The web-based HPE Aruba Networking ClearPass Exam (HPE6-A88) practice exam software is genuine, authentic, and real so feel free to start your practice instantly with HPE Aruba Networking ClearPass Exam (HPE6-A88) practice test.

HPE Aruba Networking ClearPass Exam Sample Questions (Q92-Q97):

NEW QUESTION # 92

An IT professional is configuring the OnGuard agentless solution for a company's Windows clients. They need to ensure that the necessary prerequisites are met. Which configuration is required on the Policy Manager server?

- A. The Policy Manager server should not support SMB v2 on Windows endpoints.
- **B. The Policy Manager server should be joined to a Domain.**
- C. The Policy Manager server should be running both Agentless OnGuard and the Persistent Agent.

Answer: B

Explanation:

Unlike agent-based solutions where the client initiates contact, Agentless OnGuard requires ClearPass to "reach out" to the Windows endpoint using WMI and SMB. For ClearPass to have the necessary permissions to perform these remote administrative tasks on domain-joined machines, the ClearPass Policy Manager server must itself be joined to the Active Directory domain. This allows the server to use domain administrator or service account credentials to authenticate against the target endpoints.

NEW QUESTION # 93

Where can a ClearPass admin configure sponsor approval workflows for guest registration?

Response:

- A. Under OnGuard health settings
- B. In Insight dashboard
- **C. Inside the Guest module workflow editor**
- D. In the Role Mapping policy

Answer: C

NEW QUESTION # 94

An IT administrator is managing a network with ClearPass and notices that one of the devices is sending multiple health checks throughout the day via different networks (wired, wireless, and VPN). How does OnGuard handle the license usage for this device?

- **A. OnGuard debits one license per day for the device regardless of the number of health checks or networks used.**
- B. OnGuard debits a license for each network the device connects to throughout the day.
- C. OnGuard debits a separate license for each health check sent by the device.

Answer: A

Explanation:

ClearPass OnGuard licensing is based on the unique endpoint, not the number of connections or checks. A single device that connects via wired in the morning, Wi-Fi in the afternoon, and VPN in the evening- triggering a health check each time-will only consume one OnGuard license for that 24-hour period. This "per-device" model makes licensing predictable for enterprise deployments with roaming users.

NEW QUESTION # 95

In a university setting where users often connect more than five devices to the network, an IT administrator notices some devices are problematic and require frequent upgrades. How can ClearPass assist in identifying the impact of these upgrades?

- A. By blocking all problematic devices from connecting to the network
- B. By automatically upgrading all devices to the latest firmware
- C. By profiling devices and allowing the administrator to see the types and number of devices affected quickly

Answer: C

Explanation:

ClearPass Profiling is a foundational feature used to gain visibility into every device on the network. It uses various "collectors" (such as DHCP fingerprints, HTTP User-Agents, and MAC OUIs) to determine the Category, OS Family, and Name of an endpoint. In a high-density environment like a university, profiling allows administrators to generate reports on specific device types. When an upgrade is required for a specific model (e.g., a specific version of Android or a certain laptop brand), the administrator can instantly see exactly how many of those devices are currently active, allowing for better capacity planning and impact analysis.

NEW QUESTION # 96

Which of the following is a primary function of Network Access Control (NAC) within ClearPass?

Response:

- A. Route traffic between internal subnets
- B. Encrypt network traffic end-to-end
- C. Assign dynamic VLANs based on endpoint attributes
- D. Provide DNS services to all connected devices

Answer: C

NEW QUESTION # 97

.....

Our HPE6-A88 training quiz is the top selling products in the market. You will save a lot of preparation troubles if you purchase our HPE6-A88 study materials. Our HPE6-A88 exam braindumps are highly similar to the real test. Almost all questions of the real exam will be predicated accurately in our HPE6-A88 Practice Questions, which can add you passing rate of the exam. And you will find that our prices for the exam products are quite favorable.
