PMO-CP新版題庫上線 - PMO-CP證照信息

當我們第一次開始提供PMI的PMO-CP考試的問題及答案和考試模擬器，我們做夢也沒有想到，我們將做出的聲譽，我們現在要做的是我們難以置信的擔保形式，PDFExamDumps的擔保，你會把你的PMI的PMO-CP考試用來嘗試我們PMI的PMO-CP培訓產品之一，這是正確的，合格率100%，我們能保證你的結果。

最新的 PMO Certified Practitioner PMO-CP 免費考試真題 (Q50-Q55):

問題 #50

A PMO is in the process of categorizing its functions to identify which ones should be classified as strategic. What is the primary defining characteristic of a strategic PMO function?

- A. Being directly related to organizational strategy or upper management objectives
- B. Being directly connected to the organization's core business processes
- **C. Contributing to the organization's strategic planning and goal setting**
- D. Being executed exclusively by members of upper management

答案：C

解題說明：

Strategic PMO functions are characterized by their direct contribution to organizational strategy, including activities such as portfolio management, aligning initiatives with long-term goals, and advising on resource prioritization. These functions emphasize planning and

alignment at the highest organizational levels.

問題 #51

During a strategic planning session, the PMO leadership team is evaluating the criteria that define the maturity of their PMO. They discuss whether maturity should be based on the PMO's positioning within the organization, the sophistication of the functions it performs, or the strategic competence of its team members. As they continue their discussion, they seek clarity on the key factor that best defines PMO maturity. What defines PMO maturity?

- A. The level of sophistication with which each PMO function is performed, including how effectively the PMO manages projects, programs, and portfolios
- B. The more strategic the PMO, the more mature it will be, assuming that strategic focus alone determines overall maturity
- C. The level of strategic competence within the PMO team, focusing on their ability to make high-level, value-driven decisions aligned with business goals
- D. The hierarchical positioning of the PMO within the organizational structure, as it reflects the influence and authority the PMO holds

答案： A

解題說明：

PMO maturity is defined by the sophistication of its functions and how effectively it manages projects, programs, and portfolios. Maturity involves refining processes, increasing efficiency, and improving value delivery, rather than solely focusing on strategic positioning or team competencies.

PMI's Organizational Project Management Maturity Model (OPM3).

PMO Maturity Assessment Guidelines.

問題 #52

What are the most common PMO stakeholders?

- A. Upper management, project managers, and external suppliers.
- B. Upper management, project managers, functional managers, and project team members.
- C. Upper management, project managers, functional managers, and all other employees of the organization.
- D. Upper management, functional managers, and external clients of the organization

答案： B

解題說明：

The most common stakeholders of a PMO (Project Management Office) include upper management, project managers, functional managers, and project team members. These stakeholders are directly involved in or affected by the PMO's activities and performance.

* Upper management provides strategic direction and ensures that the PMO aligns with organizational goals.

* Project managers are responsible for executing projects and rely on the PMO for governance, methodologies, and support.

* Functional managers oversee specific departments or areas and provide resources for projects.

* Project team members contribute to the project deliverables and rely on the PMO for guidance and structure.

The involvement of these key stakeholders is crucial for ensuring that the PMO operates effectively and meets the organization's expectations.

問題 #53

During a strategic planning session, a PMO team discusses how to balance its mix of functions to maximize its impact on the organization. They consider whether financial results, cost reduction, or perceived value should be the guiding principle. What does it mean for the PMO mix of functions to be balanced?

- A. The selected functions must be capable of generating perceived value for stakeholders over time
- B. The selected functions should aim to reduce costs for the organization in a balanced manner

- C. The selected functions must be capable of generating financial results consistently over time
- **D. The selected functions must focus on generating improvements across various areas consistently over time**

答案： D

解題說明：

A balanced PMO mix ensures consistent improvement across strategic, operational, and tactical areas. This holistic approach supports long-term success by addressing diverse organizational priorities, including value generation, stakeholder satisfaction, and process efficiency.

Reference:

PMI's The Standard for Portfolio Management.

Balancing PMO Functions - Strategies for effective function selection.

問題 #54

During a meeting to improve communication with PMO stakeholders, a PMO team member suggests focusing on the benefits stakeholders want to achieve rather than the specific methods used to deliver functions. What is the benefit of using benefit-oriented language with PMO stakeholders?

- **A. It ensures alignment between PMO functions and stakeholders' actual needs and expectations**
- B. It helps standardize PMO functions consistently across all organizational departments
- C. It enables stakeholders to specify the exact methods and tools they prefer to use
- D. It minimizes the PMO's need to customize or adapt its functions for different stakeholders

答案： A

解題說明：

Using benefit-oriented language ensures that stakeholders' actual needs and expectations drive the PMO's functions. This approach focuses on outcomes rather than processes or tools, fostering alignment with organizational goals and enhancing stakeholder satisfaction.
