# The Open Group TOGAF Business Architecture Foundation Exam Sample Questions (Q76-Q81):

**NEW QUESTION # 76**
Consider the following statements;
1. A whole corporation or a division of a corporation
2. A government agency or a single government department
3. Partnerships and alliances of businesses working together, such as a consortium or supply chain What are those examples of according to the TOGAF Standard?

- A. Organizations
- B. Business Units
- C. Enterprises
- D. Architectures Scopes

**Answer: C**

Explanation:
According to the TOGAF Standard, an enterprise is defined as any collection of organizations that has a common set of goals and/or a single bottom line1. The examples given in the question are all types of enterprises that can be the subject of enterprise architecture1.

**NEW QUESTION # 77**
Consider the following business capability map. where cells of a model are given different colors to represent maturity levels (note the letters G, R. Y. P also denote the colors used = Green, Red. Yellow and Purple):
Which of the following best describes this technique?

- A. Gap Analysis
- B. Capability Mapping
- C. Heat Mapping

- D. Perspective Analysis

**Answer: C**

Explanation:
The technique shown in the example is called heat mapping. It is a technique that can be used to show a range of different perspectives on a business capability map, such as maturity, effectiveness, performance, and value or cost contribution of each capability to the business2. Different attributes determine the colors of each capability on the business capability map. Heat mapping can help to identify strengths, weaknesses, opportunities, and threats in the business architecture.

**NEW QUESTION # 78**
Complete the following sentence:
Presenting different _____ and _____ to stakeholders helps architects to extract hidden agendas, principles, and requirements that could impact the final Target Architecture.

- A. Solutions, Applications
- B. Architecture Views, Architecture Viewpoints
- C. Alternatives, Trade-offs
- D. Business Scenarios, Business Models

**Answer: B**

Explanation:
Presenting differentalternatives and trade-offsto stakeholders is a crucial technique in TOGAF for eliciting valuable feedback and refining the Target Architecture. This approach encourages stakeholders to actively participate in the architecture development process and express their preferences and concerns.
Here's why this approach is effective:
* Reveals hidden agendas:By presenting different options with varying implications, stakeholders may reveal priorities or concerns that were not explicitly stated before. This helps architects uncover hidden agendas that could influence the architecture's success.
* Uncovers underlying principles:Stakeholder reactions to different alternatives can reveal their underlying principles and values, providing insights into what they consider important in the architecture.
* Identifies unspoken requirements:Through discussions and comparisons of alternatives, stakeholders may express needs or requirements that were not captured during initial requirements gathering.

**NEW QUESTION # 79**
Which of the following is a benefit of information mapping?

- A. It provides a basis to support decision-making throughout the business.
- B. It enables improved business process integration.
- C. It highlights information requirements not addressed by a business architecture.
- D. It provides a framework for effective business requirements analysis.

**Answer: A**

Explanation:
One of the benefits of information mapping is that it provides a basis to support decision-making throughout the business1. Information mapping is a technique that can be used to document and visualize the information concepts and their relationships that are relevant for the business1. Information mapping can help to identify the information needs, sources, flows, quality, and value of the business, as well as the gaps, issues, and opportunities for improvement1. By providing a clear and consistent view of the information landscape, information mapping can enable better informed and more effective decisions at all levels of the business.

**NEW QUESTION # 80**
Which of the following best describes where business scenarios are used in the TOGAF ADM?

- A. They are used as part of the lessons learned activity at the end of Phase F.
- B. They are used as part of a business transformation readiness assessment in Phase E.
- C. They are used to resolve impacts across the Architecture Landscape in Phases B, C, and D.
- D. They are used in the Preliminary Phase, Phase A, and Phase B.

**Answer: D**

Explanation:
According to the TOGAF Standard, business scenarios are an important technique that may be used at various stages of the enterprise architecture, principally the Architecture Vision and the Business Architecture, but in other architecture domains as well, if required, to derive the characteristics of the architecture directly from the high-level requirements of the business1. The Architecture Vision is developed in Phase A, and the Business Architecture is developed in Phase B. The Preliminary Phase is also a stage where business scenarios can be used to help identify and understand business needs2.
