

# Exam Juniper JN0-452 Voucher - Online JN0-452 Training

BONUS!!! Download part of PassSureExam JN0-452 dumps for free: <https://drive.google.com/open?id=1Z0TrdzVLNbhQKiZPkVoi2LEWUw4xYSLK>

The interface is made simple and convenient for the users. In the web-based practice exam, you will be given conceptual questions of the actual Juniper JN0-452 exam and gives you the results so that you can improve it at the end of every attempt. This sort of self-evaluation will help you know your exact weak points and you will improve a lot before the actual JN0-452 Exam. It is compatible with every browser. All operating systems also support the web-based practice exam.

The JN0-452 training vce offered by PassSureExam will be the best tool for you to pass your actual test. The JN0-452 questions & answers are especially suitable for the candidates like you for the coming exam test. The contents of Juniper study dumps are edited by our experts who have rich experience, and easy for all of you to understand. So, with the skills and knowledge you get from JN0-452 practice pdf, you can 100% pass and get the certification you want.

Candidates who pass JN0-452 Certification prove their worth in the Juniper field. The Mist AI Wireless, Specialist (JNCIS-MistAI-Wireless) certification is proof of their competence and skill. This skill is highly useful in big Juniper companies that facilitate a candidate's career. To get certified, it is very important that you pass the Mist AI Wireless, Specialist (JNCIS-MistAI-Wireless) certification exam to prove your skills to the tech company. For this task, you require high-quality and accurate prep material to help you out. And many people don't get reliable material and ultimately fail. Failure leads to a loss of time and money.

## Juniper Mist AI Wireless, Specialist (JNCIS-MistAI-Wireless) Sample Questions (Q15-Q20):

### NEW QUESTION # 15

What are two defining characteristics of Wi-Fi as a shared, half-duplex medium? (Choose 2.)

- A. A dedicated frequency is used for uplink traffic and a separate frequency for downlink traffic.
- B. An AP and a client can transmit and receive data simultaneously on the same channel.
- C. Only one device can successfully transmit on a channel at any given moment.
- D. Devices must listen to the medium before transmitting to avoid collisions.

**Answer: C,D**

#### NEW QUESTION # 16

Once a client discovers an access point, what is the correct order of steps for successful 802.1X authentication?

- A. Association -> 802.1X Authentication -> Open System Authentication
- B. Open System Authentication -> 802.1X Authentication -> Association
- C. Association -> Open System Authentication -> 802.1X Authentication
- D. Open System Authentication -> Association -> 802.1X Authentication

**Answer: D**

Explanation:

Once a client discovers an access point, the correct order of steps for successful 802.1X authentication is Open System Authentication -> Association -> 802.1X Authentication. So the correct answer is D. Open System Authentication -> Association -> 802.1X Authentication.

#### NEW QUESTION # 17

Which Juniper Mist LBS feature would be used to create a historical heatmap of visitor traffic patterns throughout a retail store?

- A. vBLE Beacons
- B. Proximity Tracing
- C. Asset Visibility
- D. User Engagement (via Zone Occupancy Analytics)

**Answer: D**

#### NEW QUESTION # 18

Which two statements are correct about channel bonding? (Choose two.)

- A. Bonding two channels together doubles the noise floor.
- B. Bonding two channels together doubles the available bandwidth.
- C. Bonding two channels together doubles the required device resources.
- D. Bonding two channels together doubles the number of available channels.

**Answer: A,B**

Explanation:

Reference: <https://www.makeuseof.com/tag/internet-speed-channel-bonding/>

#### NEW QUESTION # 19

Exhibit:

Referring to the exhibit, which client has the weakest connection to the WLAN?

- A. Client 2
- B. Client 3
- C. Client 1
- D. Client 4

**Answer: C**

Explanation:

In Juniper Networks Mist AI Wireless, the strength and quality of a client's wireless connection are primarily evaluated using RSSI (Received Signal Strength Indicator) and SNR (Signal-to-Noise Ratio).

These two metrics are core inputs into multiple Wireless Assurance SLEs, including Coverage and Throughput, and are reliable indicators when determining which client has the weakest WLAN connection.

From the exhibit, the key metrics for each client are:

- \* Client 1: RSSI -81 dBm, SNR 11 dB
- \* Client 2: RSSI -71 dBm, SNR 21 dB
- \* Client 3: RSSI -67 dBm, SNR 25 dB
- \* Client 4: RSSI -70 dBm, SNR 22 dB

In wireless design, lower (more negative) RSSI values indicate weaker signal strength, and lower SNR values indicate poorer signal quality due to higher relative noise. Among all listed clients, Client 1 clearly has the weakest connection, as it has both:

- \* The lowest RSSI (-81 dBm), indicating it is farthest from the AP or experiencing significant attenuation.
- \* The lowest SNR (11 dB), which suggests the signal is only marginally stronger than the background noise.

Mist best practices typically consider RSSI values below -70 dBm and SNR values below ~20 dB as suboptimal for reliable performance, especially for higher modulation schemes. Client 1 falls well below these thresholds, making it the most likely to experience low data rates, retransmissions, and degraded user experience.

Mist AI would flag this client as having poor coverage and may recommend actions such as:

- \* Improving AP placement or density
- \* Adjusting RF power or channel plans
- \* Enforcing minimum RSSI thresholds

Therefore, based on both RSSI and SNR, Client 1 has the weakest WLAN connection, making Option D the correct answer.

## NEW QUESTION # 20

.....

It is apparent that a majority of people who are preparing for the JN0-452 exam would unavoidably feel nervous as the exam approaching. If you are still worried about the coming exam, since you have clicked into this website, you can just take it easy now, I can assure you that our company will present the antidote for you--our JN0-452 Learning Materials. As the most popular study materials in the market, our JN0-452 practice guide can give you 100% pass guarantee. You will feel grateful if you choose our JN0-452 training questions.
