## PCNSE Practice Exam #2

What is the last step of packet processing in the firewall?

check allowed ports

check Security Profiles

check Security policy

forwarding lookup

**Check Security Profiles**

Which interface type requires you to configure where the next hop is for various addresses?

tap

virtual wire

Layer 2

Layer 3

**Layer 3**

How do you enable the firewall to be managed through a data-plane interface?

You specify Web UI in the interface properties.

You specify Management in the interface properties.

You specify HTTPS in the Interface Management Profile, and then specify in the interface properties to use that profile.

You specify Management in the Interface Management Profile, and then specify in the interface properties to use that profile.

**You specify HTTPS in the Interface Management Profile, and then specify in the interface properties to use that profile.**

Some devices managed by Panorama have their external interface on ethernet1/1, some on ethernet1/2. However, the zone definitions for the external zone are identical. What is the recommended solution in this case?

Create two templates: one for the ethernet1/1 devices, one for the ethernet1/2 devices. Use the same external zone definitions in both. Apply those two templates to the appropriate devices.

Create three templates: one for the ethernet1/1 devices, one for the ethernet1/2 devices, and one with the external zone definitions. Use those templates to create two template stacks, one with the ethernet1/1 and external zone, another with the

Our PCNSE study materials are easy to be mastered and boost varied functions. We compile Our PCNSE preparation questions elaborately and provide the wonderful service to you thus you can get a good learning and preparation for the PCNSE exam. Now there are introduces on the web for you to know the characteristics and functions of our PCNSE Training Materials in detail. And we also have free demo on the web for you to have a try on our PCNSE exam questions. You will be touched by our great quality of PCNSE study guide.

The PCNSE certification exam is designed for security professionals with at least two years of experience in network security and a solid understanding of TCP/IP networking, routing, and switching. Candidates for the certification exam should have experience in designing, implementing, and managing firewalls, intrusion prevention systems, and other security technologies. Candidates should also have experience with network security concepts, including network segmentation, virtual private networks (VPNs), and secure access.

## Target Audience and Prerequisites

The candidates for the PCNSE Certification should have at least three to five years of practice work experience in the security or networking industries. They also need to possess at least six to twelve months of experience in configuring and deploying Palo Alto Networks NGFW in the product portfolio of Palo Alto Networks. The students for the qualifying exam should also have a good understanding of the technologies available in Palo Alto Networks, including value-added resellers, system integrators, support staff, pre-sales system engineers, and Palo Alto Networks products users.

## Quiz 2026 Palo Alto Networks Standard PCNSE Answers

PCNSE practice questions are stable and reliable exam questions provider for person who need them for their exam. We have been staying and growing in the market for a long time, and we will be here all the time, because the excellent quality and high pass rate of our PCNSE training braindump. As for the safe environment and effective product, there are thousands of candidates are willing to choose our PCNSE study guide, why don't you have a try for our PCNSE study material, never let you down!

### Palo Alto Networks Certified Network Security Engineer Exam Sample Questions (Q214-Q219):

#### NEW QUESTION # 214

A firewall engineer creates a new App-ID report under Monitor > Reports > Application Reports > New Applications to monitor new applications on the network and better assess any Security policy updates the engineer might want to make. How does the firewall identify the New App-ID characteristic?

- A. It matches to the New App-IDs downloaded in the last 90 days.
- **B. It matches to the New App-IDs in the most recently installed content releases.**
- C. It matches to the New App-IDs downloaded in the last 30 days.
- D. It matches to the New App-IDs installed since the last time the firewall was rebooted.

**Answer: B**

Explanation:

The New App-ID characteristic enables the firewall to monitor new applications on the network, so that the engineer can better assess the security policy updates they might want to make. The New App-ID characteristic always matches to only the new App-IDs in the most recently installed content releases. When a new content release is installed, the New App-ID characteristic automatically begins to match only to the new App-IDs in that content release version. This way, the engineer can see how the newly-categorized applications might impact security policy enforcement and make any necessary adjustments. Reference: Monitor New App-IDs

#### NEW QUESTION # 215

Review the images. A firewall policy that permits web traffic includes the following:

NAME	LOG TYPE	FILTER	FORWARD METHOD	BUILT-IN ACTIONS
<input checked="" type="checkbox"/> Alert - Threats	threat	(addr.src notin '192.168.0.0/16') and (severity geq medium)	Email • smtp	Tagging • BlockBadGuys
<input type="checkbox"/> Alerts - WF-malicious	wildfire	(verdict eq malicious)	Email • smtp	Tagging • WF-BlockBadGuys
<input type="checkbox"/> Decryption	decryption	All Logs	• Panorama/Cortex Data Lake	
<input type="checkbox"/> PANO-auth	auth	All Logs	• Panorama/Cortex Data Lake	
<input type="checkbox"/> PANO-data	data	All Logs	• Panorama/Cortex Data Lake	
<input type="checkbox"/> PANO-threat	threat	All Logs	• Panorama/Cortex Data Lake	

What is the result of traffic that matches the "Alert - Threats" Profile Match List?

- A. The source address of traffic that matches a threat is automatically tagged as BadGuys for 180 minutes.
- B. The source address of traffic that matches a threat is automatically blocked as BadGuys for 180 minutes.
- C. The source address of SMTP traffic that matches a threat is automatically blocked as BadGuys for 180 minutes.
- D. The source address of SMTP traffic that matches a threat is automatically tagged as BadGuys for 180 minutes.

**Answer: A**

Explanation:

The source is being tagged with the tag for 180 min.

#### NEW QUESTION # 216

Which URL Filtering Security Profile action tags the URL Filtering category to the URL Filtering log?

- A. Alert
- B. Default
- C. Allow
- D. Log

**Answer: A**

#### NEW QUESTION # 217

A company.com wants to enable Application Override. Given the following screenshot:

Which two statements are true if Source and Destination traffic match the Application Override policy?

(Choose two)

- A. Traffic utilizing UDP Port 16384 will bypass the App-ID and Content-ID engines.
- **B. Traffic that matches "ntp-base" will bypass the App-ID and Content-ID engines.**
- C. Traffic will be forced to operate over UDP Port 16384.
- **D. Traffic utilizing UDP Port 16384 will now be identified as "ntp-base".**

**Answer: B,D**

#### NEW QUESTION # 218

A critical US-CERT notification is published regarding a newly discovered botnet. The malware is very evasive and is not reliably detected by endpoint antivirus software.

Furthermore, SSL is used to tunnel malicious traffic to command-and-control servers on the internet and SSL Forward Proxy Decryption is not enabled.

Which component once enabled on a perimeter firewall will allow the identification of existing infected hosts in an environment?

- **A. Anti-Spyware profiles applied outbound security policies with DNS Query action set to sinkhole**
- B. Vulnerability Protection profiles applied to outbound security policies with action set to block
- C. File Blocking profiles applied to outbound security policies with action set to alert
- D. Antivirus profiles applied to outbound security policies with action set to alert

**Answer: A**

#### NEW QUESTION # 219

.....

It is known to us that time is money, and all people hope that they can spend less time on the pass. We are happy to tell you that The PCNSE study materials from our company will help you save time. With meticulous care design, our study materials will help all customers pass their exam in a shortest time. If you buy the PCNSE Study Materials from our company, you just need to spend less than 30 hours on preparing for your exam, and then you can start to take the exam.
