Pass Guaranteed Quiz NSE7_EFW-7.2 - Fortinet NSE 7 - Enterprise Firewall 7.2 –Valid Boot Camp

When you buy things online, you must ensure the security of online purchasing, otherwise your rights will be harmed. Our NSE7_EFW-7.2 study tool purchase channel is safe, we invite experts to design a secure purchasing process for our NSE7_EFW-7.2 qualification test, and the performance of purchasing safety has been certified, so personal information of our clients will be fully protected. All customers can feel comfortable when they choose to buy our NSE7_EFW-7.2 Study Tool. We have specialized software to prevent the leakage of your information and we will never sell your personal information because trust is the foundation of cooperation between both parties. A good reputation is the driving force for our continued development. Our company has absolute credit, so you can rest assured to buy our NSE7_EFW-7.2 test guides.

Fortinet NSE 7 - Enterprise Firewall 7.2 Sample Questions (Q49-Q54):

NEW QUESTION # 49
While configuring the BGP protocol, an administrator applies the set network-import-check disable command under config network. What will FortiGate do as a result of this command?

- A. FortiGate will not advertise the prefixes, if it is not in the routing table.
- B. FortiGate will not advertise any imported routes received from one BGP neighbor to another.
- C. FortiGate will advertise all the prefixes in the BGP network table to its BGP neighbor, even if it is not in the routing table.
- D. FortiGate will advertise only the corresponding prefixes in the BGP network table to its BGP neighbor, even if it is not in the routing table.
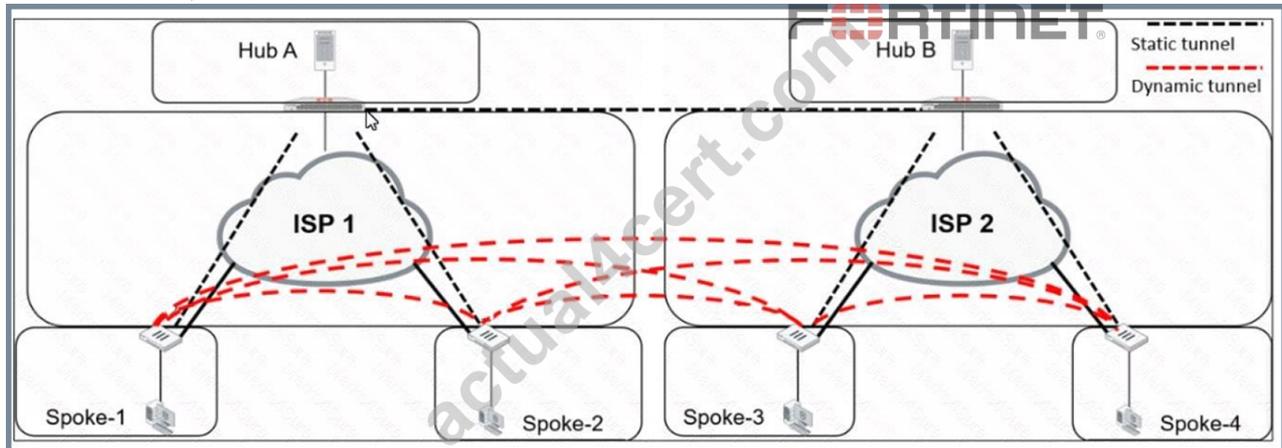

Answer: C

Explanation:
Fortigate doesn't advertise the prefix. You can change this behavior by disabling the network-import-check setting. After you disable the setting, Fortigate advertises all prefixes in the BGP network table, regardless of the active routes present in the routing table.

NEW QUESTION # 50
Refer to the exhibit, which shows an ADVPN network.

Which VPN phase 1 parameters must you configure on the hub for the ADVPN feature to function? (Choose two.)

- A. set add-route enable
- B. set auto-discovery-forwarder enable
- C. set auto-discovery-receiver enable
- D. set auto-discovery-sender enable

Answer: B,C

Explanation:
For the ADVPN feature to function properly on the hub, the following phase 1 parameters must be configured:
A). set auto-discovery-forwarder enable: This enables the hub to forward shortcut information to the spokes, which is essential for them to establish direct tunnels.
C). set auto-discovery-receiver enable: This allows the hub to receive shortcut offers from the spokes.
This information is corroborated by the Fortinet documentation, which explains that in an ADVPN setup, the hub must be able to both forward and receive shortcut information for dynamic tunnel creation between spokes.

NEW QUESTION # 51
Which statement about network processor (NP) offloading is true?

- A. The NP provides IPS signature matching
- B. You can disable the NP for each firewall policy using the command np-acceleration st to loose.
- C. For TCP traffic FortiGate CPU offloads the first packets of SYN/ACK and ACK of the three-way handshake to NP
- D. The NP checks the session key or IPSec SA

Answer: D

NEW QUESTION # 52
Which ADVPN configuration must be configured using a script on fortiManager, when using VPN Manager to manage fortiGate VPN tunnels?

- A. Configure IP addresses on IPsec virtual interlaces
- B. Disable add-route on hub
- C. Set protected network to all

- D. Enable AD-VPN in IPsec phase 1

Answer: D

Explanation:
To enable AD-VPN, you need to edit an SD-WAN overlay template and enable the Auto-Discovery VPN toggle. This will automatically add the required settings to the IPsec template and the BGP template. You cannot enable AD-VPN directly in the IPsec phase 1 settings using VPN Manager. References := ADVPN | FortiManager 7.2.0 - Fortinet Documentation

NEW QUESTION # 53
Refer to the exhibit, which shows a custom signature.

Which two modifications must you apply to the configuration of this custom signature so that you can save it on FortiGate? (Choose two.)

- A. Add attack_id.
- B. Add severity.
- C. Start options with --.
- D. Ensure that the header syntax is F-SBID.

Answer: B,D

Explanation:
For a custom signature to be valid and savable on a FortiGate device, it must include certain mandatory fields.
Severity is used to specify the level of threat that the signature represents, and attack_id is a unique identifier for the signature. Without these, the signature would not be complete and could not be correctly utilized by the FortiGate's Intrusion Prevention System (IPS).

NEW QUESTION # 54
......

The latest NSE7_EFW-7.2 exam torrent covers all the qualification exam simulation questions in recent years, including the corresponding matching materials at the same time. Do not have enough valid NSE7_EFW-7.2 practice materials, can bring inconvenience to the user, such as the delay progress, learning efficiency and to reduce the learning outcome was not significant, these are not conducive to the user persistent finish learning goals. Therefore, to solve these problems, the NSE7_EFW-7.2 test material is specially designed for you to pass the NSE7_EFW-7.2 exam.

New NSE7_EFW-7.2 Test Review: https://www.actual4cert.com/NSE7_EFW-7.2-real-questions.html

We hope that our NSE7_EFW-7.2 exam materials can light your life, And the pass rate of our NSE7_EFW-7.2 learning guide is high as 98% to 100%, you will be satisfied with it if you buy it, Actual4Cert Practice Questions provide you with the ultimate pathway to achieve your targeted Fortinet Exam NSE7_EFW-7.2 IT certification, Here the Actual4Cert come forward to prevent them from stressful experiences by providing excellent and top-rated Fortinet NSE 7 - Enterprise Firewall 7.2 (NSE7_EFW-7.2) practice test questions to help them hold the Fortinet NSE 7 - Enterprise Firewall 7.2 (NSE7_EFW-7.2) certificate with pride and honor.

It will give you an idea what Kivy is capable of, and provides a NSE7_EFW-7.2 handy reference for UI elements, The preset text variables are all well and good, but the real fun lies in defining your own.

Valid NSE7_EFW-7.2 test answers & Fortinet NSE7_EFW-7.2 pass test & NSE7_EFW-7.2 lead2pass review

We hope that our NSE7_EFW-7.2 Exam Materials can light your life, And the pass rate of our NSE7_EFW-7.2 learning guide is high as 98% to 100%, you will be satisfied with it if you buy it.
