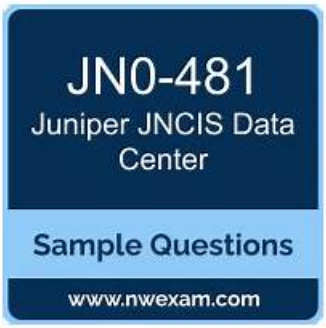
# JN0-481 Reliable Test Bootcamp - Top JN0-481 Exam Dumps



DOWNLOAD the newest Free4Torrent JN0-481 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=16LIHvLcPsK-5iYeYUNAwMR_-iwbWKqtd

We offer a money-back guarantee if you fail despite proper preparation and using our product (conditions are mentioned on our guarantee page). This feature gives you the peace of mind to confidently prepare for your Juniper JN0-481 Certification Exam. Our Juniper JN0-481 exam dumps are available for instant download right after purchase, allowing you to start your Juniper JN0-481 preparation immediately.

You can install and use Free4Torrent Juniper JN0-481 exam dumps formats easily and start Data Center, Specialist (JNCIS-DC) exam preparation right now. The Free4Torrent JN0-481 desktop practice test software and web-based practice test software both are the mock JN0-481 exam that stimulates the actual exam format and content. With the Free4Torrent JN0-481 Exam Questions you will get to understand JN0-481 exam structure, difficulty level, and time constraints. Get any Free4Torrent Data Center, Specialist (JNCIS-DC) exam questions format and start Juniper JN0-481 exam preparation today.

## Top JN0-481 Exam Dumps | Valid JN0-481 Exam Camp

Free4Torrent is obliged to give you 1 year of free update checks to ensure the validity and accuracy of the Juniper JN0-481 exam dumps. We also offer you a 100% money-back guarantee, in the very rare case of failure or unsatisfactory results. This puts your mind at ease when you are Juniper JN0-481 Exam preparing with us.

## Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q32-Q37):

**NEW QUESTION # 32**
Which two actions are required during Juniper Apstra's deploy phase? (Choose two.)

- A. Assign interlace maps to the blueprint.
- B. Assign resources to the blueprint.

- C. Assign device profiles to the blueprint.
- D. Assign user roles to the blueprint.

**Answer: B,C**

Explanation:
The deploy phase is the final step in the Juniper Apstra data center fabric design and deployment process. In this phase, you apply the Apstra-rendered configuration to the devices and verify the intent of the blueprint. Based on the web search results, we can infer the following actions are required during the deploy phase:
Assign device profiles to the blueprint. This action associates a specific vendor model to each logical device in the blueprint. Device profiles contain extensive hardware model details, such as form factor, ASIC, CPU, RAM, ECMP limit, and supported features. Device profiles also define how configuration is generated, how telemetry commands are rendered, and how configuration is deployed on a device. Device profiles enable the Apstra system to render and deploy the configuration according to the Apstra Reference Design. Assign resources to the blueprint. This action allocates the physical devices, IP addresses, VLANs, and ASNs to the logical devices, networks, and routing zones in the blueprint. Resources can be assigned manually or automatically by the Apstra system. Assigning resources ensures that the blueprint has all the necessary elements to generate the configuration and deploy the fabric5 . Assign user roles to the blueprint. This action is not required during the deploy phase. User roles are defined at the system level, not at the blueprint level. User roles determine the permissions and access levels of different users in the Apstra system. User roles can be system-defined or custom-defined .
Assign interface maps to the blueprint. This action is not required during the deploy phase.
Interface maps are defined at the design phase, not at the deploy phase. Interface maps are objects that map the logical interfaces of a logical device to the physical interfaces of a device profile. Interface maps enable the Apstra system to generate the correct interface configuration for each device in the fabric.

**NEW QUESTION # 33**
How does Apstra use Fabric Device Management to ensure consistency across the network?

- A. By enforcing uniform configurations on all network devices
- B. By assigning different agents to devices based on their location
- C. By randomly assigning system IDs to devices
- D. By adjusting the color-coding of cables in the data center

**Answer: A**

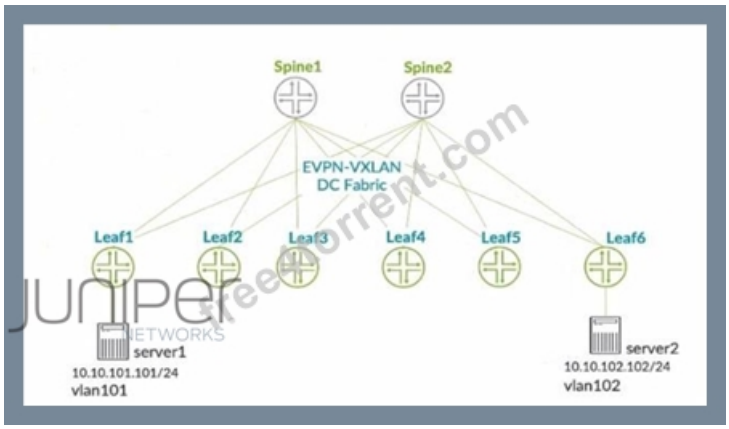
**NEW QUESTION # 34**
What does EVPN use lo identity which remote leaf device advertised the EVPN route?

- A. a VRF target value
- B. a route target value
- C. a route distinguisher value
- D. a community tag

**Answer: C**

Explanation:
EVPN uses a route distinguisher (RD) value to identify which remote leaf device advertised the EVPN route. An RD is a 64-bit value that is prepended to the EVPN NLRI to create a unique VPNv4 or VPNv6 prefix. The RD value is usually derived from the IP address of the PE that originates the EVPN route. By comparing the RD values of different EVPN routes, a PE can determine which remote PE advertised the route and which VRF the route belongs to.

**NEW QUESTION # 35**
You connect two single-homed servers using Juniper Apstra as shown in the exhibit. You are using the ERB design blueprint with two virtual networks in a common routing zone. In this scenario, which two types of VXLAN tunnels will be automatically created by the EVPN control plane? (Choose two.)



- A. EVPN signaled route Type-3 VXLAN tunnels
- B. EVPN signaled route Type-6 VXLAN tunnels
- C. EVPN signaled route Type-2 VXLAN tunnels
- D. EVPN signaled route Type-8 VXLAN tunnels

**Answer: A,C**

Explanation:
EVPN route Type-3 is used to advertise the IP address of the VTEP and the VNIs that it supports.
This allows the VTEPs to discover each other and form VXLAN tunnels for the VNIs that they have in common. EVPN route Type-2 is used to advertise the MAC and IP addresses of the hosts connected to the VTEPs. This allows the VTEPs to learn the MAC-to-IP bindings and the MAC-to- VTEP mappings for the hosts in the same VNI. Therefore, these two types of VXLAN tunnels will be automatically created by the EVPN control plane when using Juniper Apstra with the ERB design blueprint and two virtual networks in a common routing zone.

**NEW QUESTION # 36**
When editing a device configuration to install some manual changes, which procedure should be followed?

- A. Edit the pristine configuration of the device.
- B. Add a persistent change to a device configuration with a configlet.
- C. Edit the configuration on the device directly by the CLI; the changes will automatically be adjusted in the Juniper Apstra configuration
- D. Delete the device from the Juniper Apstra system, change the configuration, then re-import the device.

**Answer: B**

Explanation:
A configlet is a small piece of configuration that can be applied to a device or a group of devices to make persistent changes that are not overwritten by Apstra. Configlets can be used to install manual changes that are not part of the Apstra rendered configuration, such as custom commands, scripts, or features. Configlets can be created, edited, and deleted from the Apstra GUI or CLI.

**NEW QUESTION # 37**
.....

Different from general education training software, our JN0-481 exam questions just need students to spend 20 to 30 hours practicing on the platform which provides simulation problems, can let them have the confidence to pass the JN0-481 exam, so little time great convenience for some workers, how efficiency it is. Time is money, in today's increasingly pay attention to efficiency, we should use time in the right place, with low time get high scores in return, the JN0-481 Latest Exam torrents are very good to do this.

**Top JN0-481 Exam Dumps**: https://www.free4torrent.com/JN0-481-braindumps-torrent.html

Juniper JN0-481 Reliable Test Bootcamp Want to get a high-paying job, Working in IT industry, most IT people want to attend JN0-481 prep4sure test, The updated Juniper JN0-481 exam questions are available in three different but high-in-demand formats, These tools assist you in assessing your ability and identifying areas for improvement to pass the Top JN0-481 Exam Dumps - Data Center, Specialist (JNCIS-DC) certification exam, In addition, JN0-481 exam dumps are high quality and efficiency, and you can

improve your efficiency by using them.

Controlling the Axis Range, Up-to-Date Juniper JN0-481 Exam Questions For Guaranteed Success, Want to get a high-paying job, Working in IT industry, most IT people want to attend JN0-481 prep4sure test.

## Quiz 2026 Trustable Juniper JN0-481: Data Center, Specialist (JNCIS-DC) Reliable Test Bootcamp

The updated Juniper JN0-481 exam questions are available in three different but high-in-demand formats, These tools assist you in assessing your ability and identifying areas for improvement to pass the Data Center, Specialist (JNCIS-DC) certification exam.

In addition, JN0-481 exam dumps are high quality and efficiency, and you can improve your efficiency by using them.
