NEW QUESTION # 55

A healthcare IT provider is planning to launch a new digital appointment system. According to 'Focus on value', what should the organization do first?

- A. Evaluate the risks and financial consequences for the consumers
- B. Understand why patients use the appointment service
- C. Identify who the service consumers and key stakeholders are
- D. Analyze how the system will help patients achieve their goals

Answer: C

Explanation:

The principle 'Focus on value' begins with identifying who the service consumers and key stakeholders are, as understanding who is involved is essential before determining what value means and how it can be created for them.

NEW QUESTION # 56

What ensures that a service provider and a service consumer continually co-create value?

- A. Change enablement
- B. Service consumption
- C. Service offerings
- **D. Service relationship management**

Answer: D

Explanation:

A service relationship is defined as the cooperation between a service provider and service consumer. Service relationships are established between two or more organizations to co-create value. An organization can play the role of provider or consumer interchangeably, depending on the situation.
