Interactive ISO-IEC-27001-Foundation EBook & Pdf ISO-IEC-27001-Foundation Braindumps

P.S. Free & New ISO-IEC-27001-Foundation dumps are available on Google Drive shared by DumpsMaterials:
https://drive.google.com/open?id=17JwI-Xp_NZbexDG0xNq7CgOoYIyLlCTW

You will not only get familiar with the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam environment but also enhance your time management skills which will be quite helpful in the final ISO-IEC-27001-Foundation certification exam. The ISO-IEC-27001-Foundation desktop practice test software will install on your Windows-based computer and laptop. Very easy to install and provide a user-friendly interface to ISO-IEC-27001-Foundation Exam candidates. Whereas the ISO-IEC-27001-Foundation web-based practice test software is concerned, it is a browser-based application that works with all the latest browsers.

As is known to us, the high pass rate is a reflection of the high quality of ISO-IEC-27001-Foundation study torrent. The more people passed their exam, the better the study materials are. There are more than 98 percent that passed their exam, and these people both used our ISO-IEC-27001-Foundation Test Torrent. We believe that our ISO-IEC-27001-Foundation test torrent can help you improve yourself and make progress beyond your imagination. If you buy our ISO-IEC-27001-Foundation study torrent, we can make sure that our study materials will not be let you down.

Pdf ISO-IEC-27001-Foundation Braindumps - Exam ISO-IEC-27001-Foundation Bible

Many candidates become dejected and despondent while they fail the exam. Now there is an artifact: latest ISO-IEC-27001-Foundation exam lab questions. This is published by DumpsMaterials that the passing rate is 100% and it helps thousands of candidates clear exams, and then be always imitated by others, but never been surpassed. If you is still headache about your exam and even want to give up, the best choice is purchase this APMG-International ISO-IEC-27001-Foundation Exam Lab Questions.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q14-Q19):

NEW QUESTION # 14
Identify the missing word(s) in the following sentence.
"Information security, cybersecurity and privacy protection - [?]" is the title of ISO/IEC 27005.

- A. Information security management systems - Requirements
- B. Information security controls
- C. Guidance on managing information security risks
- D. Guidelines for information security management systems auditing

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27005 standards:
ISO/IEC 27005:2022 is titled:
"Information security, cybersecurity and privacy protection - Guidance on managing information security risks." This standard provides structured methodologies for identifying, analyzing, evaluating, and treating risks, in alignment with ISO/IEC 27001's risk management requirements (Clause 6.1.2 and 6.1.3). It supports organizations in implementing the risk management process that underpins an ISMS. Options A and B are titles of other ISO standards (ISO/IEC 27007 for auditing, ISO/IEC 27001 for requirements). Option D refers to ISO/IEC 27002 (controls).
Thus, the correct answer is C: Guidance on managing information security risks.

NEW QUESTION # 15
Which action must top management take to provide evidence of its commitment to the establishment, operation and improvement of the ISMS?

- A. Ensuring information security objectives are established
- B. Communicating feedback from interested parties to the organization
- C. Producing a risk assessment report
- D. Implementing the actions from internal audits

Answer: A

Explanation:
Clause 5.1 (Leadership and Commitment) requires top management to demonstrate leadership by:
* "ensuring the information security policy and the information security objectives are established and are compatible with the strategic direction of the organization;"
* "ensuring the integration of the ISMS requirements into the organization's processes;"
* "ensuring that the resources needed for the ISMS are available;"
Among the options, the one explicitly mandated is ensuring that information security objectives are established. Risk assessments (C) and implementing audit actions (D) are responsibilities of management but not the direct leadership evidence required in Clause 5.1. Communicating interested party feedback (A) is relevant but not specifically cited as leadership evidence. Thus, the verified answer is B.

NEW QUESTION # 16

Which of the following statements about the relationship between ISO/IEC 27001 and ISO/IEC 27002 is true?

* ISO/IEC 27002 provides implementation advice on the controls selected during the ISO/IEC 27001 information security risk management process
* ISO/IEC 27002 provides a process for information security risk management which implements the requirements of ISO/IEC 27001

- A. Neither 1 or 2 is true
- B. Only 1 is true
- C. Both 1 and 2 are true
- D. Only 2 is true

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27001 & 27002:2022 standards:
ISO/IEC 27001 Annex A lists reference controls. ISO/IEC 27002 providesdetailed guidance on the implementation of those controls, including purpose, guidance, and examples. Clause 6.1.3 of ISO/IEC
27001 makes the link explicit: controls from Annex A are referenced, but ISO/IEC 27002 explains how to implement them.
However, ISO/IEC 27002 doesnotprovide a process for risk management-that is covered by ISO/IEC
27005. Risk management requirements are in ISO/IEC 27001 (Clauses 6.1.2 and 6.1.3).
Therefore, statement 1 is true, but statement 2 is false. Correct answer:A.

NEW QUESTION # 17

Which statement about the conduct of audits is true?

- A. Third party audits are conducted by a customer of the organization
- B. One of the focus areas for a surveillance audit is the output from internal audits and management reviews
- C. During Stage 1 of a certification audit, evidence is collected by observing activities
- D. The certificate issued after a successful re-certification audit in typical schemes lasts for one year

Answer: B

Explanation:

Clause 9.2 (Internal Audit) and Clause 9.3 (Management Review) highlight that audit outputs and management reviews are key inputs for evaluating ISMS performance. Surveillance audits, conducted by Certification Bodies, check ongoing compliance and effectiveness. ISO certification schemes (per ISO/IEC
17021) require surveillance audits to verify whether corrective actions and continuous improvements are being made. A critical focus area is theresults of internal audits and management reviews, ensuring that the organization maintains its ISMS between certification cycles.
Option A is incorrect - third-party audits are performed by independent Certification Bodies, not customers.
Option B is incorrect - certificates are typically valid forthree yearswith annual surveillance. Option D is incorrect - Stage 1 is primarily adocumentation and readiness review, not evidence observation.
Therefore, the verified correct answer isC.

NEW QUESTION # 18

Which information is required to be included in the Statement of Applicability?

- A. The scope and boundaries of the ISMS
- B. The criteria against which risk will be evaluated
- C. The risk assessment approach of the organization
- D. The justification for including each information security control

Answer: D

Explanation:

Clause 6.1.3 (d) requires that the organization"produce a Statement of Applicability that contains the necessary controls (see Annex A), and justification for inclusions, whether they are implemented or not, and the justification for exclusions." This is the defining requirement of the SoA: it documents which Annex A controls are relevant, which are implemented, and the justification for

inclusion/exclusion. While the ISMS scope (A) is documented in Clause 4.3, and risk evaluation criteria (C) are defined in Clause 6.1.2, these do not belong in the SoA. The SoA does not describe the full risk assessment approach (B); that is part of the risk assessment methodology.

Therefore, the mandatory requirement for the SoA is justification for including (or excluding) each information security control.

NEW QUESTION # 19

......

The APMG-International ISO-IEC-27001-Foundation pdf questions learning material provided to the customers from DumpsMaterials is in three different formats. The first format is PDF format which is printable and portable. It means it can be accessed from tablets, laptops, and smartphones to prepare for the ISO/IEC 27001 (2022) Foundation Exam exam. The APMG-International ISO-IEC-27001-Foundation Pdf Format can be used offline, and candidates can even prepare for it in the classroom or library by printing questions or on their smart devices.
