BICSI Registered Communications Distribution Designer - RCDD v15 Sample Questions (Q163-Q168):

NEW QUESTION # 163

A utility company manages its capital improvement projects (CIP) using engineers, project managers, and program managers. A new sponsor from the utility company assesses the CIP and decides to reorganize it into a program. They invite seven companies to discuss their approach to monitor and control the program and its constituent projects.

Where should the program manager incorporate this input?

- A. Program risk management plan
- **B. Program management plan**
- C. Vendor management matrix
- D. Stakeholder register

Answer: B

NEW QUESTION # 164

The program manager wants to ensure that a program contributes to shareholder value. The program manager should verify alignment with which of the following?

- A. Organizational structures and policies
- B. Program charter
- **C. Organizational strategic objectives**
- D. Program governance plan

Answer: C

NEW QUESTION # 165

A program manager initiates a new global program to create a higher level of protection for a company's intellectual property. The company exhibits a relaxed culture and environment and is intolerant of processes to the point of being considered process-adverse. However, the company's culture is tolerant of long-term program activities, and provided there is continuous progress on improving the protection of its intellectual property. Expectations for rapid progress are low. What should the program manager do next?

- A. Provide detailed information to the most influential program sponsors and stakeholders
- **B. Tailor program sponsor and stakeholder engagement and communications activities to meet the company's expectations.**
- C. Insist on maintaining a set of tightly controlled stakeholder register and engagement plan documents to meet expectations
- D. Ensure that the component stakeholders have the appropriate level of communications required to meet their needs

Answer: B

NEW QUESTION # 166

A program manager learns that their company's organizational strategy has changed. This change impacts one component project of a program, misaligning it with both the program objectives and the new organizational strategy. This component project, however, is already 90 percent complete.

What should the program manager do next?

- A. Immediately submit a component project closure request to the program sponsor so that resources can be reallocated to strategically aligned component projects.
- B. Recommend that the component project manager complete work activity to deliver benefits to the organization
- C. Update the benefits management plan to reflect the impact of the change on the program and its intended benefits
- **D. Assess the impact of closure on other component projects, and generate a recommendation for submission to the program governance board**

Answer: D

NEW QUESTION # 167

An organization must accelerate a product to market. The program manager completes the preliminary program slaps and holds a kick-off meeting. Project managers submit their preliminary schedules for review. What should the program manager do next?

- A. Assign resources to the schedule and report the revised delivery date to the project managers
- **B. Work with the project managers to refine the project schedules and deliverables to align with the program milestones**
- C. Revise the project schedules to meet the program schedule and communicate to stakeholders
- D. Integrate the project schedules into the program schedule and report the revised delivery date to the project managers

Answer: B

NEW QUESTION # 168

.....
