#### NEW QUESTION # 100

You are deploying the Microsoft Dynamics 365 Field Service mobile app at your organization.

You are in the process of creating push notifications for the mobile app, and you have the following requirement:

When a field service technician is assigned an emergency priority work order, the technician should be immediately notified on their mobile phone.

What should you do?

- A. Create a notification Power Automate flow using an automated flow. The condition within the flow should look at the Resource Requirement entity where the out-of-the-box priority field has a value of Emergency priority.
- B. Create a notification Power Automate flow using an instant flow. The condition within the flow should look at the Bookable Resource Booking entity where the out-of-the-box priority field has a value of Emergency priority.
- C. Create a notification Power Automate flow using a scheduled flow. The condition within the flow should look at Bookable

Resource Bookings where the out-of-the-box priority field has a value of Emergency priority.

- D. Create a notification Power Automate flow using a scheduled flow. The condition within the flow should look at the Work Order entity where the out-of-the-box priority field has a value of Emergency priority.

**Answer: A**

#### NEW QUESTION # 101

Your company is implementing a new CRM system. They have selected Microsoft Dynamics 365 Field Service because of its flexibility. During the basic training sessions, you need to train the field service team on how work orders are created. What are three out-of-the-box ways to create work orders? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. from an asset
- B. from the Dynamics 365 Field Service mobile app
- C. from a case record
- D. from an agreement
- E. from a purchase order

**Answer: B,C,D**

#### NEW QUESTION # 102

Drag and Drop Question

You are a Dynamics 365 for Field Service administrator. Your company only uses contractors as Bookable Resources. The contractors are not licensed Dynamics 365 users.

The scheduling team books work orders to resources based on location. The team provides you with scenarios because many resources are not showing up in the scheduling assistant.

You need to update bookable resource records based on the provided scenarios.

Which address type should you use with each scenario? To answer, drag the appropriate address type to the appropriate scenario. Each address type may be used one, more than once, or not at all. You may need to drag the split bar between panes or scroll to view the content.

NOTE: Each correct selection is worth one point.

**Answer:**
