New APP Salesforce AP-201 Simulations | New AP-201 Test Sample

No doubt the B2B Commerce for Administrators Accredited Professional (AP-201) certification is one of the most challenging certification exams in the market. This Salesforce AP-201 certification exam gives always a tough time to B2B Commerce for Administrators Accredited Professional (AP-201) exam candidates. The TestKingFree understands this hurdle and offers recommended and real Salesforce AP-201 exam practice questions in three different formats.

Salesforce B2B Commerce for Administrators Accredited Professional Sample Questions (Q44-Q49):

NEW QUESTION # 44

An Administrator received an export file from an external system, which contains products and categories. The categories are delimited using a single pipe character.

In which two ways can the Administrator set this up for import using the CSV import tool?

- A. Replace the pipes with a forward slash.
- B. Split the categories into separate columns with appropriate labels.
- C. Add a dash to the category column.
- D. Insert a greater than sign.

Answer: A,B

Explanation:

When setting up categories for import using the CSV import tool with categories delimited by a single pipe character, the Administrator can C. Split the categories into separate columns with appropriate labels or D. Replace the pipes with a forward slash. Both methods organize the category data in a format that the import tool can recognize and process effectively.

NEW QUESTION # 45

An Administrator is building a storefront to sell office furniture to other businesses. How should the Administrator segment the different types of furniture to enable better navigation within the store?

- A. Create Product Categories.
- B. Create Product Tags.
- C. Create Product Keywords.
- D. Create Product Filters.

Answer: A

Explanation:

For better navigation within a storefront selling office furniture, the Administrator should Create Product Categories (D). Product Categories allow for the logical grouping of products, such as desks, chairs, and filing cabinets, facilitating easier browsing and discovery for customers. Categories offer a hierarchical structure that can be used to segment products by type, function, or any other relevant classification, enhancing the user experience. Tags (A), Keywords (B), and Filters (C) can also aid in navigation, but Categories provide a fundamental organizational framework that is essential for store structure and navigation.

NEW QUESTION # 46

An Administrator is analyzing requirements around a customer's category hierarchy for a multi-language site. They have a set of 110 categories which contain many child categories.

Which consideration should the Administrator keep in mind prior to implementation?

- A. There is a limit of 50 categories total across all languages
- B. There is a depth limit for the number of child categories
- C. Only 50 categories can be localized per language
- D. There is a limit of 100 categories total across all languages

Answer: B

Explanation:

When implementing a category hierarchy for a multi-language site with many child categories, an important consideration is C. There is a depth limit for the number of child categories. Salesforce B2B Commerce imposes limits on the depth of the category hierarchy, affecting how deeply nested child categories can be structured within the overall category architecture.

NEW QUESTION # 47

Which two records can an Administrator bulk update in the Commerce App?

- A. Catalogs
- B. Stores
- C. Pricing
- D. Products

Answer: A,D

Explanation:

In the Commerce App, an Administrator can bulk update B. Products and C. Catalogs. Bulk updating allows for efficient management and modification of multiple records at once, streamlining the process of maintaining product listings and catalog structures.

NEW QUESTION # 48

In which three instances should an Administrator perform a search index?

- A. After making a delta load for the Product Catalog
- B. After adding a new category with a product under it which is ready to be sold
- C. After updating the description of 10 products
- D. After making changes to the Product Detail Page layout in Lightning Experience Builder
- E. After making changes to tax calculation settings for Checkout

Answer: A,B,C

Explanation:

An Administrator should perform a search index in instances such as B. After updating the description of 10 products, to ensure the updated content is searchable, C. After adding a new category with a product under it which is ready to be sold, to make the new category and its products discoverable, and D. After making a delta load for the Product Catalog, to index the newly added or updated product information.
