

# 2026 Test Mule-101 Cram Pdf | Trustable 100% Free Valid Mule-101 Exam Syllabus

**Fill-in-the-Blanks**

1. Ants "milk" \_\_\_\_\_ from the aphids they tend.
2. Some ants and mealybugs migrate in fall from plants to the \_\_\_\_\_.
3. Swordfish attack prey with their \_\_\_\_\_.
4. The Arctic has days of no sunlight during the \_\_\_\_\_.
5. Narwhals obtain oxygen in winter through \_\_\_\_\_ in the \_\_\_\_\_.
6. The narwhal's tusk is its left \_\_\_\_\_ tooth.
7. A Long-Eared Owl has \_\_\_\_\_ ear tufts than a Great Horned Owl.
8. The Great Square of \_\_\_\_\_ is near the Andromeda Galaxy.
9. Jack-in-the-\_\_\_\_\_ is a wildflower.
10. A small portion of Pluto's orbit is inside the orbit of \_\_\_\_\_.

**True and False**

1. \_\_\_\_\_ Ants are a favorite food of spiders.
2. \_\_\_\_\_ Ant nests may contain a variety of insects.
3. \_\_\_\_\_ Sailfish sometimes hunt cooperatively.
4. \_\_\_\_\_ Narwhals migrate south to warmer waters in autumn.
5. \_\_\_\_\_ Narwhals are silent creatures.
6. \_\_\_\_\_ Long-Eared Owls often roost near tree trunks.
7. \_\_\_\_\_ In the winter, marmots eat food they have stored.

**For You to Research**

1. What is a succulent plant?
2. In the Trifid Nebula, what causes the blue color and what causes the magenta color?
3. Why does the moon look red during a total lunar eclipse?
4. What is a supermoon?

JANUARY 2024 PREMIUM EDITION STUDY GUIDE

PE 3

There are thousands of customers have passed their Mule-101 exam successfully and get the related certification. After that, all of their Mule-101 exam torrents were purchase on our website. In addition to the industry trends, the Mule-101 test guide is written by lots of past materials' rigorous analyses. The language of our Mule-101 Study Materials are easy to be understood, only with strict study, we write the latest and the specialized Mule-101 study materials. We want to provide you with the best service and hope you can be satisfied.

Exam candidates grow as the coming of the exam. Most of them have little ideas about how to deal with it. Or think of it as a time-consuming, tiring and challenging task to cope with Mule-101 exam questions. So this challenge terrifies many people. Perplexed by the issue right now like others? Actually, your anxiety is natural, to ease your natural fear of the Mule-101 Exam, we provide you our Mule-101 study materials an opportunity to integrate your knowledge and skills to fix this problem.

## Valid Mule-101 Exam Syllabus, Mule-101 Valid Test Testking

The more you practice with our Mule-101 simulating exam, the more compelling you may feel. Even if you are lack of time, these Mule-101 practice materials can speed up your pace of review. Our Mule-101 guide questions are motivating materials especially suitable for those exam candidates who are eager to pass the exam with efficiency. And we can claim that with our Mule-101 study braindumps for 20 to 30 hours, you will be bound to pass the exam.

## Salesforce Certified MuleSoft Integration Foundations Sample Questions

## (Q32-Q37):

### NEW QUESTION # 32

According to MuleSoft, what action should an IT organization take regarding its technology assets in order to close the IT delivery gap?

- A. Focus project delivery efforts on custom assets that meet the specific requirements of each individual line of business
- B. Create weekly meetings that all members of IT attend to present justification and request approval to use existing assets
- C. Hire additional staff to meet the demand for asset creation required for approved projects and timelines
- D. Make assets easily discoverable via a central repository

### Answer: D

Explanation:

The Key to Speed: You cannot close the delivery gap by working harder (hiring more staff) or by creating custom code for every project (custom assets). You must leverage Reuse.

Discoverability is Critical: Reuse is impossible if developers don't know that an asset exists.

Anypoint Exchange: By publishing assets (APIs, connectors, fragments) to a central repository (Exchange) and making them searchable and documented, organizations enable "Self-Service." Developers can find what they need instantly, drastically reducing the time to deliver new projects.

### NEW QUESTION # 33

An organization's IT team must secure all of the internal APIs within an integration solution by using an API proxy to apply required authentication and authorization policies.

- A. Robotic Process Automation (RPA)
- B. Integration Platform-as-a-Service (IPaaS)
- C. API Management (APIM)
- D. Electronic Data Interchange (EDI)

### Answer: C

Explanation:

API Management (APIM): This category of software capability focuses on the Governance, Security, and Lifecycle of APIs. 7 The Role of the Proxy: In MuleSoft's API Manager (the APIM component), you create an API Proxy. This proxy sits in front of the backend API implementation. It intercepts incoming requests, checks security policies (like Client ID enforcement or OAuth 2.0), and only forwards valid requests to the backend.

Why others are incorrect:

iPaaS: Refers to the integration/building platform (connecting systems), though modern platforms like Anypoint combine both iPaaS and APIM. The specific act of securing via proxy is an APIM function.

EDI: Standard for B2B document exchange (like Purchase Orders).

RPA: Automating manual tasks on UI screens.

### NEW QUESTION # 34

What is a defining characteristic of an Integration-Platform-as-a-Service (IPaaS)?

- A. Cloud-based
- B. Code-first
- C. On-premises
- D. No-code

### Answer: A

Explanation:

Definition of iPaaS: Gartner and MuleSoft define iPaaS (Integration Platform as a Service) as a suite of cloud services enabling the development, execution, and governance of integration flows connecting any combination of on-premises and cloud-based processes, services, applications, and data within individual or across multiple organizations.

The Key Characteristic: The "as a Service" suffix explicitly denotes a Cloud-based delivery model.

MuleSoft Context: CloudHub is the iPaaS component of the Anypoint Platform. It is a fully managed, multi-tenant, cloud-based

integration platform where you deploy API implementations without managing the underlying hardware.

### NEW QUESTION # 35

A key CI/CD capability of any enterprise solution is a testing framework to write and run repeatable tests.

- A. Anypoint CLI
- B. Exchange Mocking Service
- C. Mule Maven Plugin
- D. **MUnit**

#### Answer: D

Explanation:

MUnit: This is the exclusive application testing framework for Mule4. It allows developers to build automated tests for their APIs and integrations.

CI/CD Integration: MUnit is designed to run as part of the continuous integration (CI) pipeline (usually executed via the Mule Maven Plugin during the build phase). If the MUnit tests fail, the build fails, preventing faulty code from deploying to production.

Why others are incorrect:

Exchange Mocking Service: Simulates an API based on RAML for design validation, not for testing the actual implementation logic.

Mule Maven Plugin: The tool that executes the build/deploy, but MUnit is the framework that writes/runs the tests.

### NEW QUESTION # 36

An integration team uses Anypoint Platform and follows MuleSoft's recommended approach to full lifecycle API development. Which step should the team's API designer take before the API developers implement the API specification?

- A. Use the scaffolding capability of Anypoint Studio to create an API portal based on the API specification
- B. **Publish the API specification to Exchange and solicit feedback from the API's consumers**
- C. Generate test cases using MUnit so the API developers can observe the results of running the API
- D. Use API Manager to version the API specification

#### Answer: B

Explanation:

Design-First Feedback Loop: In the MuleSoft API Lifecycle, after designing the API specification (RAML/OAS) in Design Center, the critical next step is to Publish to Exchange3.

Mocking & Validation: Once in Exchange, the API creates a "Mocking Service." This allows potential consumers (frontend devs, mobile devs) to make test calls against the design before any backend code is written.

Purpose: This solicits feedback to ensure the design meets business needs. If changes are needed, they are made to the spec cheap and fast, rather than rewriting complex code later (Implementation phase).

### NEW QUESTION # 37

.....

Our Mule-101 study materials are famous for instant download, and if you want to start practicing as quickly as possible, you can have a try. After purchasing Mule-101 exam dumps , you will receive the downloading link and password within ten minutes, and if you don't receive, just contact us. In addition, Mule-101 Exam Dumps are high-quality, and they can ensure you pass the exam just one time. We also pass guarantee and money back guarantee if you fail to pass the exam, and money will be returned to your payment account.
