**Valid NCCER Fundamentals-of-Crew-Leadership Test Registration &
Fundamentals-of-Crew-Leadership Valid Exam Cram**

Why don't you begin to act? The first step is to pass Fundamentals-of-Crew-Leadership exam. Time will wait for no one. Only if you pass the exam can you get a better promotion. And if you want to pass it more efficiently, we must be the best partner for you. Because we are professional Fundamentals-of-Crew-Leadership Questions torrent provider, we are worth trusting; because we make great efforts, we do better. Here are some reasons to choose us.

NCCER Module 46101 Fundamentals of Crew Leadership Sample Questions (Q22-Q27):

NEW QUESTION # 22

What type of written or visual communication is NOT appropriate on the work site?

- A. a hand-drawn map for presenting directions
- B. legible handwriting
- C. a clear, simple sketch
- **D. acronyms and textspeak in a written message**

Answer: D

Explanation:

Effective communication on a work site needs to be clear and unambiguous for all workers. Therefore, acronyms and textspeak in a written message (D) are generally not appropriate as they can be easily misunderstood or not understood by all individuals, potentially leading to errors or safety issues. Legible handwriting (A), clear sketches (B), and simple hand-drawn maps (C) can be effective communication tools.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 6.1.3 Choosing Appropriate Communication Methods)

NEW QUESTION # 23

In a firm-fixed-price contract, the contractor's profit is

- A. negotiated separately from labor and material costs.
- B. tied to project schedule performance.
- **C. incorporated into the bid.**
- D. subject to penalties and incentives

Answer: C

Explanation:

In a firm-fixed-price contract, the contractor agrees to complete the project for a set price. The contractor's profit is incorporated into the bid (A) by estimating costs (labor, materials, overhead) and adding a desired profit margin. Penalties and incentives (B) are more common in other contract types. Profit is not directly tied to the schedule in this contract type (C), and it is not negotiated separately (D). (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 4.1.3 Understanding Contract Types)

NEW QUESTION # 24

When delegating, the crew leader should make sure the crew member understands what to do and

- A. the degree of risk involved.
- B. has read the OSHA regulations.
- **C. their level of responsibility.**
- D. who should be blamed if there is a problem.

Answer: C

Explanation:

Effective delegation involves clearly communicating the task and ensuring the crew member understands not only what to do but also their level of responsibility (A) for completing the task. While understanding risks (B) and following safety regulations (C) are important, and accountability is necessary, the immediate need in delegation is to define the scope of their responsibility. Focusing on blame (D) is counterproductive to effective teamwork. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 5.3.2 Principles of Effective Delegation)

NEW QUESTION # 25

Which of the following statements is NOT correct regarding work site first aid?

- A. Prompt onsite treatment of injuries may prevent them from becoming more serious.
- B. Work site responders can prepare the injured while waiting for professional aid.
- C. Onsite treatment may be able to determine the need to call for professional aid.
- **D. Company first-aid responders must be CPR-certified.**

Answer: D

Explanation:

While CPR certification is highly recommended and often a requirement for designated first-aid responders, the statement that company first-aid responders must be CPR-certified is not universally correct as a fundamental requirement in all circumstances. The level of first-aid training required can vary based on regulations and the specific risks of the job site. Work site responders are indeed expected to prepare the injured for further assistance (B), assess the situation to determine the need for professional aid (C), and provide initial treatment to prevent injuries from worsening (D). (OSHA 29 CFR 1926.50, Medical Services and First Aid; Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.1.3 First Aid Requirements)

NEW QUESTION # 26

Site changes in the original design that are made during construction are documented in the

- A. takeoff sheet.
- **B. as-built drawings.**
- C. project schedule
- D. job specifications.

Answer: B

Explanation:

Changes made to the original design during the construction process are formally documented in the as-built drawings (C), also known as record drawings. These drawings reflect the actual dimensions, layout, and specifications of the completed project. The takeoff sheet (A) is used for quantity estimation, the project schedule (B) outlines timelines, and job specifications (D) detail the required materials and workmanship.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 4.3.4 Project Documentation)

NEW QUESTION # 27

.....

You hardly have to worry about whether or not you can pass the exam with our Fundamentals-of-Crew-Leadership exam braindumps.
