最新的 COBIT Foundation COBIT-2019 免費考試真題 (Q154-Q159):

問題 #154

When making IT-related decisions, stakeholders will find the COBIT framework MOST useful for:

- A. defining the components and the levels at which decisions should be made.
- B. obtaining prescribed decisions or solutions to specific problems and issues.
- C. deciding on the best solution in a given situation.

答案： A

解題說明：

COBIT 2019 provides a comprehensive framework to support the decision-making process rather than prescribing specific solutions. It guides the structuring of governance and management objectives across different domains, such as EDM, APO, and BAI, enabling stakeholders to understand the components and decision levels required for efficient IT governance. This aligns with COBIT's goals to establish clear responsibilities and decision-making criteria for various roles, ensuring alignment with enterprise objectives and stakeholder needs.

問題 #155

Which of the following components is important to update in a COBIT RACI chart to align with the enterprise's context, priorities and preferred terminology?

- A. Enterprise procedures and job descriptions
- **B. Enterprise process practices and activities**
- C. Enterprise roles and organizational structures

答案： B

問題 #156

Which of the following should a stakeholder do to optimize the use of COBIT?

- A. Customize COBIT guidance to meet industry best practices.
- B. Ensure COBIT guidance is strictly followed without alterations.
- **C. Customize COBIT guidance to meet specific enterprise needs.**

答案： C

解題說明：

Explanation

COBIT guidance should be customized to meet specific enterprise needs, as different enterprises have different goals, objectives, risks, and requirements. COBIT provides a flexible and adaptable framework that can be tailored to suit the enterprise's context and environment. COBIT also provides guidance on how to customize the framework using design factors and focus areas.¹²

問題 #157

At which stage of the EGIT implementation life cycle should the enterprise determine the impact of an improvement program on IT and the business and how to maintain the improvement momentum?

- A. When executing the EGIT implementation program plan
- B. When initiating an EGIT program
- **C. When developing the EGIT implementation program plan**
- D. When defining the EGIT implementation road map

答案： C

解題說明：

According to the official COBIT 2019 Study Manual from ISACA, when developing the EGIT implementation program plan, the enterprise should consider the impact of the improvement program on IT and the business. This includes analyzing the expected value from the implementation, such as cost savings or increased efficiency, as well as how to maintain the improvement momentum. This analysis should inform the strategy for implementing the EGIT program, as well as inform the selection of metrics and targets for measuring the effectiveness of the program.

問題 #158

The enterprise goal titled "Optimization of Business Process Costs" is aligned to which balanced scorecard (BSC) dimension?

- 答案: B

The enterprise goal titled "Optimization of Business Process Costs" is aligned to the internal dimension of the balanced scorecard (BSC). The internal dimension focuses on the efficiency and effectiveness of the business processes that deliver value to customers and stakeholders. Optimization of business process costs is one of the 17 generic enterprise goals defined by COBIT that supports the internal dimension. 12 References:
