PMI Agile Certified Practitioner (PMI-ACP)® Sample Questions (Q255-Q260):

NEW QUESTION # 255

While attending a conference, an agile practitioner learns of a new user interface (UI) framework that could benefit the team. What should the agile practitioner do next?

- A. Obtain feedback from team members on the new framework, and then suggest that the product owner create a backlog item to do a spike on it.
- B. **Discuss this option at the next retrospective.**
- C. Identify a team member to do a proof of concept using this framework.

- D. Email the team directing them to immediately begin using this new framework.

Answer: B

NEW QUESTION # 256

How should a project leader manage stakeholder expectations in an agile project?

- A. Involve all the stakeholders in iteration reviews but do not entertain all expectations of all stakeholders.
- B. Communicate issues to all stakeholders via email and only communicate risks to internal stakeholders.
- **C. Establish a common vision and success criteria and involve all the stakeholders in the iteration reviews.**
- D. Invite stakeholders for the iteration reviews but do not include new stakeholders which may limit project success.

Answer: C

NEW QUESTION # 257

A project is starting and the type of work is complex and suitable for agile in assessing the team members, it appears that co-location would be a challenge.

What should the agile practitioner do?

- A. Increase the number of requirements documents and ensure they are clearly communicated
- **B. Select and implement collaboration tools to augment team interactions**
- C. Provide each geographical area with their own product owner and divide the work between the teams
- D. After several sprints, calculate velocity based on primary team location and use secondary team as reserve

Answer: B

NEW QUESTION # 258

Some members of an agile project team work remotely, so it is difficult to have regular face-to-face backlog grooming sessions. How should the agile practitioner ensure that the team is able to reduce miscommunication and rework in this environment?

- **A. Invest in technology-collaboration tools to enable effective communication and ensure a common understanding of the scope, issues, and solutions.**
- B. Recognize the different communication styles of the stakeholders and take a vote on the best approach that will work for the team.
- C. Understand the physical and virtual communication needs of the team and plan agile events based on the majority of the team members' needs.
- D. Escalate with senior management and ensure that everyone on the project team is physically colocated for all planned agile events.

Answer: A

NEW QUESTION # 259

An agile team is struggling with an issue. A team member mentions that another team had a similar issue that was resolved, but lessons learned documents are unavailable.

What should the agile practitioner do?

- A. Encourage the team to independently find a solution.
- B. Suggest that all agile teams share weekly reports on their projects.
- C. Recommend hiring an external expert to advise on the best methods for sharing knowledge among teams.
- **D. Work with the team to create a solution for disseminating team knowledge throughout the company.**

Answer: D

NEW QUESTION # 260

.....
