## The Best HP HPE0-V25 Actual Test Are Leading Materials & Unparalleled HPE0-V25 Test Vce Free

Almost everyone is trying to get the HPE Hybrid Cloud Solutions (HPE0-V25) certification to update their CV or get the desired

job. Every student faces just one problem and that is not finding updated study material. Applicants are always confused about where to buy real HP HPE0-V25 Dumps Questions and prepare for the HPE Hybrid Cloud Solutions (HPE0-V25) exam in less time. Nowadays everyone is interested in getting the HPE Hybrid Cloud Solutions (HPE0-V25) certificate because it has multiple benefits for HP career.

## HPE Hybrid Cloud Solutions Sample Questions (Q65-Q70):

### NEW QUESTION # 65

How does HPE Primera help organizations manage their data storage?

- A. By providing cloud-based storage solutions
- B. By offering data protection and disaster recovery solutions
- C. By providing high-performance storage arrays

**Answer: C**

Explanation:

HPE Primera is a high-performance storage array that provides organizations with advanced data management capabilities, including real-time analytics, self-optimizing performance, and high availability. It enables organizations to manage their data storage more effectively by providing a unified platform for managing all of their storage resources, including flash and disk-based storage. HPE Primera also supports integration with other HPE storage solutions, making it easier for organizations to scale their storage resources as needed.

### NEW QUESTION # 66

Match the correct scaling approach to each strategy

□

**Answer:**

Explanation:

□

Explanation

\* Scale-out: Add more servers to do the workload

\* Scale-up: Add more resources (such as processors and memory) to existing servers

\* Scale-out: Add an additional two-socket system to an existing VMware Cluster

\* Scale-up: Add two additional processors to a four-socket system currently equipped with only two processors This is because:

\* Scale-out: This is a scaling approach that involves adding more servers or nodes to a system to increase its capacity and performance. It is also known as horizontal scaling. It can help distribute the workload across multiple servers and improve availability and fault tolerance.

\* Scale-up: This is a scaling approach that involves adding more resources (such as processors, memory, storage or network) to an existing server or node to increase its capacity and performance. It is also known as vertical scaling. It can help improve the performance of a single server and reduce the complexity of managing multiple servers.

### NEW QUESTION # 67

Which new feature is provided by the Storage Management utility v4?

- A. automatic installation of new recommended firmware versions
- B. easy switching of active firmware versions
- C. autonomic
- D. automatic file classification

**Answer: B**

Explanation:

Explanation

one of the topics covered in the module 4 of the Implementing HPE MSA Storage Solutions course is

"Explain the firmware update process on MSA". This suggests that the firmware update is a maintenance task that can be performed with the Storage Management utility v4.

### NEW QUESTION # 68

You need to describe the benefits of HPE GreenLake to your customer.  
What details should you provide?

- A. HPE GreenLake enables the customer to be managed by HPE, HPE Partners, and other 3rd party vendors through its open management policy.
- **B. HPE GreenLake can increase financial flexibility, free up capital, and provide better cost control through its Pay-per-Use policy.**
- C. HPE GreenLake provides infinite scale to the customer at no additional cost with its scale up policy.
- D. HPE GreenLake allows customers to manage their accounts point-and-click automated provisioning from a mobile application.

**Answer: B**

Explanation:

Pay-per-Use policy: HPE GreenLake offers a consumption-based IT model that provides significant financial benefits. It increases financial flexibility by aligning costs with actual usage, frees up capital that can be invested elsewhere, and offers better cost control by reducing upfront expenses and providing predictable monthly payments based on consumption.

HPE GreenLake Benefits

### NEW QUESTION # 69

Match the RAID level to the number of drive failures an array can handle without losing data. (Each option may be used once, more than once, or not at all.)

**Answer:**

Explanation:

- \* RAID 1: any single drive
- \* RAID 1 ADM: any two drives
- \* RAID 5: any single drive
- \* RAID 6: any two drives
- \* RAID 1: This is a level of RAID that uses mirroring to create an exact copy of data on two or more disks. It can tolerate the failure of any single drive without losing data, as long as the other drive is still functional.
- \* RAID 1 ADM: This is a level of RAID that uses advanced data mirroring to create two copies of data on three disks. It can tolerate the failure of any two drives without losing data, as long as the third drive is still functional.
- \* RAID 5: This is a level of RAID that uses striping with parity to distribute data and parity information across three or more disks. It can tolerate the failure of any single drive without losing data, as long as the other drives can reconstruct the data from the parity information.
- \* RAID 6: This is a level of RAID that uses striping with double parity to distribute data and two sets of parity information across four or more disks. It can tolerate the failure of any two drives without losing data, as long as the other drives can reconstruct the data from the double parity information.

### NEW QUESTION # 70

.....

You can take multiple HPE Hybrid Cloud Solutions HPE0-V25 practice exam attempts and identify and overcome your mistakes. Furthermore, through HPE Hybrid Cloud Solutions HPE0-V25 practice test software you will improve your time-management skills. You will easily manage your time while attempting the Actual HPE0-V25 Test.
