Juniper JN0-1103 Exam Questions In 3 User-Friendly Formats

Even though our JN0-1103 training materials have received quick sale all around the world, in order to help as many candidates for the exam as possible to pass the exam and get the related certification at their first try, we still keep the most favorable price for our best JN0-1103 test prep. In addition, if you keep a close eye on our website you will find that we will provide discount in some important festivals, we can assure you that you can use the least amount of money to buy the best product in here. We aim at providing the best JN0-1103 Exam Engine for our customers and at trying our best to get your satisfaction.

Juniper JN0-1103 Exam Syllabus Topics:

Topic	Details
Topic 1	• Securing the Network: This section of the exam measures the skills of Security Architects and covers essential security design principles. It encompasses general security considerations, strategies for securing data centers and campus WANs, and the implementation of zero-trust security models. Additionally, it delves into Secure Access Service Edge (SASE) frameworks to enhance network security posture.

Topic 2	• Network Management or Reliability: This section of the exam measures skills of Network Operations Center (NOC) Engineers and covers design considerations for ensuring business continuity. Topics include high-resiliency design, implementing link and device-level redundancy, and utilizing technologies like Multihomed Ethernet Segment Identifier Link Aggregation Groups (ESI LAGs) and virtual chassis. The section also explores Juniper SRX firewall redundancy and best practices for campus network redundancy.
Topic 3	• Customer Network Design Requirements: This section of the exam measures skills of Network Design Engineers and covers the foundational aspects of network design. It includes understanding Juniper's life-cycle service approach, defining proposal boundaries, and considerations for both greenfield and brownfield deployments. The section also addresses top-down network design methodologies and capacity planning to ensure scalable and efficient network infrastructures.
Topic 4	• Campus and Branch LAN Design: This section of the exam measures skills of LAN Infrastructure Specialists and covers considerations for designing wired campus or branch LANs. It addresses best practices in campus LAN design, modular design approaches, subnet and VLAN planning, and access control mechanisms. The section also introduces Ethernet VPN-Virtual Extensible LAN (EVPN-VXLAN) architectures and discusses campus oversubscription ratios and design architectures.
Topic 5	• Campus and Branch WAN Design: This section of the exam measures skills of WAN Solutions Architects and covers considerations for designing campus or branch WANs. It includes understanding WAN connectivity functions, best practices for WAN design, performance optimization, VPN design, and implementing high availability through active • active and active • passive configurations. The section also explores Software-Defined WAN (SD-WAN) design considerations, devices, assurance models, and intersite connectivity.

JN0-1103 Discount, Latest JN0-1103 Exam Review

Before the clients buy our JN0-1103 guide prep they can have a free download and tryout before they pay for it. The client can visit the website pages of our exam products and understand our JN0-1103 study materials in detail. You can see the demo, the form of the software and part of our titles. As the demos of our JN0-1103 Practice Engine is a small part of the questions and answers, they can show the quality and validity. Once you free download the demos, you will find our exam questions are always the latest and best.

Juniper Design - Associate (JNCIA-Design) Sample Questions (Q107-Q112):

NEW QUESTION # 107
Which two statements are true in regards to the Know Your Network step of business continuity planning? (Choose two.)

- A. You should perform a risk assessment.
- B. You should list all the functions and services in the network.
- C. You should develop a plan of action to mitigate the risks.
- D. You should perform a business impact analysis.

Answer: B,D

NEW QUESTION # 108
Your customer has deployed Juniper devices and network devices from other vendors in their network. They would like you to propose a data correlation and logging solution that will work with Juniper devices, as well as the network devices from the other vendors in their network.
Which solution would you propose in this situation?

- A. Security Director: Logging and Reporting

- B. Contrail Cloud
- C. Juniper Secure Analytics
- D. Connectivity Services Director

Answer: C

NEW QUESTION # 109
Which two statements are true regarding chassis clustering? (Choose two.)

- A. The chassis cluster uses a fabric link between the two nodes.
- B. The chassis cluster nodes can be located in different cities.
- C. The chassis cluster nodes must be within 10 feet of each other.
- D. The chassis cluster uses an FXP10 link between the two nodes.

Answer: A,B

NEW QUESTION # 110
Which two statements properly describe Junos commit scripts? (Choose two.)

- A. Junos commit scripts can enforce custom configuration rules.
- B. When a candidate configuration is committed, only the first active commit script is used.
- C. When a candidate configuration is committed, all active commit scripts are used.
- D. Junos commit scripts cannot enforce custom configuration rules.

Answer: A,C

NEW QUESTION # 111
Your customer is engaged in healthcare service support.
What are two considerations when designing their network? (Choose two.)

- A. support for time stamping of data transfers
- B. number of PoE switch ports
- C. control of access to sensitive information
- D. secure control of access to network components

Answer: C,D

NEW QUESTION # 112
......

Do not hesitate to seek our extraordinary Juniper JN0-1103 practice material to make a name in the field of Technology. TrainingDump has designed the Juniper JN0-1103 product in three formats. You will find their specifications below to comprehend them better.
