NEW QUESTION # 58

What is true about Epic implementation?

- A. Once pulled into implementation, the Epic needs to be finished.
- **B. Re-prioritization happens at every PI boundary, and the rest of the Epic can be postponed or canceled if there are more important new initiatives.**
- C. A budget reserve is established that can be used to fund Epics.
- D. Agile Release Trains are empowered to decide whether or not they proceed with a Portfolio Epic.

Answer: B

SAFe recommends regular re-prioritization at PI boundaries. An Epic does not need to be finished once started; if new, higher-priority work arises, the remaining part of the Epic can be postponed or even canceled.

"Epics may be re-prioritized or stopped if they are no longer the highest economic value work. This can occur at any PI boundary."
