NEW QUESTION # 50

There is no law to control noise pollution.

- **A. FALSE**
- B. TRUE

Answer: A

Explanation:

Laws to control noise pollution exist globally and nationally, contradicting the statement. The CIPS L3M6 module references examples like the UK's Control of Pollution Act 1974 and EU noise directives, which set limits on acceptable noise levels (e.g., decibels from transport or industry). These regulations mandate mitigation measures (e.g., noise barriers, curfews) and penalties for non-compliance, ensuring environmental protection. In procurement, such laws influence equipment choices and site operations, aligning with LO2's focus on regulatory impacts on supply chains. The presence of these laws makes the statement false.
