

CMMC-CCA Test Question - CMMC-CCA New Dumps Sheet

P.S. Free & New CMMC-CCA dumps are available on Google Drive shared by VCETorrent: <https://drive.google.com/open?id=1f73eXoiDc7mY4SJldfTP5aBZbyZkJKL>

VCETorrent recognizes the acute stress the aspirants undergo to get trust worthy and authentic Certified CMMC Assessor (CCA) Exam (CMMC-CCA) exam study material. They carry undue pressure with the very mention of appearing in the Cyber AB CMMC-CCA certification test. Here the VCETorrent come forward to prevent them from stressful experiences by providing excellent and top-rated Certified CMMC Assessor (CCA) Exam (CMMC-CCA) practice test questions to help them hold the Certified CMMC Assessor (CCA) Exam (CMMC-CCA) certificate with pride and honor.

Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.
Topic 2	<ul style="list-style-type: none">Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.
Topic 3	<ul style="list-style-type: none">CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.
Topic 4	<ul style="list-style-type: none">CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.

Pass Guaranteed Quiz 2026 Cyber AB CMMC-CCA –Newest Test Question

No matter you are a company employee or a student, you will find that our CMMC-CCA training quiz is priced reasonably to afford. Though the price is quite low but the quality is unparalleled high. We own numerous of loyal clients that constantly bought our CMMC-CCA Exam Braindumps and recommended them to their friends, classmates or colleagues. Besides, we give discounts to our customers from time to time. Lots of our customers prised our CMMC-CCA practice guide a value-added product.

Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q24-Q29):

NEW QUESTION # 24

A company is seeking Level 2 CMMC certification. During the Limited Practice Deficiency Correction Evaluation, the Lead Assessor is deciding whether the company can be moved to a POA&M Close-Out. What condition will result if a POA&M Close-Out option cannot be utilized?

- A. The OSC will be granted a provisional status until it can meet all the practices.
- B. The Lead Assessor will ask the OSC to justify not meeting all the practices.
- **C. The Lead Assessor will not recommend the OSC for CMMC Level 2 certification.**
- D. The assessment will be paused until the OSC can meet all practices.

Answer: C

Explanation:

If the OSC cannot remediate deficiencies during the POA&M Close-Out process, the Lead Assessor must issue a recommendation of NOT MET, and the OSC will not be certified. CMMC requires all Level 2 practices to be MET (with limited exceptions under defined POA&M close-out rules).

Exact Extracts:

* CMMC Assessment Guide: "If practices cannot be met within the POA&M Close-Out process, the Lead Assessor must not recommend certification."

* DoD policy: "CMMC Level 2 requires that all 110 practices be met. A failed POA&M Close-Out results in a final determination of NOT MET."

* "There is no provisional certification status in CMMC."

Why the other options are not correct:

- * A: Assessments are not paused indefinitely; unresolved deficiencies result in NOT MET.
- * B: Justification alone does not satisfy requirements.
- * C: Provisional status does not exist in CMMC.

References:

CMMC Assessment Guide - Level 2, Version 2.13: POA&M Close-Out procedures (pp. 14-16).

DoD CMMC Program Documentation: Requirement for all practices to be MET for certification.

NEW QUESTION # 25

Implementation of and compliance with CMMC practices is not just a one-time effort but a sustained and habitual practice within the organization. As a CCA, you are part of an Assessment Team conducting a CMMC assessment for an OSC. As part of the assessment process, the CCA must confirm that the OSC has persistently implemented the CMMC policies and practices across all levels of the organization. To validate the persistent implementation of CMMC policies and practices, which of the following sources of evidence should you primarily focus on?

- A. The OSC's policy documents and executive-level communications
- **B. A combination of policies, plans, resourcing, communications, and training that are elements of the organization's cybersecurity program**
- C. The OSC's training programs and resource allocation for CMMC implementation
- D. Interviews with personnel to gauge their awareness and understanding of CMMC practices

Answer: B

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP requires persistent CMMC implementation, validated holistically via policies, plans, resources, communications, and training (Option D). Options A, B, and C are partial, whereas Option D encompasses all elements of a sustained cybersecurity program, per CMMC Level 2 guidance, making it the correct answer.

Reference Extract:

* CMMC Assessment Process (CAP) v1.0, Section 4.1:"Persistent implementation requires evidence from policies, plans,

resources, communications, and training."Resources:<https://cyberab.org/Portals/0/Documents/Process-Documents/CMMC-Assessment-Process-CAP-v1.0.pdf>

NEW QUESTION # 26

During a CMMC assessment, the OSC's IT manager asks the CCA if they can "fix" a non-compliant practice during the assessment to improve their score. The CCA declines and continues the assessment. What CoPC principle does the CCA uphold by refusing to assist?

- A. Confidentiality
- B. Professionalism
- C. Information Integrity
- D. Objectivity

Answer: D

Explanation:

Comprehensive and Detailed In Depth Explanation:

Refusing to assist maintains Objectivity (Option C), avoiding influence on outcomes. Options A, B, and D are not directly applicable.

Extract from Official Document (CoPC):

* Paragraph 2.2 - Objectivity (pg. 5): "Do not assist the OSC in fixing practices during the assessment to maintain objectivity."

References:

CMMC Code of Professional Conduct, Paragraph 2.2.

NEW QUESTION # 27

When assessing a contractor's implementation of CMMC practices, you examine its System Security Plan (SSP) to identify its documented measures for audit reduction and reporting. They have a dedicated section in their SSP addressing the Audit and Accountability requirements. You proceed to interview their information security personnel, who informed you that the contractor has a dedicated Security Operations Center (SOC) and uses Splunk to reduce and report audit logs. How would you score the contractor's implementation of AU.

L2-3.3.6 - Reduction & Reporting?

- A. Not Met
- B. Met
- C. Partially Met
- D. Not Applicable

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

AU.L2-3.3.6 requires "providing audit reduction and report generation capabilities." The SSP documents measures, and Splunk (a SIEM) supports reduction and reporting, meeting both objectives. With no gaps noted, this 1-point practice scores Met (+1) per DoD methodology. Partial (A) and Not Met (C) require deficiencies, and N/A (B) doesn't apply.

Extract from Official CMMC Documentation:

* CMMC Assessment Guide Level 2 (v2.0), AU.L2-3.3.6: "Examine tools like SIEM for reduction and reporting."

* DoD Scoring Methodology: "1-point practice: Met = +1."

NEW QUESTION # 28

A C3PAO has contracted by an OSC to perform its assessment. Before the assessment, the Lead Assessor asks the OSC to provide an extensive list of evidence, some of which is optional and beyond the minimum requirements. The OSC is not able to fulfill the entire request. One missing document was a current and organized list of the OSC's evidence and mappings.

Given that this is a Level 2 Assessment, what should the Lead Assessor tell the OSC?

- A. "The OSC's Assessment Official will be asked to collect evidence when requested by the assessment team"

- B. "The OSC must provide the Assessment Team with hardcopy evidence. Electronic evidence will only be collected when needed."
- C. "The OSC should provide the Assessment Team with a current and organized list of their evidence and process mappings, but the assessment can continue."
- D. "It's okay that the document is missing. The Assessment Team will collect all evidence themselves to ensure its integrity."

Answer: C

Explanation:

The CAP requires that the OSC provide an organized and traceable set of evidence for review. While missing an evidence map does not stop the assessment, it is a best practice and strongly recommended to improve efficiency.

Extract:

"The OSC should provide an organized list of evidence and mappings to support efficient review by the assessment team. While not strictly required, it is recommended as part of readiness for a Level 2 assessment." Thus, the Lead Assessor should advise the OSC to provide the evidence mapping list, but the absence does not invalidate proceeding.
