- **D. Resolved**
- E. Approve

Answer: A,C,D

Explanation:

In the My Situations app, employees can dismiss situation messages by selecting specific reasons that reflect the status or resolution of the issue. Below are the three correct reasons:

* Invalid (Option A): Employees can mark a situation message as "Invalid" if it does not apply to their context or is not relevant. This reason helps filter out irrelevant notifications. The SAP My Situations App Guide confirms this option.

* Resolved (Option D): If the issue described in the situation message has been addressed or fixed, employees can mark it as "Resolved." This indicates that no further action is needed. The same SAP My Situations App Guide documents this functionality.

* Obsolete (Option E): Employees can mark a situation message as "Obsolete" if it is outdated or no longer applicable due to changes in the business process or system. The SAP My Situations App Guide lists this as a valid dismissal reason.

* B. Approve: "Approve" is not a valid reason for dismissing a situation message. It is typically used in workflows or approval processes, not in the My Situations app.

* C. Reject: "Reject" is also not a valid dismissal reason in the My Situations app. It may be used in other contexts, such as rejecting purchase requisitions or invoices.
