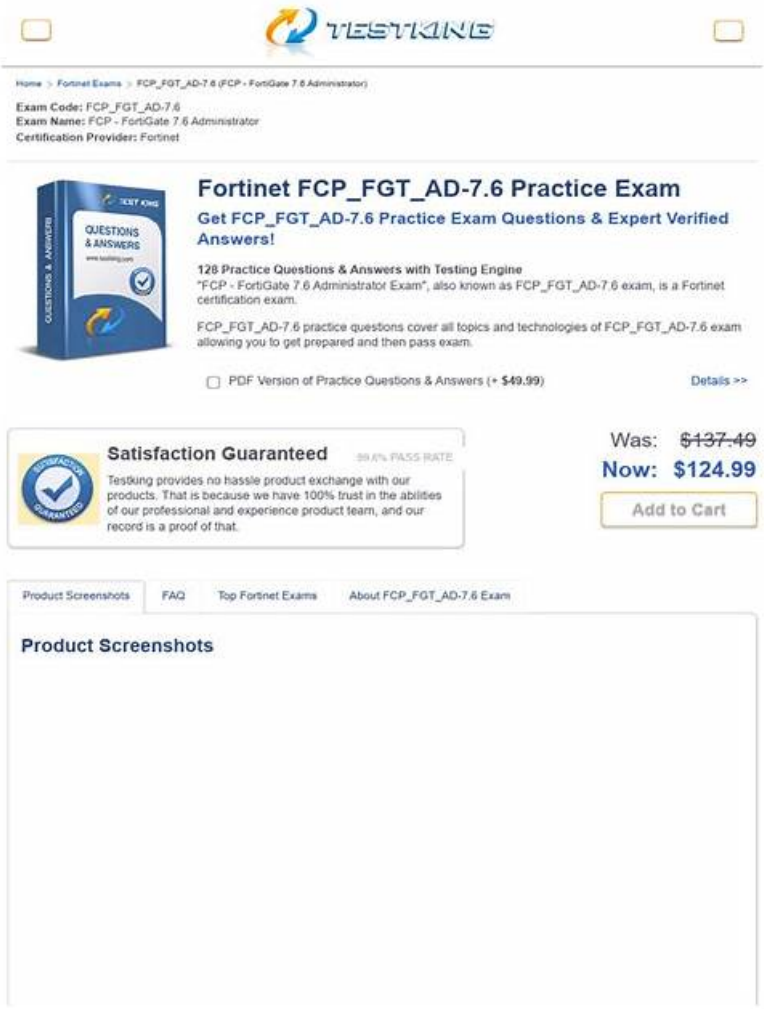
Test Fortinet FCP_FCT_AD-7.4 Guide - FCP_FCT_AD-7.4 Valid Exam Testking



P.S. Free & New FCP_FCT_AD-7.4 dumps are available on Google Drive shared by Fast2test: https://drive.google.com/open?id=1elzq9lsYOiHXmWA5KJI1-J7sheaUeWjm

Our FCP_FCT_AD-7.4 study materials can help you pass the exam faster and take the certificate you want. Then you will have one more chip to get a good job. Our FCP_FCT_AD-7.4 study materials allow you to stand at a higher starting point, pass the FCP_FCT_AD-7.4 exam one step faster than others, and take advantage of opportunities faster than others. You know, your time is very precious in this fast-paced society. If you only rely on one person's strength, it is difficult for you to gain an advantage. Our FCP_FCT_AD-7.4 learning questions will be your most satisfied assistant.

Fortinet FCP_FCT_AD-7.4 Exam Syllabus Topics:

Section	Objectives
FortiClient provisioning and deployment	- Deploy FortiClient on endpoint devices - Implement endpoint security - Configure endpoint profiles to provision endpoint devices
FortiClient EMS design and deployment	- Describe FortiClient EMS architecture, components, and deployment modes - Perform installation and configuration of FortiClient EMS
Zero trust and Security Fabric integration	- Configure Security Fabric integration - Set up quarantine for compromised endpoints - Implement zero trust network access for endpoints

Troubleshooting	- Resolve common deployment and configuration issues - Analyze diagnostic information to troubleshoot EMS and endpoint issues

FCP_FCT_AD-7.4 Valid Exam Testking - New FCP_FCT_AD-7.4 Dumps Files

The FCP_FCT_AD-7.4 training pdf provided by Fast2test is really the best reference material you can get from anywhere. The experts of Fast2test are trying their best to develop and research the high quality and FCP_FCT_AD-7.4 exam preparation material to help you strengthen technical job skills. When you complete your payment, you will receive an email attached with FCP_FCT_AD-7.4 practice pdf, then you can instantly download it and install on your phone or computer for study. The high efficiency preparation by FCP_FCT_AD-7.4 exam dumps can ensure you 100% pass with ease.

Fortinet FCP - FortiClient EMS 7.4 Administrator Sample Questions (Q57-Q62):

NEW QUESTION # 57
Exhibit.

```
1:40:39 PM    Information    Vulnerability   id=96521 msg="A vulnerability scan result has been logged" status=N/A vulncat="Operating
1:40:39 PM    Information    Vulnerability   id=96520 msg="The vulnerability scan status has changed" status="scanning finished" vulnc
1:41:38 PM    Information    ESNAC   id=96958 user=Admin msg="User social media information" social_srvc=os social_user=Admin
2:12:22 PM    Information    Config  id=96882 msg="Policy 'Default' was received and applied"
2:13:27 PM    Information    ESNAC   id=96958 user=Admin msg="User social media information" social_srvc=os social_user=Admin
2:14:32 PM    Information    ESNAC   id=96959 emshostname=WIN-EHVKBEA3S71 msg="Endpoint has AV whitelist engine version 6.00134 and si
2:14:54 PM    Information    Config  id=96882 msg="Policy 'Default' was received and applied"
2:16:01 PM    Information    ESNAC   id=96958 user=Admin msg="User social media information" social_srvc=os social_user=Admin
2:20:19 PM    Information    Config  id=96883 msg="Compliance rules 'default' were received and applied"
2:20:23 PM    Debug   ESNAC   PIPEMSG_CMD_ESNAC_STATUS_RELOAD_CONFIG
2:20:23 PM    Debug   ESNAC   cb828898d1ae56916f84cc7909a1eb1a
2:20:23 PM    Debug   ESNAC   Before Reload Config
2:20:23 PM    Debug   ESNAC   ReloadConfig
2:20:23 PM    Debug   Scheduler       stop_task() called
2:20:23 PM    Debug   Scheduler       GUI change event
2:20:23 PM    Debug   Scheduler       stop_task() called
2:20:23 PM    Information    Config  id=96882 msg="Policy 'Fortinet-Training' was received and applied"
2:20:23 PM    Debug   Config  'scan on registration' is disabled - delete 'on registration' vulnerability scan.
2:20:23 PM    Debug   Config  ImportConfig: tag <\forticlient_configuration\antiexploit\exclusion_applications> value is empty.
```

Based on the FortiClient logs shown in the exhibit, which endpoint profile policy is currently applied lo the ForliClient endpoint from the EMS server?

- A. Compliance rules default
- B. Default configuration policy c
- C. Default
- D. Fortinet-Training

Answer: D

Explanation:
* Observation of Logs:
* The logs show a policy named "Fortinet-Training" being applied to the endpoint.
* Evaluating Policies:
* The log entries indicate that the "Fortinet-Training" policy was received and applied.
* Conclusion:
* Based on the logs, the currently applied policy on the FortiClient endpoint is "Fortinet-Training".

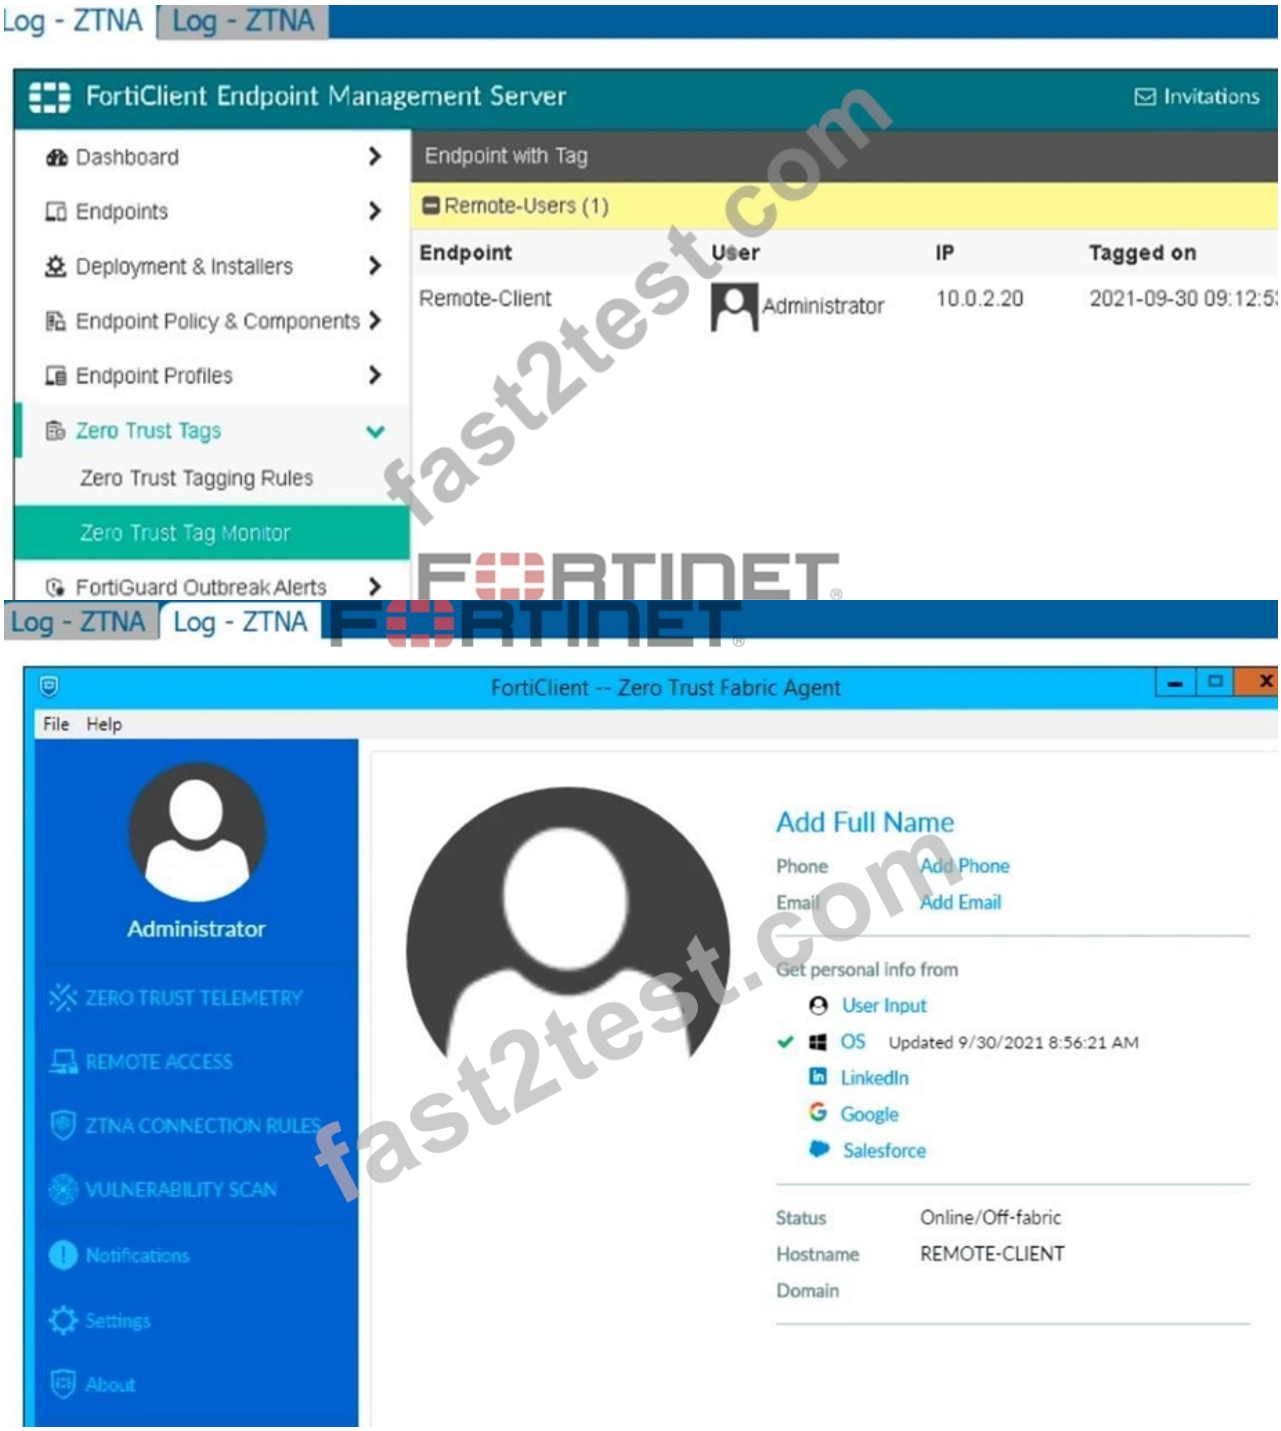
NEW QUESTION # 58
Refer to the exhibits. Which show the Zero Trust Tag Monitor and the FortiClient GUI status.
Remote-Client is tagged as Remote-Users on the FortiClient EMS Zero Trust Tag Monitor.
What must an administrator do to show the tag on the FortiClient GUI?



- A. Change the endpoint control setting to enable tag visibility
- B. Change the FortiClient system settings to enable tag visibility
- C. Change the user identity settings to enable tag visibility
- D. Update tagging rule logic to enable tag visibility

Answer: B

Explanation:
Based on the exhibits provided:
The "Remote-Client" is tagged as "Remote-Users" in the FortiClient EMS Zero Trust Tag Monitor.
To ensure that the tag "Remote-Users" is visible in the FortiClient GUI, the system settings within FortiClient need to be updated to enable tag visibility.
The tag visibility feature is controlled by FortiClient system settings which manage how tags are displayed in the GUI.
Therefore, the administrator needs to change the FortiClient system settings to enable tag visibility.

NEW QUESTION # 59
An administrator wants to simplify remote access without asking users to provide user credentials Which access control method provides this solution?

- A. SSL VPN
- B. L2TP
- C. ZTNA IP/MAC littering mode
- D. ZTNA full mode

Answer: D

Explanation:
* Simplifying Remote Access:
* The administrator wants to simplify remote access without asking users to provide user credentials.
* Evaluating Access Control Methods:
* ZTNA full mode can provide seamless access by leveraging device identity and posture, eliminating the need for user credentials for each access request.
* Other methods like SSL VPN and L2TP typically require user credentials.
* Conclusion:
* The correct access control method that provides this solution is ZTNA full mode.
References:
ZTNA section in the FortiGate Infrastructure 7.2 Study Guide.

NEW QUESTION # 60
A company must integrate the FortiClient EMS with their existing identity management infrastructure for user authentication, and implement and enforce administrative access with multi-factor authentication (MFA).
Which two authentication methods can they use in this scenario? (Choose two answers)

- A. LDAPS
- B. RADIUS
- C. TACACS
- D. SAML

Answer: B,D

Explanation:
According to theFortiClient EMS 7.4 Administration Guide, for an organization to integrate with an identity management infrastructure while enforcing administrative access with Multi-Factor Authentication (MFA), the primary supported methods for remote administrator authentication areRADIUSandSAML.
1. RADIUS (Answer B)
* Identity Integration:FortiClient EMS allows administrators to addRADIUS serversas an authentication source under theAdministration > Authentication Serverssection.
* MFA Support:RADIUS is a standard protocol for enforcing MFA. In this scenario, FortiClient EMS acts as a RADIUS client to an external MFA provider (such as FortiAuthenticator, RSA Authentication Manager, or Duo).
* Workflow:When an administrator attempts to log in to the EMS console, EMS sends an Access- Request to the RADIUS server. If the provider requires MFA, it can challenge the user (via push notification or token code) before sending an Access-Accept back to EMS.
2. SAML (Answer D)
* Modern Identity Management:SAML (Security Assertion Markup Language) is the preferred method for integrating with modern cloud and on-premises Identity Providers (IdPs) likeMicrosoft Entra ID (formerly Azure AD),Okta,AD FS, orFortiAuthenticator.
* Native MFA Enforcement:By using SAML SSO, the authentication and MFA process are handled entirely by the IdP. The EMS server acts as the Service Provider (SP). When an admin logs in, they are redirected to the IdP, where the company's existing MFA policies (Conditional Access, etc.) are enforced before the user is granted access back to the EMS console.
* EMS Configuration:The curriculum details specific SAML SSO configurations for various IdPs under theSAML SSOsection of the Administration Guide.
3. Why Other Options are Incorrect/Insufficient
* A. LDAPS:While FortiClient EMS supports importing users fromActive Directory (ADDS)via LDAP /LDAPS for endpoint management and basic admin login, standard LDAPS does not natively support or enforce an MFA challenge-response workflow in the same integrated way that RADIUS or SAML does for administrative console access.
* C. TACACS:TACACS+ is primarily used for device administration on networking equipment (like FortiGate) and is not a listed

or standard method for administrative authentication within the FortiClient EMS software documentation.

NEW QUESTION # 61
An administrator deploys a FortiClient installation through the Microsoft AD group policy After installation is complete all the custom configuration is missing.
What could have caused this problem?

- A. FortiClient does not have permission to access the distribution package.
- B. The FortiClient exe file is included in the distribution package
- C. The FortiClient MST file is missing from the distribution package
- D. The FortiClient package is not assigned to the group

Answer: D

Explanation:
When deploying FortiClient via Microsoft AD Group Policy, it is essential to ensure that the deployment package is correctly assigned to the target group. The absence of custom configuration after installation can be due to several reasons, but the most likely cause is:
* Deployment Package Assignment:The FortiClient package must be assigned to the appropriate group in Group Policy Management. If this step is missed, the installation may proceed, but the custom configurations will not be applied.
Thus, the administrator must ensure that the FortiClient package is correctly assigned to the group to include all custom configurations.

NEW QUESTION # 62
.....

Our FCP_FCT_AD-7.4 learning materials were developed based on this market demand. More and more people are aware of the importance of obtaining a certificate. There are more and more users of FCP_FCT_AD-7.4 practice guide. Our products can do so well, the most important thing is that the quality of FCP_FCT_AD-7.4exam questions is very good, and can be continuously improved according to market demand. And you can look at the data on our website, the hot hit of our FCP_FCT_AD-7.4 training guide can prove how popular it is!
