manager the audit finds that the responsibility for worker consultation and participation lies with the managerial team. Select from the options four actions by the managerial team that encourage worker consultation and participation.

- A. Ignoring worker's suggestions
- B. Promoting collaborating workers to higher positions
- C. Implementing a payment scheme to reward worker's OHS performance
- D. Conducting toolbox talks on health and safety
- E. Giving ownership of health and safety matters
- F. threatening reprisals to whistleblowers
- G. Implementing methods tor engaging workers
- H. Appointing worker's representatives

Answer: D,E,G,H

Explanation:
Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Clause 5.4 of ISO 45001:2018 emphasizes the importance of worker consultation and participation in the OHS management system. It requires organizations to establish processes that ensure workers are actively involved in decision-making and implementation of OHS practices.
Analysis of Options:
A . Promoting collaborating workers to higher positions:
While promotions may boost morale, they do not directly contribute to worker consultation and participation in the OHSMS.
B . Appointing worker representatives:
This action fosters direct communication and representation of workers' interests in health and safety matters.
C . Conducting toolbox talks on health and safety:
Toolbox talks are an effective way to engage workers in discussing and addressing health and safety issues.
D . Giving ownership of health and safety matters:
Involving workers in decision-making and giving them responsibility for specific health and safety tasks encourages participation.
E . Ignoring workers' suggestions:
This undermines consultation and is contrary to ISO 45001 principles.
F . Implementing a payment scheme to reward workers' OHS performance:
While incentives can motivate safe behavior, they are not a consultation or participation mechanism as required by Clause 5.4.
G . Implementing methods for engaging workers:
This aligns directly with Clause 5.4, as effective engagement methods (e.g., surveys, focus groups) enhance participation.
H . Threatening reprisals to whistleblowers:
This violates ISO 45001 principles and discourages worker participation.
ISO Reference:
Clause 5.4: Worker consultation and participation.
Clause 5.1: Leadership's responsibility to foster participation.

NEW QUESTION # 30

During an internal audit of an OHSMS, what evidence would the auditor look for to demonstrate conformity to ISO 45001? Match each item with the correct ISO 45001 clause number.

Evidence	ISO 45001 clause number
Documented information on the organisation's legal requirements	
Assessment of OH&S risks	
Internal and external issue determination	
Agreements with the organisation's external providers	

To complete the table click on the blank section you want to complete so that it is highlighted in red, and then click on the applicable text from the options below. Alternatively, drag and drop each option to the appropriate blank section.

| Clause 6.1.3 | Clause 8.1.4.2 | Clause 6.1.2.2 | Clause 4.1 |

Answer:

Explanation:

Evidence	ISO 45001 clause number
Documented information on the organisation's legal requirements	Clause 6.1.3
Assessment of OH&S risks	Clause 6.1.2.2
Internal and external issue determination	Clause 4.1
Agreements with the organisation's external providers	Clause 8.1.4.2

To complete the table click on the blank section you want to complete so that it is highlighted in red, and then click on the applicable text from the options below. Alternatively, drag and drop each option to the appropriate blank section.

| Clause 6.1.3 | Clause 8.1.4.2 | Clause 6.1.2.2 | Clause 4.1 |

Explanation:
A screenshot of a computer Description automatically generated

Evidence	ISO 45001 Clause Number
Documented information on the organization's legal requirements	Clause 6.1.3
Assessment of OH&S risks	Clause 6.1.2.2
Internal and external issue determination	Clause 4.1
Agreements with the organization's external providers	Clause 8.1.4.2

Explanation:
* Documented information on the organization's legal requirements # Clause 6.1.3:Clause 6.1.3 requires the organization to identify, document, and maintain compliance obligations, including legal and other requirements relevant to OH&S.
* Assessment of OH&S risks # Clause 6.1.2.2:Clause 6.1.2.2 mandates the organization to assess OH&S risks associated with its operations, taking into account hazards, controls, and work activities.
* Internal and external issue determination # Clause 4.1:Clause 4.1 requires organizations to determine internal and external issues that affect the OH&S management system and its intended outcomes.
* Agreements with the organization's external providers # Clause 8.1.4.2:Clause 8.1.4.2 pertains to controlling external providers and ensuring their processes align with OH&S requirements, including documented agreements.
References
* Clause 4.1: Understanding the organization and its context.
* Clause 6.1.2.2: Assessment of risks and opportunities related to OH&S.
* Clause 6.1.3: Compliance obligations.
* Clause 8.1.4.2: Control of external providers.

NEW QUESTION # 31

Which two of the following are examples of audit objectives for the audit team?

- A. To complete the audit on time.
- B. To reduce instances of injury and ill health.
- C. To improve overall health and safety performance.
- D. To minimise risk resulting from the audit process.
- E. To implement any necessary corrective action.

Answer: A,D

Explanation:

Audit objectives for the audit team focus on ensuring the audit process is executed effectively, efficiently, and without causing undue disruption to the organization being audited. ISO 19011:2018 provides guidance on setting audit objectives.

Analysis of Options:

* A. To reduce instances of injury and ill health:Incorrect. This is an objective of the OH&S management system, not of the audit itself.

* B. To minimise risk resulting from the audit process:Correct. ISO 19011 emphasizes managing risks to the auditee and the audit process during audits (Clause 5.4).

* C. To improve overall health and safety performance:Incorrect. Improving health and safety performance is an outcome of the OH&S management system, not the audit team's objective.

* D. To complete the audit on time:Correct. Ensuring timely completion of the audit aligns with effective audit management.

* E. To implement any necessary corrective action:Incorrect. Implementing corrective actions is the auditee's responsibility, not the audit team's.

References:

ISO 45001:2018:

Clause 5.4: Worker consultation and participation.

Clause 6.2: OH&S objectives and planning.

Clause 8.1.2: Hierarchy of controls and worker involvement.

ISO 19011:2018: Guidelines for auditing management systems.

NEW QUESTION # 32

Aitchandness inc, manufactures safety footwear and other items of personal protective equipment (PPE). The organisation applied for ISO 45001 certification, and after the initial certificate audit, the certificate body decided that the audit team leader should carry out a follow-up audit to determine whether the non- conformities could be closed out.

A major non-conformity was raised at Stage 2 because of inadequate storage and handling of chemical used in the production process. Minor non-conformities related to retaining documentation, staff safety training and inadequate testing of emergency procedures.

Select four of the actions which the auditor could take at the follow-up audit to determine the effectiveness of corrective action for the non-conformities.

- A. Inspect the relevant areas to check whether chemical were being stored and handled in a safe manner.
- B. Check that the safety data sheets associated with the chemical being used where checked for completeness.
- C. Interview the OH&S Manager to determine whether additional health and safety objectives have been established.
- D. Interview staff to see whether they have received training in the revised emergency response procedures.
- E. Check whether documented procedures for the revised processes have been signed off by the OH&S Manager.
- F. Determine whether an updated risk assessment has been carried out on the revised chemical storage and handling processes.
- G. Ask whether the organization's internal audit schedule was revised to included more audit associated with the storage and handling of chemicals.
- H. Ask to review the latest emergency response drill report to check whether the revised emergency response process is fit for purpose

Answer: A,E,F,H

Explanation:

Follow-up audits verify that corrective actions have been implemented effectively and address the root cause of the nonconformities.

Analysis of Options:

* A. Review the latest emergency response drill report:Correct. This verifies whether emergency response processes are functional

and effective.

* B. Check if the internal audit schedule was revised:Incorrect. While beneficial, this is not directly related to closing out the nonconformity.
* C. Check safety data sheets for completeness:Incorrect. While this ensures compliance, it is not directly related to verifying corrective actions.
* D. Check if revised procedures were signed off:Correct. This confirms that changes were properly documented and approved.
* E. Determine whether an updated risk assessment was carried out:Correct. Risk assessments confirm the effectiveness of new controls.
* F. Inspect areas for safe chemical storage and handling:Correct. Direct observation ensures that corrective actions are implemented effectively.
* G. Interview staff on revised emergency procedures:Incorrect. While important, this does not directly address the effectiveness of corrective actions for chemical storage.
* H. Interview the OH&S Manager about additional objectives:Incorrect. This is unrelated to the specific nonconformities raised.
ISO References:
* Clause 10.2.2: Verification of corrective actions.
* Clause 8.1.2: Hazard identification and controls.
