Cisco 300-720 Reliable Exam Simulations: Securing Email with Cisco Email Security Appliance - BraindumpStudy Provides you a Simple & Safe Shopping Experience

As we all know, certificates are an essential part of one's resume, which can make your resume more prominent than others, making it easier for you to get the job you want. For example, the social acceptance of 300-720 certification now is higher and higher. If you also want to get this certificate to increase your job opportunities, please take a few minutes to see our 300-720 Study Materials. Carefully written and constantly updated content can make you keep up with the changing direction of the exam, without aimlessly learning and wasting energy.

Cisco Securing Email with Cisco Email Security Appliance Sample Questions (Q231-Q236):

NEW QUESTION # 231

Order	Policy Name	Anti-Spam	Anti-Virus	Advanced Malware Protection	Graymail	Content Filters	Outbreak Filters	Advanced Phishing Protection	Delete
1	Default Policy	Import Anti-Spam Positive: Deliver Suspected: Deliver	Snatch Encrypted: Deliver Unscannable: Deliver Virus Positive: Drop	File Reputation Malware File: Drop Pending Analysis: Quarantine Unscannable - Message Error: Deliver Unscannable - Rate Limit: Deliver Unscannable - AMP Service Not ...	Not Available	Disabled	Retention Time: Virus: 1 day	Not Available	

Refer to the exhibit. How does the Cisco Secure Email Gateway handle an email with an unknown Microsoft Word document?

- A. The email is dropped.
- B. The email is delivered without file analysis.
- C. The email is quarantined.
- D. The file is sent to the cloud for file analysis.

Answer: D

NEW QUESTION # 232

Which two action types are performed by Cisco ESA message filters? (Choose two.)

- A. filter actions

- B. quarantine actions
- **C. final actions**
- **D. non-final actions**
- E. discard actions

Answer: C,D

Explanation:

Non-final actions are actions that do not terminate the message filter evaluation, such as adding headers, setting variables, logging, etc. Final actions are actions that end the message filter evaluation and determine the fate of the message, such as accept, drop, bounce, quarantine, etc.

NEW QUESTION # 233

Which global setting is configured under Cisco ESA Scan Behavior?

- **A. actions for unscannable messages due to attachment type**
- B. attachment scanning timeout
- C. minimum attachment size to scan
- D. minimum depth of attachment recursion to scan

Answer: A

Explanation:

The global setting that is configured under Cisco ESA Scan Behavior is the actions for unscannable messages due to attachment type. This setting allows the administrator to specify what action to take when a message contains an attachment that cannot be scanned by the appliance, such as encrypted or password-protected files. The possible actions are:

Deliver - Deliver the message normally.

Drop - Drop the message silently without notifying the sender or recipient.

Quarantine - Quarantine the message in a specified policy quarantine.

Bounce - Bounce the message back to the sender with a specified reason.

Reference:

Scan Behavior

NEW QUESTION # 234

A Cisco ESA administrator was notified that a user was not receiving emails from a specific domain. After reviewing the mail logs, the sender had a negative sender-based reputation score.

What should the administrator do to allow inbound email from that specific domain?

- A. Ask the user to add the sender to the email application's allow list.
- B. Modify the firewall to allow emails from the domain.
- **C. Add the domain into the allow list.**
- D. Create a new inbound mail policy with a message filter that overrides Talos.

Answer: C

NEW QUESTION # 235

Which two factors must be considered when message filter processing is configured? (Choose two.)

- **A. MIME structure of the message**
- B. structure of the combined packet
- C. mail policies
- **D. message-filter order**
- E. lateral processing

Answer: A,D

Explanation:

Message-filter order and MIME structure of the message are two factors that must be considered when message filter processing is configured on Cisco ESA. Message-filter order determines the sequence in which message filters are evaluated and applied to incoming messages, which can affect the final outcome of the filtering process. MIME structure of the message determines how message filters match against different parts of the message, such as headers, body, attachments, etc., which can affect the accuracy and performance of the filtering process.

NEW QUESTION # 236

.....

One of the advantages of the 300-720 training test is that we are able to provide users with free pre-sale experience, the 300-720 study materials pages provide sample questions module, is mainly to let customers know our part of the subject, before buying it, users further use our 300-720 Exam Prep. At the same time, it is more convenient that the sample users we provide can be downloaded PDF demo for free, so the pre-sale experience is unique. So that you will know how efficiency our 300-720 learning materials are and determine to choose without any doubt.
