

Valid Information-Technology-Management test answers & WGU Information-Technology-Management pass test & Information-Technology-Management lead2pass review

PRACTICE TEST 27.9

PHONETICS

Choose the word whose underlined part is pronounced differently from that of the others.

1. A. handicraft B. lacquerware C. **dangerous** ei->< D. asset
 2. A. exotic B. **execrable** (bad) k->< C. exhausted D. exhibitor
 3. agree B. deepen C. **committee** i-><i: D. refugee

Choose the word whose main stressed syllable is placed differently from that of the others.

4. A. affordable B. ingredient C. **destination** 3-><2 D. derivative
 5. A. **intimacy** 1-><2 B. intensity C. Antarctica D. invaluable

LEXICO- GRAMMAR

Part 1. Choose the best option A, B, C, or D to complete the following sentences.

1. At the turn of the 20th century, Edward Muybridge's pictures of a runner _____ in every history of photography.
 A. exhibit B. show C. **feature** D. demonstrate
2. Sports photographers today can _____ in a single dramatic moment the real emotions of the participants.
 A. seize B. grasp C. **capture** D. secure
3. These buildings are used extensively for State ceremonies and official entertaining and are opened to the _____ as much as these condiments allow.
 A. **public** B. humans C. people D. strangers
4. _____ the meeting stops here.
 A. If no question being asked B. Without any questions, however
 C. No questions asked D. **There being no question**
5. He started hammering on the adjoining wall but Mary carried on _____.
 A. notwithstanding B. **regardless** C. irrespectively D. nevertheless
6. The scientists _____ the festival of Ramadan, but they were too busy with their research in the laboratory.
 A. would have liked to commemorate B. **would have loved to have observed**
 C. would prefer to have obeyed D. would sooner have celebrated
7. James didn't take _____ to your suggestion that she was mean with money.
 A. **kindly** B. pleasantly C. cheerfully D. agreeably
- not take kindly to sth = not like*
8. My camera was stolen from my bag at the airport so I _____ a claim on my insurance.
 A. had B. did C. took D. **made**
9. If you want a flat in the center of the city, you have to pay through the _____ for it.
 A. teeth B. head C. **nose** D. arm
10. Public television stations are different from commercial stations _____.
 A. because they receive money differently and different types of shows
 B. for money and program types
 C. **in the areas of funding and programming**
 D. because the former receives money and has programs differently from the latter
11. The company had to cough _____ a lot of money to indemnify for the victims in the accident.
 A. **up** B. out C. into D. away
- to cough up = to give something, especially money, unwillingly*
to indemnify = to promise to pay somebody an amount of money if they suffer any damage or loss
12. "Why don't we go for a picnic this weekend?"
 - "That's what I was just about to suggest. Great minds _____."
 A. **think alike** B. think the same C. meet each other D. meet likewise
13. "Mind your business!"
 - " _____"
 A. What, again? B. I don't mind.
 C. Thank you. D. **All right, I didn't mean to be noisy.**
14. The book is such a _____ that I cannot put it down.
 A. **page-turner** = exciting book
 B. best-seller
 C. duvet-cover vô chận
 D. mind-reader = a person who knows what somebody else is thinking without being told

Real Information-Technology-Management Question & Reliable Information-Technology-Management Exam Materials

Today, in an era of fierce competition, how can we occupy a place in a market where talent is saturated? The answer is a certificate. What the certificate main? All kinds of the test Information-Technology-Management certification, prove you through all kinds of qualification certificate, it is not hard to find, more and more people are willing to invest time and effort on the Information-Technology-Management Exam Guide, because get the test Information-Technology-Management certification is not an easy thing, so, a lot of people are looking for an efficient learning method. And here, fortunately, you have found the Information-Technology-Management exam braindumps, a learning platform that can bring you unexpected experiences.

WGU Information Technology Management QGC1 Sample Questions (Q208-Q213):

NEW QUESTION # 208

What is a reason an organization would implement unified communications?

- A. To increase paper-based documentation
- B. To maintain legacy systems
- C. To reduce reliance on mobile devices
- **D. To expand employee connectivity**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Unified communications (UC) refers to the integration of multiple communication tools-such as voice, video, instant messaging, email, presence, and conferencing-into a single, cohesive platform. The primary purpose is to improve how employees connect, communicate, and collaborate, regardless of their physical location or device.

Implementing unified communications allows an organization to:

Enable real-time communication (chat, voice, video) between employees in different locations.

Support remote and mobile workers by providing consistent access to communication tools.

Simplify communication by consolidating different channels into one unified interface.

This directly supports the goal of expanding employee connectivity, making it easier for staff to reach one another quickly and choose the most effective communication method.

Why the other options are incorrect:

B . To reduce reliance on mobile devices - UC typically supports and enhances mobile access (smartphones, tablets, laptops); it does not aim to reduce reliance on them.

C . To maintain legacy systems - UC often replaces or modernizes legacy systems; it is about integration and modernization, not preserving old platforms.

D . To increase paper-based documentation - UC is focused on digital communication and collaboration, which generally reduces the need for paper-based processes.

Therefore, the best reason an organization would implement unified communications is to expand employee connectivity.

NEW QUESTION # 209

Where is data stored when using a USB flash drive?

- A. Shared network location
- B. Computer hardware
- C. Browser cache
- **D. Local solid-state memory**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

A USB flash drive is a type of portable storage device that uses solid-state memory (specifically, flash memory) to store data. When you save files to a USB flash drive, the data is written to and stored in the local solid-state memory chips inside the device itself, not on the computer's main storage or any external network.

Key points aligned with Information Technology Management concepts:

Solid-state memory (flash memory) has no moving parts, unlike traditional hard disk drives. It stores data electronically in memory cells, which makes it durable, compact, and well-suited for portable devices such as USB drives.

A USB flash drive is considered removable storage, meaning it can be disconnected from one computer and connected to another while still retaining the stored data because it is kept in the device's own internal solid-state memory.

The operating system simply treats the USB flash drive as another storage volume (like an additional drive letter), but the physical location of the data is on the flash memory inside the USB device, not in the computer's internal hard drive or memory.

Why the other options are incorrect:

Option A: Shared network location - This refers to storage on a network server or cloud system accessed over a network connection. A USB flash drive does not require a network; it stores data locally on the device itself.

Option C: Computer hardware - While the USB drive plugs into the computer's hardware (USB port), the data is not stored in the computer's internal components (like the internal hard drive or RAM). It is stored on the USB drive's own internal solid-state memory.

Option D: Browser cache - Browser cache is temporary storage used by web browsers on a local device to speed up loading web pages. It is unrelated to where data is stored on a USB flash drive.

Therefore, the correct answer is B. Local solid-state memory, because that accurately describes where data is physically stored when using a USB flash drive.

NEW QUESTION # 210

Which cybersecurity attack disrupts the normal use of a network?

- A. Denial-of-service
- B. Malware infection
- C. Session hijacking
- D. DNS spoofing

Answer: A

Explanation:

A Denial-of-Service (DoS) attack (or Distributed Denial-of-Service, DDoS) aims to flood a network, server, or system with excessive traffic, making it unable to respond to legitimate users. This results in disruption of normal network operations, downtime, and loss of service availability.

Option A (Session hijacking): Involves taking over a user's session, not large-scale network disruption.

Option C (DNS spoofing): Redirects users to fraudulent sites, not directly disrupting entire network use.

Option D (Malware infection): Can harm systems, but is not specifically aimed at disrupting network availability.

Thus, the attack that disrupts normal network use is a Denial-of-Service attack.

NEW QUESTION # 211

Which enterprise resource planning (ERP) feature benefits small businesses?

- A. Customizable business modules
- B. Minimal IT infrastructure
- C. Offline processing only
- D. Simple setup and low cost

Answer: D

Explanation:

Small businesses often adopt ERP systems that are designed for simple setup, ease of use, and low cost. These ERP solutions typically provide scaled-down, cloud-based options that do not require heavy IT infrastructure, making them affordable and accessible for organizations with limited resources.

Option A: Incorrect-ERP requires infrastructure or cloud resources, not "minimal" infrastructure alone.

Option B: Incorrect-modern ERP systems are cloud-based and support online integration, not offline only.

Option C: While customizable modules are helpful, the primary small-business advantage is affordability and simplicity.

Thus, the ERP feature that benefits small businesses is simple setup and low cost.

NEW QUESTION # 212

Which scenario would cause an organization to create a global team?

- A. For security purposes the organization is moving to a private cloud provider.
- **B. As the organization grows it is becoming difficult to find talent in the local market.**
- C. The organization is embarking on a digital transformation effort.
- D. The organization's largest client is the United States Military.

Answer: B

Explanation:

* Global Team Formation:

* Organizations often form global teams when they face talent shortages in their local markets.

Expanding globally provides access to a larger and more diverse talent pool.

* Global teams enable the organization to leverage regional expertise, foster innovation, and reduce dependency on local markets.

* Incorrect Options Analysis:

* B. Security via private cloud: Relates to infrastructure decisions, not team formation.

* C. Digital transformation: Involves adopting technology, not directly forming a global team.

* D. U.S. Military as a client: Security and compliance measures may be involved, but this is not necessarily linked to global team creation.

References and Documents of Information Technology Management:

* "Global Talent Acquisition Strategies" (McKinsey).

* ITIL Human Resources Alignment Best Practices (Axelos).

NEW QUESTION # 213

.....

Maybe you have desired the Information-Technology-Management certification for a long time but don't have time or good methods to study. Maybe you always thought study was too boring for you. Our Information-Technology-Management study materials will change your mind. With our products, you will soon feel the happiness of study. Thanks to our diligent experts, wonderful study tools are invented for you to pass the Information-Technology-Management Exam. You can try the demos first and find that you just can't stop studying. Using our Information-Technology-Management study materials, you will just want to challenge yourself and get to know more.

Real Information-Technology-Management Question: <https://www.itexamdownload.com/Information-Technology-Management-valid-questions.html>

Come to have a try on our Information-Technology-Management study materials and gain your success, WGU Certification Information-Technology-Management Dump They are master of their field & have many years of experience, WGU Certification Information-Technology-Management Dump You must depend on yourself to acquire what you want, Many experts and professors consist of our design team, you do not need to be worried about the high quality of our Information-Technology-Management test torrent, You can print out the PDF version of Information-Technology-Management practice engine, carry it with you and read it at any time.

So, you're shopping for a new tablet, Marking methods as obsolete, Come to have a try on our Information-Technology-Management Study Materials and gain your success, They are master of their field & have many years of experience.

Information-Technology-Management PDF Dumps Files for Busy Professionals

You must depend on yourself to acquire what you want, Many experts and professors consist of our design team, you do not need to be worried about the high quality of our Information-Technology-Management test torrent.

You can print out the PDF version of Information-Technology-Management practice engine, carry it with you and read it at any time.
