

100% Pass Quiz 2026 Juniper JN0-253 Newest VCE Dumps

P.S. Free 2026 Juniper JN0-253 dumps are available on Google Drive shared by Itbraindumps: <https://drive.google.com/open?id=1iT3y4sWcNnD-0v0B0jfbDtvthhKXF1zF>

It is time for you to plan your life carefully. After all, you have to make money by yourself. If you want to find a desirable job, you must rely on your ability to get the job. Now, our JN0-253 study materials will help you master the popular skills in the office. Believe it or not, our JN0-253 Study Materials will relieve you from poverty. It is important to make large amounts of money in modern society.

We have professional technicians examine the website every day, and if you purchase Mist AI, Associate (JNCIA-MistAI) JN0-253 Learning Materials from us, we can offer you a clean and safe online shopping environment, and if you indeed meet any questions in the process of buying, you can contact us, our technicians will solve the problem for you.

New Juniper JN0-253 Dumps Free & JN0-253 Valid Exam Preparation

All formats of Itbraindumps's products are immediately usable after purchase. We also offer up to 365 days of free updates so you can prepare as per the Juniper JN0-253 Latest Exam content. Itbraindumps offers a free demo version of the Juniper Certification Exams so that you can assess the validity of the product before purchasing it.

Juniper JN0-253 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Marvis Virtual Network Assistant AI: This domain introduces Marvis, an AI-powered assistant providing automated troubleshooting through intelligent actions, natural language queries, and specialized analytical tools for proactive issue resolution.

Topic 2	<ul style="list-style-type: none"> Juniper Mist Cloud Fundamentals: This domain covers Juniper's cloud-native platform architecture, focusing on AI and machine learning capabilities for intelligent network management and real-world deployment scenarios.
Topic 3	<ul style="list-style-type: none"> Juniper Mist Configuration Basics: This domain addresses initial setup including user accounts, device onboarding, organizational structures, subscription licensing, certificate management, and automated provisioning with labels and policies.
Topic 4	<ul style="list-style-type: none"> Juniper Mist Cloud Operations: This domain covers three API types (RESTful, WebSocket, Webhook) for programmatic integration, plus support resources including ticketing systems and documentation.
Topic 5	<ul style="list-style-type: none"> Location-based Services: This domain presents virtual Bluetooth Low Energy capabilities for asset tracking, visibility, and location-aware experiences that extend networking into physical space management.

Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which three components are used to deploy location-based services? (Choose three.)

- A. BLE tags
- B. location sensors
- C. SFP
- D. location engine
- E. compact flash

Answer: A,B,D

Explanation:

To deploy location-based services in Mist, the following components are used:

Location Sensors: These devices capture the location data from BLE tags and other devices.

BLE Tags: These are small devices that emit Bluetooth signals to be picked up by location sensors.

Location Engine: This software processes the data from the sensors and tags to determine precise locations and provide analytics.

NEW QUESTION # 12

Which Juniper Mist dashboard feature uses the ROAMINGOF element?

- A. Conversational Assistant
- B. Marvis Query Language
- C. Marvis Minis
- D. Wireless SLE

Answer: B

Explanation:

The ROAMINGOF element is part of the Marvis Query Language (MQL), which is the structured query syntax used by Marvis, Juniper's Virtual Network Assistant (VNA).

According to the Juniper Mist Marvis and MQL Technical Reference, Marvis Query Language provides advanced data query and automation capabilities that go beyond the conversational interface. It allows administrators to directly extract analytical insights, run network diagnostics, and perform queries related to user experience metrics and Service Level Expectations (SLEs).

The documentation specifies:

"MQL is the analytical engine of Marvis that uses elements such as ROAMINGOF, CONNECTIVITYOF, and PERFORMANCEOF to query Mist data and retrieve SLE metrics, performance trends, and device events."

The ROAMINGOF element specifically relates to the Wireless Roaming SLE category, enabling Marvis to evaluate client roaming performance across access points, identify failed transitions, and correlate signal quality or capacity-related issues.

While the Conversational Assistant (A) uses natural language queries, it translates them internally into MQL commands. Marvis Minis (C) runs synthetic tests, and Wireless SLE (D) displays performance metrics but does not directly use MQL syntax elements.

Thus, the correct answer is B. Marvis Query Language.

NEW QUESTION # 13

Which statement describes Juniper Mist Insights in the dashboard?

- A. It provides a high-level view of the network events that occurred over the last year.
- **B. It provides a high-level view of the network experience across an entire site or device types.**
- C. It provides a high-level view of the network events that occurred over the last month.
- D. It provides AI-driven actions that are the most urgent and require priority attention.

Answer: B

Explanation:

Juniper Mist Insights in the dashboard provides a high-level view of the network experience across an entire site or device types. According to the official Juniper Mist documentation: "The Mist Insights page provides a quick overview into your clients' network experience for anywhere in the stack, be it Wireless, Wired, or WAN networks. Insights gives an overview of network experience across the entire site, access points, or client devices." This feature enables administrators to analyze overall connection status, traffic patterns, latency, and trends at multiple context levels—for the whole site, for specific devices, or for client segments. This holistic overview helps identify patterns and assess the health of network operations, empowering proactive management and troubleshooting. Review periods can range from minutes to days, depending on the dashboard section and the organization's licensing.

NEW QUESTION # 14

What are two components of WiFi Management and Assurance? (Choose two.)

- **A. Dynamic Packet Capture**
- **B. Radio Resource Management**
- C. wayfinding
- D. Marvis Actions

Answer: A,B

Explanation:

Dynamic Packet Capture and Radio Resource Management (RRM) are two key components of WiFi Management and Assurance in Juniper Mist. According to official documentation: "Dynamic packet capture allows capturing wireless packets between clients and an access point to diagnose root-cause wireless issues.

For example, when a major issue is detected, such as an authorization failure, packet captures facilitate quick troubleshooting and root-cause analysis." RRM, driven by Mist's AI, proactively analyzes network conditions and client experiences to automatically adjust channel and power settings for optimal performance: "AI- driven RRM uses data science and cumulative SLE performance to learn and optimize radio settings, helping RF planning to continue to improve and adapt in the changing environments..." Marvis Actions is an AI-powered troubleshooting feature, but it is a separate component enabled by the Marvis subscription, not by base WiFi Management and Assurance. Wayfinding is part of the vBLE Engagement or location services.

NEW QUESTION # 15

Using the Mist UI, where do you look for high priority end-user issues on the network?

- A. Occupancy Analytics
- B. Premium Analytics
- C. Network Analytics
- **D. Marvis Actions**

Answer: D

NEW QUESTION # 16

.....

Time is flying and the exam date is coming along, which is sort of intimidating considering your status of review process. The more efficient the materials you get, the higher standard you will be among competitors. So, high quality and high accuracy rate JN0-253 practice materials are your ideal choice this time. By adding all important points into JN0-253 practice materials with attached services supporting your access of the newest and trendiest knowledge, our JN0-253 practice materials are quite suitable for you right now.
